What makes a national community out of a state? Addressing this fundamental question. Rajagopalan studies national integration from the perspective of three South Asian communities - Tamilians in India, Sindhis in Pakistan, and Tamils in Sri Lanka - that have a history of secessionism in common, but with vastly different outcomes Rajagopalan investigates why integration is relatively successful in some cases (Tamil Nadu), less so in others (Sindh), and disastrous in some (Sri Lanka). Broadly comparative and drawing together multiple aspects of political development and nation building, her imaginative exploration of the tension between state and nation gives voice to relatively disenfranchised sections of society.

From Syrian civilians locked in iron cages to veterans joining peaceful indigenous water protectors at the Standing Rock Sioux Reservation, from Sri Lanka to Iraq and from Yemen to the United States, human beings have been used as shields for protection, coercion, or deterrence. Over the past decade, human shields have also appeared with increasing frequency in antinuclear struggles, civil and environmental protests, and even computer games. The phenomenon, however, is by no means a new one. Describing the use of human shields in

key historical and contemporary moments across the globe, Neve Gordon and Nicola Perugini demonstrate how the increasing weaponization of human beings has made the position of civilians trapped in theaters of violence more precarious and their lives more expendable. They show how the law facilitates the use of lethal violence against vulnerable people while portraying it as humane, but they also reveal how people can and do use their own vulnerability to resist violence and denounce forms of dehumanization. Ultimately, Human Shields unsettles our common ethical assumptions about violence and the law and urges us to imagine entirely new forms of humane politics.

Sonali Perera expands the discourse on working-class fiction by considering a range of international, noncanonical texts, identifying textual, political, and historical linkages overlooked by Eurocentric scholarship. Her readings connect the literary radicalism of the 1930s to the feminist recovery projects of the 1970s, and the anticolonial and postcolonial fiction of the 1960s to today's counterglobalist struggles, building a new portrait of the twentieth century's global economy and the experiences of the working class within it. Perera considers novels by the Indian anticolonial writer Mulk Raj Anand; the American proletarian writer Tillie Olsen; Sri Lankan Tamil/Black British writer and political journalist Ambalavaner Sivanandan; Indian writer and bonded-labor activist Mahasweta Devi; South African-born Botswanan Bessie Head; and the fiction and poetry published under the collective signature Dabindu, a group of free-trade-zone garment factory workers and feminist activists in contemporary Sri Lanka. Upsetting the North-South divide, Perera creates a new genealogy of working-class writing as world literature and transforms the ideological underpinnings casting literature as cultural practice.

State and Nation in South Asia Bombay : Gospel Literature Service for Living Light Publications

"In its early phase, "Subaltern Studies" dealt extensively with the issue of community and violence in the context of peasant uprisings. Once the problems of peasant involvement in the modern politics of the nation were subjected to the same critical scrutiny, complexities in that relationship began to emerge. A new dimension was introduced when gender and national politics came to be taken seriously and in the present volume the whole range of new issues raised by the relations between community, gender and violence are addressed. The question of women and the nation, especially among minorities, features strongly in this work. Qadri Ismail examines the claims of Tamil nationalism in Sri Lanka from the standpoint of the Southern Tamil woman; Aamir Mufti looks not at the familiar gendered figure of the nation as mother but, from the standpoint of the rejected minority, at the brutalized prostitute; while Tejaswini Niranjana writes on the "new woman" in contemporary Indian cinema. Further chapters look at women and minorities in the context of the law: Flavia Agnes examines the colonial and nationalist histories of the Hindu law of marriage and women's property, Nivedita Menon critically reviews the Indian debate over the universal civil code, and David Scott discusses, with an eye to Sri Lanka, the concept of minority rights within modern

theories of citizenship. The issue of violence is taken up by Satish Deshpande in his study of the imagined space within which the new Hindu Right seeks to assert its dominance, and by Pradeep Jeganathan in his exploration of violence in the cultivation of masculinity. In her conclusion, Gayatri Chakravorty Spivak considers the position within a globalized economic space of the "new subaltern"--The Third World laboring woman." -- from <http://books.google.com> (Nov. 10, 2010).

"Will be of interest to those working on conflict and peace studies, economic development, cultural studies, and women in the modern world. A key new publication." -- Chandra R. de Silva, Old Dominion University "... offers a superb overview of how a civil war, driven by ethnicity, can engender a new culture and a new political economy... Highly recommended." -- Choice Economy, Culture, and Civil War in Sri Lanka provides a lucid and up-to-date interpretation of Sri Lankan society and its 20-year civil conflict. An interdisciplinary examination of the relationship between the economy, broadly defined, and the reproduction of violent conflict, this volume argues that the war is grounded not just in the goals and intentions of the opposing sides, but also in the everyday orientations, experiences, and material practices of all Sri Lankan people. The contributors explore changing political and policy contexts; the effect of long-term conflict on employment opportunities and life choices for rural and urban youth; life histories, memory, and narratives of violence; the "economics of enlisting" and individual decisions about involvement in the war; and nationalism and the moral debate triggered by women's employment in the international garment manufacturing industry. Contributors are Francesca Bremner, Michele Ruth Gamburd, Newton Gunasinghe, Siri T. Hettige, Caitrin Lynch, John M. Richardson, Jr., Amita Shastri, Deborah Winslow, and Michael D. Woost.

