The Myth of Print Culture is a critique of bibliographical and editorial method, focusing on the disparity between levels of material evidence (unique and singular) and levels of text (abstract and reproducible). It demonstrates how the particulars of evidence are manipulated in standard scholarly arguments by the higher levels of textuality they are intended to support. The individual studies in the book focus on a range of problems: basic definitions of what a book is; statistical assumptions; and editorial methods used to define and collate the presumably basic unit of 'variant.' This work differs from other recent studies in print culture in its emphasis on fifteenth-century books and its insistence that the problems encountered in that historical milieu (problems as basic as cataloguing errors) are the same as problems encountered in other areas of literary criticism. The difficulties in the simplest of cataloguing decisions, argues Joseph Dane, tend to repeat themselves at all levels of bibliographical, editorial, and literary history.

This book deals with the historical development of the Albanian language (its phonology, morphology and lexicon) from prehistoric times to our days. The main focus of the book is the reconstruction of Proto-Albanian in its relation to its ancestor, Indo-European, and to modern Albanian.

Racisms University of Toronto Press

When a young Algerian named Meursault kills a man, his subsequent imprisonment and trial are puzzling and absurd. The apparently amoral Meursault--who puts little stock in ideas like love and God--seems to be on trial less for his murderous actions, and more for what the authorities believe is his deficient character.

"A very clear and engaging introduction to a contemporary analysis of 'race' and racism(s). This text effectively combines key theoretical perspectives with vivid contemporary examples." - Dr Rebecca Barnes, University of Derby "Fantastic book for helping students get past the stuntedness of the term 'racism' to understand the way in which racisms are part of our social practices and institutions. - Dr Lucy Michael, Hull University "This is a solid text, covering the topic in a thoughtful manner. Studying and teaching racism is a complex issue, and this book is a very good resource." - Dr Sanjay Sharma, Brunel University We hear much about 'race' and 'racism' in public discourse but the terms are frequently used without clear definitions or practical examples of how these phenomena work. *Racisms: An Introduction* introduces practical methods which enable students to think coherently and sociologically about this complex feature of the global landscape. Steve Garner argues that there is no single monolithic object of analysis but rather a plural set of ideas and practices that result in the introduction of 'race' into social relations. This differs over time and from one place to another. Focussing on the basics, this book: Defines 'race', 'racism', 'institutional racism' and 'racialization'. Provides examples of how these function in fields like the natural sciences and asylum. Clearly sets out theoretical arguments around collective identities ('race', class, gender, nation, religion). Uses empirical case studies, including some drawn from the author's own fieldwork.

Points students toward sources of further web and text based information. Engaging and accessible this book provides a signposted route into key elements of contemporary debates. It is an ideal introduction for undergraduates studying 'race' and ethnicity, social divisions and stratification.

An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

Art & Design Forms 1 and 2 French & European Publications From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is

where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

The Mystery of Edwin Drood is the final novel by Charles Dickens, [1][2] originally published in 1870. Though the novel is named after the character Edwin Drood, it focuses more on Drood's uncle, John Jasper, a precentor, choirmaster and opium addict, who is in love with his pupil, Rosa Bud. Miss Bud, Edwin Drood's fiancée, has also caught the eye of the high-spirited and hot-tempered Neville Landless. Landless and Edwin Drood take an instant dislike to each other. Later Drood disappears under mysterious circumstances.

Americans are accustomed to anecdotal evidence of the health care crisis. Yet, personal or local stories do not provide a comprehensive nationwide picture of our access to health care. Now, this book offers the long-awaited health equivalent of

national economic indicators. This useful volume defines a set of national objectives and identifies indicators "measures of utilization and outcome" that can "sense" when and where problems occur in accessing specific health care services. Using the indicators, the committee presents significant conclusions about the situation today, examining the relationships between access to care and factors such as income, race, ethnic origin, and location. The committee offers recommendations to federal, state, and local agencies for improving data collection and monitoring. This highly readable and well-organized volume will be essential for policymakers, public health officials, insurance companies, hospitals, physicians and nurses, and interested individuals.

South Asian immigrants have made a significant contribution to the Canadian mosaic. However, their trials and tribulations and their successes and failures constitute a story that remains untold. To know of their arrivals, their struggles to beat the odds, as well as their successes, is to read a story of hard work, of tireless effort to 'make it' of the commitment to belong, and of ultimate success. This process not only re-shaped them from 'who they were' to 'who they are now', but also re-shaped Canada that we know today. Their influence can be felt in the arts and sciences, the humanities and in politics, community works and in social services. This book is an attempt to understand the 'what' and 'how' of that unfolding process, and also to know the real concerns about the conditions of Canada's ethnic minority population, South Asian Canadians and their children in particular. *New Messiahs* Walter de Gruyter

"All is in this book: our lives from hour to hour, the memories that define us, love, redemption...But in the end the question still

remains: “Who will come to bury / he who comes to bury me?” Powerful, crystal clear, intimate and world-building, this book is testimony and proof that the miracle of our lives will continue. New Messiahs is the right title.” —Tomaz Salamun, winner of the Slovenian National Book Award “In Henry Israeli’s debut book, we are still on the infamous train of the twentieth century, there’s no getting off, and we’re all responsible and helpless. Thankfully, however, these poems are noble memories of transformations, they allow that we are made of “little bones that contemplation holds together.” How the spirit carries the wounded body around in here! You can feel the real wind rage, feel yourself tested.” —Jane Miller, winner of a Lila Wallace Reader's Digest Award and a Guggenheim Fellowship

The Mystery of Edwin Drood Illustrated Springer

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his

city. Through the boy’s eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy’s story are tantalizing fragments of the city’s history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The Encyclopedia of Indo-European Culture is a major new reference work that provides full, inclusive coverage of the major Indo-European language stocks, their origins, and the range of the reconstructed Proto-Indo-European language. The Encyclopedia also includes numerous entries on archaeological cultures having some relationship to the origin and dispersal of Indo-European groups -- as well as entries on some of the major issues in Indo-European cultural studies. There are two kinds of entries in the

Encyclopedia of Indo-European Culture: a) those that are devoted to archaeology, culture, or the various Indo-European languages; and b) those that are devoted to the reconstruction of Proto-Indo-European words. Entries may be accessed either via the General Index or the List of Topics: Entries by Category where all individual reconstructed head-forms can also be found. Reference may also be made to the Language Indices. In order to make the book as accessible as possible to the non-specialist, the Editors have provided a list of Abbreviations and Definitions, which includes a number of definitions of specialist terms (primarily linguistic) with which readers may not be acquainted. As the writing systems of many Indo-European groups vary considerably in terms of phonological representation, there is also included a list of Phonetic Definitions. With more than 700 entries, written by specialists from around the world, the Encyclopedia of Indo-European Culture has become an essential reference text in this field.
