"I love the magic Lucier weaves through this dark yet hopeful tale. I devoured it in one sitting!" —Kristin Cashore, author of the New York Times bestselling Graceling Realm books "A beautifully crafted novel containing everything I love in an epic fantasy: complex characters and relationships, excellent world building, and a compelling story full of twists and turns." —Juliet Marillier, author of the Blackthorn & Grim and Warrior Bards series A rich and captivating YA standalone fantasy that's perfect for fans of Brigid Kemmerer, Rachel Hartman, and Naomi Novik, from the writer whose stories have been called "brilliant" (Booklist), "masterful" (Horn Book), and "breathtaking" (School Library Journal). In the aftermath of a devastating plague, a young lord is determined to discover the truth behind a mysterious

attempt to assassinate the young queen. A Sickness to kill them. A Princess to save them. And a Reaper who will stop at nothing to reveal the truth. Young Lord Cassia was destined for death, kidnapped and imprisoned by the enemy three years ago. Now he has escaped, the sole survivor of a deadly outbreak that has ravaged the kingdoms of Oliveras and Brisa alike. His survival has won him his freedom, at a cost: Cas is now haunted by the souls of those with unfinished business left in the realm. When Cas finally returns to his home in the mountains, he arrives just in time to celebrate the king and queen's newborn son. But when an assassin interrupts the festivities, Cas finds himself thrust into the dark underpinnings of court life. Nothing is as he remembers, and his only solace is Lena, a royal historian with a penchant for stealing his horse and keeping him anchored to the present...even as the past rises to the surface. For the more Cas learns about the new queen—a former princess of Brisa, an old enemy—the more he is certain she harbors secrets. Secrets that threaten the one person Cas holds most dear. Lucky for him, the past never forgets, and the secrets of the dead aren't always buried with them.

After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. "We cannot change the cards we are dealt, just how we play the hand." —Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have . . . and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has

combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Nicholas Irving's Reaper: Drone Strike is the next book in the explosive thriller series by the former special operations sniper and New York Times bestselling author of The Reaper. On a classified mission to help the Israeli Defense Forces stop a Syrian and Hezbollah invasion to seize the Golan Heights, Ranger sniper Vick Harwood and his spotter go deep undercover. Operating with limited support from the American and Israeli governments, Vick is out on the edge. Alessandra Cavezza, Director of Operations in Syria for the Italian UN Commission for Refugees, is moving families out of an embattled

neighborhood. The nearly vacant suburb has been a haven for anti-Assad forces, ISIS militants, and Russian private military contractors. As she crawls into the basement of a home to help find a young girl's doll, she finds a secret room that has detailed descriptions of unthinkable attacks on the United States, and falls into the hands of a madman: Jasar Tankian, Lebanese mastermind behind the plots. As Syrian tanks attempt to push through Israeli defenses at the border, Team Reaper picks off Syrian tank commanders as they battle Israeli tanks, jets, and infantrymen. Combat intensifies as Vick goes black on ammunition. Commandeering a cargo drone to deliver Team Reaper to a landing zone near the coordinates, Vick becomes Alessandra's—and America's—only hope for survival.

Drawing on events touched on in the prologue of Steven Erikson's landmark fantasy *Gardens of the Moon: A Malazan Book of the Fallen*, *Night of Knives* is the first in Ian C. Esslemont's *Novels of the Malazan Empire* series—a momentous chapter in the unfolding story of the extraordinarily imagined world of Malaz. The small island of Malaz and its city gave the great empire its name, but now it is little more than a sleepy, backwater port. Tonight, however, things are different. Tonight the city is on edge, a hive of hurried, sometimes violent activity; its citizens bustle about, barring doors, shuttering windows, avoiding any stranger's stare. Because tonight there is to be a convergence, the once-in-a-generation appearance of a Shadow Moon—an occasion that threatens the good people of Malaz with demon hounds and other, darker things... It was also prophesied that this night would witness the return of Emperor Kellanved, and

there are those prepared to do anything to prevent this happening. As factions within the greater Empire draw up battle lines over the imperial throne, the Shadow Moon summons a far more ancient and potent presence for an all-out assault upon the island. Witnessing these cataclysmic events are Kiska, a young girl who yearns to flee the constraints of the city, and Temper, a grizzled, battle-weary veteran who seeks simply to escape his past. Each is to play a part in a conflict that will not only determine the fate of Malaz City, but also of the world beyond... masses, an ancient power emerges from the long dead seas. Caught in the middle of it all are the First Sons of Darkness, Anomander, Andarist, and Silchas Ruin of the Purake Hold... Steven Erikson entered the pantheon of great fantasy writers with his debut *Gardens of the Moon*. Now he returns with the first novel in a trilogy that takes place millennia before the events of the *Malazan Book of the Fallen* and introduces readers to Kurald Galain, the warren of Darkness.
