 The Model Rules of
 Professional Conduct
 provides an up-to-date
 resource for
 information on legal
 ethics. Federal, state
 and local courts in all
 jurisdictions look to the
 Rules for guidance in
 solving lawyer
 malpractice cases,
 disciplinary actions,

disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the

context of society and culture.