The sangam, Some sangam poets a study, Some tamil Mystic poets, Tiruvalluvar, Administrative institutions, The art of war, Social life in tamil land, *Politics of Tamil Nationalism in Sri Lanka* Tiruchitrambalam, India : G. Vidyalyayam Through a succession of key stages since Sri Lanka (formerly Ceylon) became independent in 1948, its Tamil minority, historically concentrated in the north and east but with an important segment in Colombo, became alienated from the Sinhalese majority and, after peaceful opposition failed to secure its rights, resorted to an armed struggle. The Tamil Tigers (LTTE) today appear to hold the key to their people's future. While they have suffered setbacks, including the loss of the Tamil capital, Jaffna, they remain a potent guerrilla force, able to strike with impunity at both military and civilian targets. The Tigers' grip on the Tamil population seems secure, as does their overseas support and funding from Tamil exiles in Britain, Canada, and Australia. This book offers a concise history of the Sri Lankan Tamil nation, its culture, social make-up, and political evolution. In a final chapter, A. J. V. Chandrakanthan gives a first-hand account of life and attitudes inside the embattled Tamil areas today. A. Jeyaratnam Wilson teaches in the Department of Political Science at the University of New Brunswick. He is the author of *The Break-Up of Sri Lanka* and *S. J. V. Chelvanayakam and the Crisis of Sri Lankan Tamil Nationalism*. A. J. V. Chandrakanthan teaches in the Department of Theology at Concordia University, Montreal.

Hybrid Knowledge in the Early East India Company World presents a new interpretation of the development of the English East India Company between 1660 and 1720. The book explores the connections between scholarship, patronage, diplomacy, trade, and colonial settlement in the early modern world. Links of patronage between cosmopolitan writers and collectors and scholars associated with the Royal Society of London and the universities are investigated. Winterbottom shows how innovative works of scholarship - covering natural history, ethnography, theology, linguistics, medicine, and agriculture - were created amid multi-directional struggles for supremacy in Asia, the Indian Ocean and the Atlantic. The role of non-elite actors including slaves in transferring knowledge and skills between settlements is explored in detail.

Philosopher, physicist, and anarchist Paul Feyerabend was one of the most unconventional scholars of his time. His book *Against Method* has become a modern classic. Yet it is not well known that Feyerabend spent many years working on a philosophy of nature that was intended to comprise three volumes covering the period from the earliest traces of stone age cave paintings to the atomic physics of the 20th century - a project that, as he conveyed in a letter to Imre Lakatos, almost drove him nuts: "Damn the ,Naturphilosophie." The book's manuscript was long believed to have been lost. Recently, however, a typescript constituting the first volume of the project was unexpectedly discovered at the University of Konstanz. In this volume Feyerabend explores the significance of myths for the early period

of natural philosophy, as well as the transition from Homer's "aggregate universe" to Parmenides' uniform ontology. He focuses on the rise of rationalism in Greek antiquity, which he considers a disastrous development, and the associated separation of man from nature. Thus Feyerabend explores the prehistory of science in his familiar polemical and extraordinarily learned manner. The volume contains numerous pictures and drawings by Feyerabend himself. It also contains hitherto unpublished biographical material that will help to round up our overall image of one of the most influential radical philosophers of the twentieth century.

Tamils have a long history starting from the pre-historic period. Retracing their history is facilitated by various sources. One-third of India's epigraphical sources pertain to Tamil Nadu and one of the dynasties of Tamil Nadu - the Pandyas - had the privilege of continuous rule from third century B.C. to sixteenth century A.D. It is a unique accomplishment in the annals of history, since very few dynasties in the world have reigned for such a long time. A remarkable feature of the Tamils is that they are the founders of Dravidian architecture. In this book, the author has updated the Tamil Nadu history with recent findings. As books dealing with Tamil Nadu history comprehensively, including all its aspects and new historical evidences, are not available, this endeavour to present all the details in a single book was undertaken. It can be a helpful and illuminative aid to students of UG and PG courses in History and those who prepare for competitive examinations. General readers will be interested in the information given here and they can gain knowledge of the rich tradition and different facets of people and life in Tamil Nadu in many ages. Besides political history, the social, economic and religious aspects are dealt with in detail, thereby giving a complete view of the life and growth of people in Tamil Nadu. For the better and thorough understanding of details, maps and pictures are given at appropriate places.
