Understand the role each stakeholder plays in the Opportunity Zone ecosystem - one that can drive new investment, development, and job creation in left-behind communities across America. The 2017 Tax Cuts and Jobs Act (TCJA) brought to life the first new community development tax incentive in decades. Opportunity Zones (OZs) were created to spur economic development and job creation in distressed communities by offering tax incentives to those who provide new capital investments in these areas. As a growing marketplace takes shape around OZs, there's far more unknown than known about how they can and should be implemented. The rules released by the IRS over the course of 2018 and 2019 are complex and

number in the hundreds of pages. "The Guide to Making Opportunity Zones Work," co-edited by leading Opportunity Zone advisors Ira Weinstein, who oversees advisory, assurance and tax for stakeholders across the OZ landscape, and Steve Glickman, who helped architect the legislation behind the initiative. Inside you'll find: - Plain-English breakdowns of the various terms, tests, and other rules specific to the world of OZs (with graphics and examples)- Individual chapters offering insights for specific OZ stakeholderso Investorso Fund managerso Real estate developerso Entrepreneurs and business ownerso OZ community leaders- Plus, insights on how these groups fit together, and how they can collaborate to best drive new economic activity in

struggling communities across America. Think of this guide as a tutorial that covers the nuts and bolts of OZ investing - one that provides advice and information for each of the key participant groups needed to create and support a healthy OZ ecosystem.

 Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of

the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the

Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the

Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.
