We'll take you step-by-step through five projects you can build yourself as a beginner: an inspiration tile, kitchen cutting board, custom block stamp, fidget spinner, and balsa wood glider. Getting Started with 3D Carving: Five Step-By-Step ... Getting Started with 3D Carving. For years, 3D printing has been the hot topic in the maker world. But there's another type of desktop manufacturing that's become the go-to choice for anyone who needs quick, durable results—3D carving. Instead of slowly depositing layers of plastic, a 3D carver starts with a solid block of material and carves away using a rotating metal bit. 3D carving is faster than 3D printing, offers a wider choice of materials, and creates quality, permanent products.
