The Buddha and His
Dhamma was B.R.
Ambedkar's last work.
Published posthumously,
it presented a radical
reorientation of Buddhist
thought and literature,

aptly called navayana. It
deals with Ambedkar's
conceptualization of
Buddhism and the
possibilities it offered for
liberation and upliftment
of the Dalits. It presents
his reflections on the life
of the Buddha, his
teachings, and the spread
of Buddhism by
interweaving anecdotes
with detailed analyses of
the religion's basic tenets.

The author also includes
important elements of the
Buddhist canon and
tradition to make the
teachings more
accessible. In the first
critical and annotated
edition of this work, the
editors address the on-
going debate on
Ambedkar's interpretation
of the Buddha's dhamma
by focusing on the
accuracy of his citations

and providing missing sources. They also discuss Ambedkar's modification of source materials. The introduction contextualizes the scholarly work related to the text.

The religions of the world preserve the knowledge and protect the secrets of ancient powerful mantras. At the heart of world religion, and among the most powerful mantras in the history of religion, is the Navkar mantra, or Trimantra. In the book

“Trimantra”, Gnani Purush (embodiment of Self knowledge) Dada Bhagwan explains the Trimantra, its mantra meaning, and the extraordinary benefits of its recitation. Whether wishing to live with no worry while facing problems in everyday life, wondering how to get inner peace, or on a spiritual quest seeking spiritual enlightenment (self realization), utilizing Trimantra provides that - and more. Among the many spiritual books available today,

Dadashri's spiritual guidance about the value of Trimantra, and how to best access its spiritual power, is invaluable.

"Essential reading for anyone who wants to understand history - and then go out and change it." -President Barack Obama Nelson Mandela was one of the great moral and political leaders of his time: an international hero whose

lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. After his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela was at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward

multiracial government and majority rule. He is still revered everywhere as a vital force in the fight for human rights and racial equality. Long Walk to Freedom is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela told the extraordinary story of his life -- an epic of struggle, setback, renewed hope, and ultimate triumph. The book that inspired the

major motion picture Mandela: Long Walk to Freedom.

History of Indian Journalism Simon and Schuster

A Yakshagana folk theatre piece, combining music, dance and drama. Two young heroes, Devadatta, a man of the intellect, and Kapila, a man of the body, are both attracted to Padmini, who marries Devadatta. When the rivalry threatens their friendship each man commits suicide by cutting off his own head. Through the intervention

of the goddess Kali the men are brought back to life but Padmini accidentally mixes the heads up, attaching them to the wrong bodies. A subplot fleshes out the theme of the search for completeness:

Hayavadana wants to lose his horse's head and become fully human.

This book represents the proceedings from a conference that took place in Dallas in the spring of 1999 which was entitled "Pediatric Gender Assignment - A Critical Reappraisal". Some participants rightfully argued that the conference really focused

on the issue of pediatric gender assignment, and that reassignment was not applied in most cases. Their comments were reflected in the title of this monograph. This multidisciplinary meeting was sponsored by a conference grant from the National Institutes of Health, and a broad inquiry into this complex topic took place from many points of view. Basic scientists offered insight into mechanisms of sexual differentiation of the gonads, physical phenotype and imprinting

of the central nervous system. Endocrinologists reviewed their experience in diagnosis and management, surgeons described traditional as well as innovative approaches, and there was strong representation from the ethical and behavioral sciences. In putting together such a panel, it was essential that we identify a cast of speakers who could address their viewpoints with strong convictions, and yet not let their passions render the meeting counter

productive. We were not disappointed. While many differing points of view were firmly expressed by the panelists and audience, all viewpoints were accorded the respect they deserved. The concept behind the meeting and this book really originated in 1997 shortly after Diamond and Sigmundson published their long term follow up study of the John/Joan case.

Reality at Dawn Is one of

the greatest yogic texts of the modern era. Written in the 1940s by Ram Chandra of Shahjahanpur, known as Babuji, it lights the path for seekers to explore Realisation and further onwards to the Centre of existence itself. Babuji writes in simple language, unravelling the most profound principles and wisdom, and it is from this deep wisdom that the practices of Heartfulness emerged. "Babuji has laid out the practical steps to reach the highest spiritual state available to human beings. He has also made

this possibility available to all, no matter their current level of attainment, culture, education or background. In doing so, he has demystified spirituality and given it to the people."

The Vedas and Upanishads for Children
Oxford University Press
Three thousand years ago, deep inside the forests of India, a great 'thought revolution' was brewing. In those forest labs, the brightest thinker--philosophers

contemplated the universe, reflected on ancient texts called the Vedas and came up with startling insights into questions we still don't have final answers to, like: • What is the universe made of? • How do I know I'm looking at a tree when I see one? • Who am I? And where did they put those explosive findings? In a sprawling body of goosebumpy and fascinating oral literature called the Upanishads! Intimidated? Don't be! For this joyful, fun guide to some of India's longest-

lasting secular wisdoms, reinterpreted for first-time explorers by Roopa Pai, is guaranteed to keep you turning the pages.

Kabir was a 15th century Indian spiritual master who left a legacy of extraordinary poems which continue to capture the imagination of a diverse audience today. The poems downplay the importance of ritual and austerity, and teach that God is not confined to centers of worship or places of pilgrimage but

found everywhere in creation. Most importantly, God is within us and this is where we must meet him. Kabir elevates us into the realm of the spirit - a world of beauty, majesty, even romance, where the relationship between lovers is a recurring metaphor for our relationship to the divine. For the last century, Rabindranath Tagore's classic translation, "Songs of Kabir," has been the standard, but over the years it has suffered the

ravages of time. In "Kabir Says," David Masterman has reworked Tagore's translation and breathed new life into it for the 21st century reader. But this edition goes beyond merely updating language and style; it considerably enhances the poetic form and flow of the English translation, and a new introduction and appendix have also been added to add depth to the reader's understanding.

Nyana is the most rational

and logical of all the classical Indian philosophical systems. In the study of Nyana philosophy, Karikavali with its commentary Muktavali, both by Visvanatha Nyayapancanana, with the commentaries Dinakari and Ramarudri, have been of decisive significance for the last few centuries as advanced introductions to this subject. The present work concentrates on inference (anumana) in Karikavali, Muktavali and Dinakari, carefully divided

into significant units according to the subject, and translates and interprets them. Its commentary makes use of the primary interpretation in Sanskrit contained especially in the Ramarudri and Subodhini. The book begins with the Sanskrit texts of Karikavali and Muktavali; followed by English translation of these texts. Next is given the Sanskrit text of Dinakari which comments on the first two texts, followed by its English translation. Lastly, the book contains a

commentary on all the texts included.

Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel

Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the

outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

The Biology Book Dada Bhagwan Foundation Translated by the author 'Tamasdrove the point home that ordinary people want to live in peace' The Guardian Set in a small-town frontier province in 1947, just before Partition, Tamas tells the story of a sweeper named Nathu who is bribed and deceived by a local Muslim politician to kill a

pig, ostensibly for a veterinarian. The following morning, the carcass is discovered on the steps of the mosque and the town, already tension-ridden, erupts. Enraged Muslims massacre scores of Hindus and Sikhs, who, in turn, kill every Muslim they can find. Finally, the area's British administrators call out the army to prevent further violence. The killings stop but nothing can erase the

awful memories from the minds of the survivors, nor will the various communities ever trust one another again. The events described in Tamas are based on true accounts of the riots of 1947 that Sahni was a witness to in Rawalpindi, and this new and sensitive translation by the author himself resurrects chilling memories of the consequences of communalism which are of immense relevance

even today.
