Combining the latest thinking in the field with practical, step-by-step guidance, the Third Edition of John W. Creswell and Vicki L. Plano Clark's *Designing and Conducting Mixed Methods Research* now covers seven mixed methods designs with accompanying journal articles illustrating each design. The authors walk readers through the entire research process, and present updated examples from published mixed methods studies drawn from multiple disciplines. In addition, this new edition includes information about the dynamic and evolving nature of the field of mixed methods research, four additional methodological approaches, and coverage of new directions in mixed methods.

"The first exhibition to offer a critical assessment of the artistic experimentation that took place in Mexico during the last three decades of the

twentieth century. The exhibition carefully analyzes the origins and emergence of techniques, strategies, and modes of operation at a particularly significant moment of Mexican history, beginning with the 1968 Student Movement, until the Zapatista uprising in the State of Chiapas. The show includes work by a wide range of artists, including Francis Alys, Vicente Rojo, Jimmie Durham, Helen Escobedo, Julio Galán, Felipe Ehrenberg, José Bedia, Guillermo Gómez-Peña, Francisco Toledo, Carlos Amorales, Melanie Smith, and Alejandro Jodorowsky, among many others. The edition is illustrated with 612 full-color plates of the art produced during these last three decades of the twentieth century reflect the social, political and technical developments in Mexico and ranged from painting and photography to poster design, installation, performance, experimental theatre, super-8 cinema, video, music, poetry and popular culture like the films and ephemeral actions of 'Panic' by Alejandro Jodorowsky, Pedro Friedeberg's pop art, the conceptual art, infrarrealists and urban independent photography, artists books, the development of contemporary political photography, the participation of Mexican artists in Fluxus in the seventies and the contribution of Ulises Carrión to the international artist book movement and popular rock music, the pictorial battles of the eighties and the emergence of a variant of neo-conceptual art in 1990. The late Ananda K. Coomaraswamy, curator of Indian art at the Boston Museum of Fine Arts, uniquely combined art historian, philosopher, orientalist, linguist, and expositor in his person. His knowledge of the arts and handcrafts of the Orient was unexcelled and his numerous monographs on Oriental art either established or revolutionized entire fields. He was also a great Orientalist, with an almost unmatched understanding of traditional culture. He covered the philosophic and religious experience of the entire premodern world, east and west, and for him primitive, medieval European, and classical Indian experiences of truth and art were only different dialects in a common language. Finally, Coomaraswamy was a provocative writer,

whose erudition was expressed in a delightful, aphoristic style. The nine essays in this book are among his most stimulating. They discuss such matters as the true function of aesthetics in art, the importance of symbolism, and the importance of intellectual and philosophical background to the artist; they analyze the role of traditional culture in enriching art; they demonstrate that abstract art and primitive art, despite superficial resemblances, are completely divergent; and they deal with the common philosophy which pervades all great art, the nature of medieval art, folklore and modern art, the beauty inherent in mathematics, and the union of traditional symbolism and individual portraiture in premodern cultures.

Social inclusion is on the agenda of governments, policymakers, and nonstate actors around the world. Underpinning this concern is the realization that despite progress on poverty reduction, some people continue to feel left out. This report aims to unpack the concept of social inclusion and understand better how policies can be designed to further inclusion. First, the report offers a definition of social inclusion as the "process of improving the terms for individuals and groups to take part in society." It unpacks different domains of society that excluded groups and individuals are at particular risk of being left out of -- markets, services, and spaces. Second, the report discusses the most important global mega-trends such as migration, climate change, and aging of societies, which will impact challenges and opportunities for inclusion. Finally, it argues that despite these challenges, change towards inclusion is possible and offers examples of inclusionary policies.

How does the Jesus of the New Testament compare to the Jesus we think we know so well? Bestselling author Philip Yancey conducts an enlightening biblical and historical investigation. This honest book will help you discover a different Jesus from the flannelgraph Sunday school figure, the sweetly smiling Victorian Savior, and all the cultural clichés that have tamed Jesus and kept him in comfortable religious boxes. Philip Yancey cuts through existing views and preconceptions of Jesus--citing opinions from church history, modern history, and popular culture; discussing how different people and cultures view Jesus; dissecting popular quotes about Jesus; and much more--and he offers a more accurate perspective by pointing us back to the Bible. From the manger in Bethlehem to the cross in Jerusalem, Yancey presents a complex character who generates questions as well as answers, a disturbing and exhilarating Jesus who wants to radically transform your life and stretch your faith. The Jesus I Never Knew engages your heart, your mind, your emotions, and your senses, preparing you for a new, life-changing encounter with the real Jesus described in the Gospels. Also available: The Jesus I Never Knew video curriculum, participant's guide, and study guide.

Our fear of the world ending, like our fear of the dark, is ancient, deep-seated and perennial. It crosses boundaries of space and time, recurs in all human communities and finds expression in every aspect of cultural production - from pre-historic cave paintings to high-tech computer games. This volume examines historical and imaginary scenarios of apocalypse, the depiction of its likely triggers, and imagined landscapes in the aftermath of global destruction. Its discussion moves effortlessly from classic novels including Aldous Huxley's *Brave New World*, George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *Oryx and Crake*, to blockbuster films such as *Blade Runner*, *Armageddon* and *Invasion of the Body Snatchers*. Lisboa also takes into account religious doctrine, scientific research and the visual arts to create a penetrating, multi-disciplinary study that provides profound insight into one of Western culture's most fascinating and enduring preoccupations.

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different

story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

For over eight hundred years, philosophers-men and women-who called themselves Cynics, literally dogs in their language, roamed the streets and byways of the Hellenistic world, teaching strange ideas and practicing a bizarre way of life. Among them, the most important and distinctive was Diogenes of Sinope, who became the archetype of Classical Cynicism. In this comprehensive, thoroughly researched, and engaging book, philosopher Luis E. Navia undertakes the task of reconstructing Diogenes' life and extracting from him lessons that are valuable in our time. The book is divided into five chapters. Chapter 1 provides a biographical sketch of Diogenes constructed on the basis of ancient testimonies. In Chapter 2, the practice of Cynicism, as exemplified by Diogenes, is elucidated. This war against the world, as Navia describes it, especially the rhetoric of Cynicism, was the primary medium used by the Cynics to convey their message. Chapter 3 clarifies the roots and basis of the Cynic metamorphosis, that is, the process by which Diogenes transformed himself into a dog. This process involves complex psychological, sociological, and philosophical factors, chief among which was Socrates' influence on Diogenes through the agency of Antisthenes. Chapter 4 reconstructs the philosophy of Diogenes by identifying twelve principles of his thought. In Chapter 5, the influence of Diogenes is discussed. Navia emphasizes the vast difference between Diogenes' ideas and style of life on the one hand and, on the other, what is nowadays called cynicism. The book provides abundant references to ancient testimonies and modern scholarship. It includes an extensively annotated translation of Diogenes Laertius's biography of Diogenes and a comprehensive bibliography. Luis E. Navia (Westbury, NY), professor of philosophy and chair of the Social Sciences Department at New York Institute of Technology, is the author of many books on ancient philosophy, including *Socratic Testimonies*, *Antisthenes of Athens*, and *The Adventure of Philosophy*.
