AUGUST REINA

Learning Latin and Greek from Antiquity to the Present Penguin
 With enthusiasm and wry wit, author Jones takes you step by step through the rudiments of the Western World's first great language--the medium of Plato and the New Testament. Introduces the Greek alphabet, explains each grammar point in layman's terms, gives plenty of study hints, provides answers for the exercises, and even presents a "to-do" list at the end of most chapters. Not too far into the book you'll already be reading masterful Greek literature, in extracts chosen from such authors as Plato, Sophocles, and Thucydides. Offers a discussion of Greek history and culture in each chapter, and another feature that looks closely at Greek words, with special emphasis on related words in English.--From publisher description.
Latin Forms of Address Cambridge University Press
 Teaches children the basics of Latin grammar and vocabulary, as well as Roman British history and culture, through vocabulary lists, mythical tales, and illustrations.
 The World Book Encyclopedia Oxford University Press on Demand

During the Roman empire Greek speakers learned Latin using textbooks that still offer special advantages: authentic and enjoyable vignettes about the ancient world, easy Latin composed by Romans, insight into ancient learning practices. This book makes the ancient Latin-learning materials available to modern students for the first time.

Learning Latin the Ancient Way Barnes & Noble
Basics of Latin: A Grammar with Readings and Exercises from the Christian Tradition by Derek Cooper introduces students, independent learners, and homeschoolers to the basics of Latin grammar with all readings and exercises taken from texts in the Christian tradition. As part of the widely-used Zondervan Language Basics series of resources, Cooper's Latin grammar is a student-friendly introduction. It helps students learn by:
 Minimizing technical jargon
 Providing only the information needed to learn the basics
 Breaking the grammar of language down into manageable and intuitive chunks
 Illustrating the grammar in question by its use in rich selections from ancient Christian authors. Providing grammar, readings, exercises, and a lexicon all in one convenient volume. *Basics of Latin* provides an ideal first step into this important language and focuses on getting the student into texts and translation as quickly as

possible.

Learn Latin from the Romans Barnes & Noble Publishing

Apple and Android versions available. Also available: Get Started in Beginner's Latin book and CD pack (ISBN 9781444176340). Rely on Teach Yourself, trusted by language learners for over 75 years.

Long Live Latin CUA Press

Since its publication in 1990, *Athenaze: An Introduction to Ancient Greek* has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. James Morwood, editor of the *Oxford Grammar of Classical Greek* and the *Pocket Oxford Classical Greek Dictionary*, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' *Acharnians*. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

Reading Greek Bloomsbury Publishing

For nearly sixty years, Wheelock's Latin has remained the optimum liber of beginning Latin textbooks. When Professor Frederic M. Wheelock's Latin first appeared in 1956, the reviews extolled its thoroughness, organization, and conciseness; one reviewer predicted that the book "might well become the standard text" for introducing students to elementary Latin. Now, nearly six decades later, that prediction has certainly proved accurate. This new edition of Wheelock's Latin has all of the features, many of them improved and expanded, that have made it the bestselling single-volume beginning Latin textbook: 40 chapters with grammatical explanations and readings drawn from the works of Rome's major prose and verse writers; Self-tutorial exercises, each with an answer key, for independent study; An extensive English-Latin/Latin-English vocabulary section; A rich selection of original Latin readings—unlike other Latin textbooks, which contain primarily made-up texts; Etymological aids, maps, and dozens of images illustrating aspects of the classical culture and mythology presented in the chapter readings. Also included are expanded notes on the literary passages, comments on vocabulary, and translation tips; new comprehension and discussion questions; and new authentic classical Latin readings, including Roman graffiti, in every chapter.

Ancient Greek scholarship constitutes a precious resource for classicists, but one that is underutilized because graduate students and even mature scholars lack familiarity with its

conventions. The peculiarities of scholarly Greek and the lack of translations or scholarly aids often discourages readers from exploiting the large body of commentaries, scholia, lexica, and grammatical treatises that have been preserved on papyrus and via the manuscript tradition. Now, for the first time, there is an introduction to such scholarship that will enable students and scholars unfamiliar with this material to use it in their work. *Ancient Greek Scholarship* includes detailed discussion of the individual ancient authors on whose works scholia, commentaries, or single-author lexica exist, together with explanations of the probable sources of that scholarship and the ways it is now used, as well as descriptions of extant grammatical works and general lexica. These discussions, and the annotated bibliography of more than 1200 works, also include evaluations of the different texts of each work and of a variety of electronic resources. This book not only introduces readers to ancient scholarship, but also teaches them how to read it. Here readers will find a detailed, step-by-step introduction to the language, a glossary of over 1500 grammatical terms, and a set of more than 200 passages for translation, each accompanied by commentary. The commentaries offer enough help to enable undergraduates with as little as two years of Greek to translate most passages with confidence; in addition, readers are given aids to handling the ancient numerical systems, understanding the references found in works of ancient scholarship, and using an apparatus criticus (including an extensive key to the abbreviations used in an apparatus). Half the passages are accompanied by a key, so that the book is equally suitable for those studying on their own and for classes with graded homework.

