For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society. The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without

producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as *Land of Hope* brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of *Land of Hope* will find both in its pages.

Yes, you can write a great screenplay. Let Syd Field show you how. “I based *Like Water for Chocolate* on what I learned in Syd's books. Before, I always felt structure imprisoned me, but what I learned was structure really freed me to focus on the story.”—Laura Esquivel

Technology is transforming the art and craft of screenwriting. How does the writer find new ways to tell a story with pictures, to create a truly outstanding film? Syd Field shows what works, why, and how in four extraordinary films: *Thelma & Louise*, *Terminator 2: Judgement Day*, *The Silence of the Lambs*, and *Dances with Wolves*. Learn how: Callie Khouri, in her first movie

script, *Thelma & Louise*, rewrote the rules for good road movies and played against type to create a new American classic. James Cameron, writer/director of *Terminator 2: Judgement Day*, created a sequel integrating spectacular special effects and a story line that transformed the Terminator, the quintessential killing machine, into a sympathetic character. This is how an action film is written. Ted Tally adapted Thomas Harris's chilling 350-page novel, *The Silence of the Lambs*, into a riveting 120-page script—a lesson in the art and craft of adapting novels into film. Michael Blake, author of *Dances with Wolves*, achieved every writer's dream as he translated his novel into an uncompromising film. Learn how he used transformation as a spiritual dynamic in this work of mythic sweep.

Informative and utterly engrossing, *Four Screenplays* belongs in every writer's library, next to Syd Field's highly acclaimed companion volumes, *Screenplay*, *The Screenwriter's Workbook*, and *Selling a Screenplay*. "If I were writing screenplays . . . I would carry Syd Field around in my back pocket wherever I went."—Steven Bochco, writer/producer/director, *L.A. Law*, *Hill Street Blues*

John Truby is one of the most respected and sought-after story consultants in the film industry, and his students have gone on to pen some of Hollywood's most successful films, including *Sleepless in Seattle*, *Scream*, and *Shrek*.

The Anatomy of Story is his long-awaited first book, and it shares all of his secrets for writing a compelling script. Based on the lessons in his award-winning class, Great Screenwriting, The Anatomy of Story draws on a broad range of philosophy and mythology, offering fresh techniques and insightful anecdotes alongside Truby's own unique approach for how to build an effective, multifaceted narrative. Truby's method for constructing a story is at once insightful and practical, focusing on the hero's moral and emotional growth. As a result, writers will dig deep within and explore their own values and worldviews in order to create an effective story. Writers will come away with an extremely precise set of tools to work with—specific, useful techniques to

make the audience care about their characters, and that make their characters grow in meaningful ways. They will construct a surprising plot that is unique to their particular concept, and they will learn how to express a moral vision that can genuinely move an audience. The foundations of story that Truby lays out are so fundamental they are applicable—and essential—to all writers, from novelists and short-story writers to journalists, memoirists, and writers of narrative non-fiction.

From the master of Story, Dialogue, and Character, ACTION offers writers the keys to propulsive storytelling. ACTION explores the ways that a modern-day writer can successfully tell an action

story that not only stands apart, but wins the war on clichés. Teaming up with the former co-host of The Story Toolkit, Bassim El-Wakil, legendary story lecturer Robert McKee guides writers to award-winning originality by deconstructing the action genre, illuminating the challenges, and, more importantly, demonstrating how to master the demands of plot with surprising beats of innovation and ingenuity. Topics include: Understanding the Four Core Elements of Action Creating the Action Cast Hook, Hold, Pay Off: Design in Action The Action Macguffin Action Set Pieces The Sixteen Action Subgenres A must-add to the McKee storytelling library, ACTION illustrates the principles of narrative drive with precision and clarity by referencing the most popular action

movies of our time including: Die Hard, The Star Wars Saga, Dark Knight, The Matrix, and Avengers: Endgame. *The Idea* Three Rivers Press (CA) Stories, whether they are fact or fiction, popular or not, are a proven method of pedagogy. In the age of media convergence and with the advancement of technology, stories have morphed into new forms; however, their core purpose remains the same, which is to pass on knowledge and information. The internet, with its inherent interactivity, and story, with its inherent capacity to engage, can lead to innovative and transformative learning experiences in media-rich environments. This book focuses on web-based Transmedia Storytelling Edutainment (TmSE) as an andragogical practice in higher

education. Story is at the forefront of this investigation because narrative is the basis for developing entertainment media franchise that can be incorporated into pedagogical practice. The propulsion of this analysis consists of practice-based research through narrative inquiry and an e-module case study presented on multimedia storytelling in the classroom. A Transmedia Storytelling Framework is provided for creating screenplays for cross-media projects and for analyzing their appropriateness in education. Additionally, a hypertext screenplay, which allowed students to dig deeper into the story word and to build more knowledge, is evaluated for its use in higher education. Since screenplays are by nature writing for the screen, it is

believed that the more visual the input, the more likely it is to be memorized and recalled. A link to The Goddess Within screenplay is available for download on the right hand side of this page.

"Starting with the origins of writing five thousand years ago, with cuneiform and Egyptian hieroglyphs, Andrew Robinson explains how these early forms of writing developed into hundreds of scripts including the Roman alphabet and the Chinese characters. He reveals how the modern writing system we take for granted - including airport signage and electronic text messaging - resemble

ancient scripts much more closely than we think." --Book Jacket.