Aristotle's Metaphysics in English, Latin and Ancient Greek
Cambridge University Press

This book provides English translations of newly discovered texts in an easily understandable presentation, with extensive illustrations.

Vox Latina Cambridge University Press

The twenty clear, high-spirited, and anxiety-free chapters allow you to master enough grammar and vocabulary to confidently read the poems of Catullus or the Latin Bible in just twenty weeks.

Learn to Read Latin Bloomsbury Publishing

Getting Started with Latin is divided into simple lessons that explain the fundamentals of Latin grammar in a way that anyone can grasp.

Oxford Latin Course Abrams

Taken from the "QED" series of teach-yourself Latin articles published in the *Daily Telegraph* and the *Sunday Telegraph*, this book provides a basic knowledge of Latin in a short space of time. It covers just enough to give a basic understanding of Latin, and to enable readers to read and understand parts of the Bayeux Tapestry, the love poetry of Catullus, or Saint Jerome's Vulgate. This book also aims to give a deeper understanding of modern European languages, such as English, French, Spanish, and Italian, through an understanding of the ancient language at their heart.

Ossa Latinitatis Sola Ad Mentem Reginaldi Rationemque
Penguin

This is a reissue of the second edition of a book on the pronunciation of Latin in Rome in the Golden Age. It has a section of supplementary notes which deal with subsequent developments in the subject. The author has also added an appendix on the names of the letters of the Latin alphabet.

Wheelock's Latin, 6th Edition Revised Hackett Publishing

"Presents ancient and neo-Latin language phrases and conversations on a variety of topics. Includes pronunciation guide, bibliography, and English to Latin vocabulary. Expanded

and enlarged from the 3rd edition (2003)"--Provided by publisher. *Complete Latin Beginner to Intermediate Book and Audio Course* Harper Collins

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's *Odyssey* and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Basics of Latin Bristol Classical Press

On September 12, 1609, Henry Hudson first set foot on the land that would become Manhattan. Today, it's difficult to imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. *Mannahatta: A Natural History of New York City* is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an 18th-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson re-creates the forests of Times Square, the meadows of Harlem, and the wetlands of downtown. His lively text guides readers through this abundant landscape, while breathtaking illustrations transport them back in time. *Mannahatta* is a groundbreaking work that provides not only a window into the past, but also inspiration for the future.

Cambridge University Press

One of the most successful Classical Greek introductory textbooks, this edition provides an introduction to Classical Greek with an encouraging, pleasant, and accessible presentation for today's modern students. Fifty short lessons presume no knowledge of Latin, and allow students to master a concept before moving on to the next. Each lesson is accompanied by numerous exercises, as well as manageable selections of Ancient Greek writings (edited in early chapters) from Aesop's most amusing and curious fables to concise Greek passages from The New Testament, Aristotle, Arrian, Demosthenes, Lysias, Plato, Thucydides, and Xenophon. The fourth edition of *From Alpha to Omega* retains all the features that have made it a best-selling introductory Greek textbook, many of them improved or expanded: Balanced, evenly-paced lessons to accommodate various academic schedules Brief readings from Ancient Greek authors Efficient translation exercises Succinct, instructive

vocabulary lists Glossary containing all vocabulary words from lessons and readings, both Greek-to-English, and English-to-Greek Online exercises, audio recordings, video tutorials, and more accompany each chapter at courses.pullins.com. An Ancillary Exercise Workbook and a Greek Reader are also available.

The Beginner's Latin Book Cambridge University Press

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference section. It outlines the main declensions, a range of active tenses and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

Learn Latin Harper Collins

An Italian journalist pleads her case for learning ancient Greek in modern times. For word nerds, language loons, and grammar geeks, an impassioned and informative literary leap into the wonders of the Greek language. Here are nine ways Greek can transform your relationship to time and to those around you, nine reflections on the language of Sappho, Plato, and Thucydides, and its relevance to our lives today, nine chapters that will leave readers with a new passion for a very old language, nine epic reasons to love Greek. *The Ingenious Language* is a love song dedicated to the language of history's greatest poets, philosophers, adventurers, lovers, adulterers, and generals. Greek, as Marcolongo explains in her buoyant and entertaining prose, is unsurpassed in its beauty and expressivity, but it can also offer us new ways of seeing the world and our place in it. She takes readers on an astonishing journey, at the end of which, while it may still be Greek to you, you'll have nine reasons to be glad it is. No batteries or prior knowledge of Greek required! Praise for *The Ingenious Language* "Andrea Marcolongo is today's Montaigne. She possesses an amazing familiarity with the classics combined with the ease and lightness of those who surf the web." ?André Aciman, *New York Times*-bestselling author of *Find Me* "[Marcolongo's] declaration of love for Ancient Greek does more than celebrate the virtues of its grammar, it shows us modern fools how this language can help us understand ourselves better and live a better life." ?Le Monde (France)
