The Masque of the Red Death Harper Collins

Identity crises, consumerism, and star-crossed teenage love in a futuristic society where people connect to the Internet via feeds implanted in their brains. Winner of the LA Times Book Prize. For Titus and his friends, it started out like any ordinary trip to the moon - a chance to party during spring break and play around with some stupid low-grav at the Ricochet Lounge. But that was before the crazy hacker caused all their feeds to malfunction, sending them to the hospital to lie around with nothing inside their heads for days. And it was before Titus met Violet, a beautiful, brainy teenage girl who knows something about what it's like to live without the feed-and about resisting its omnipresent ability to categorize human thoughts and desires. Following in the footsteps of George Orwell, Anthony Burgess, and Kurt Vonnegut, Jr., M. T. Anderson has created a brave new world - and a hilarious new lingo - sure to appeal to anyone who appreciates smart

satire, futuristic fiction laced with humor, or any story featuring skin lesions as a fashion statement.

The phenomenon returns! Originally published in 1987, *The Book of Questions*, a New York Times bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child's college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be

willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? *The Book of Questions* may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own.

The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

From the author of *The One-Eyed Judge*: A New York Times–bestselling novel about a federal death penalty trial from the perspective of the presiding judge. When a drive-by shooting in Holyoke, Massachusetts, claims the lives of a drug dealer and a hockey mom volunteering at an inner-city clinic, the police arrest a rival gang member. With no death penalty in Massachusetts, the US attorney shifts the double homicide out of state jurisdiction into federal court so he can seek a death sentence. The Honorable David S. Norcross, a federal judge with only two years on the bench, now presides over the first death penalty case in the state in decades. He must referee the clash between an ambitious female prosecutor and a brilliant veteran defense attorney in a high-stress environment of community outrage, media pressure, vengeful gang members, and a romantic entanglement that threatens to capsize his trial—not to mention the most dangerous force of all: the unexpected. Written by judge Michael Ponsor, who presided over Massachusetts's first capital case in over fifty years, *The Hanging Judge* explores the controversial issue of capital punishment in a dramatic and thought-provoking way that will keep you on the edge of your seat. It is “a crackling court procedural” (Anita Shreve) and “gripping legal thriller” (Booklist) perfect for fans of Scott Turow.

This excerpt from the “masterful, timely, data-driven” study of the gun control debate examines the potential of stronger purchasing laws (Choice). As the debate on gun control continues, evidence-based research is needed to answer a crucial question: How do we reduce gun violence? One of the biggest gun policy reforms under consideration is the regulation of firearm sales and stopping the diversion of guns to criminals. This selection from the major anthology of studies

Reducing Gun Violence in America presents compelling evidence that stronger purchasing laws and better enforcement of these laws result in lower gun violence. Additional material for this edition includes an introduction by Michael R. Bloomberg and Consensus Recommendations for Reforms to Federal Gun Policies from the Johns Hopkins University.

Praise for *Merchant of Death* "A riveting investigation of the world's most notorious arms dealer--a page-turner that digs deep into the amazing, murky story of Viktor Bout. Farah and Braun have exposed the inner workings of one of the world's most secretive businesses--the international arms trade." —Peter L. Bergen, author of *The Osama bin Laden I Know* "Viktor Bout is like Osama bin Laden: a major target of U.S. intelligence officials who time and again gets away. Farah and Braun have skillfully documented how this notorious arms dealer has stoked violence around the world and thwarted international sanctions. Even more appalling, they show how Bout ended up getting millions of dollars in U.S. government money to assist the war in Iraq. A truly impressive piece of investigative reporting." —Michael Isikoff, coauthor of *Hubris: The Inside Story of Spin, Scandal, and the Selling of the Iraq War* "Douglas Farah and Stephen Braun are two of the toughest investigative reporters in the country. This is an important book about a hidden world of gunrunning and profiteering in some of the world's poorest countries." —Steve Coll, author of *Ghost Wars: The Secret History of the CIA, Afghanistan, and bin Laden, from the Soviet Invasion to September 10, 2001* "In *Merchant of Death*, two of America's finest reporters have performed a major public service, turning over the right rocks that reveal the brutal international arms business at the dawn of the twenty-first century. In *Viktor Bout*, they have given us a new Lord of War, a man who knows no side but his own, and who has a knack for turning up in every war zone just in time to turn a profit. As Farah and Braun uncover and document his troubling role in the Bush Administration's Global War on Terror, his ties to Washington almost seem inevitable." —James Risen, author of *State of War: The Secret History of the CIA and the Bush Administration* "An extraordinary and timely piece of investigative reporting, *Merchant of Death* is also a vividly compelling read. The true story of Viktor Bout, a sociopathic Russian gunrunner who has supplied weapons for use in some of the most gruesome conflicts of modern times--and who can count amongst his clients both the former Taliban regime in Afghanistan and the U.S. military in Iraq--is a stomach-churning indictment of the policy failures and moral contradictions of the world's most powerful governments, including that of the United States." —Jon Lee Anderson, author of *The Fall of Baghdad* Two respected journalists tell the incredible story of Viktor Bout, the Russian weapons supplier whose global network has changed the way modern warfare is fought. Bout's vast enterprise of guns, planes, and money has fueled interneecine slaughter in Africa and aided both militant Islamic fanatics in Afghanistan and the American military in Iraq. This book combines spy thrills with crucial insights on the shortcomings of a U.S. foreign policy that fails to confront the lucrative and lethal arms trade that erodes global security.

Dr. James Kauffman and his wife, April, were the perfect couple: a respected endocrinologist and a beautiful radio host. But under the surface lurked a world of drugs, sex, and biker gangs. A world Dr. Kauffman would kill to keep secret. In May 2012, April Kauffman, a well-known local radio personality and staunch advocate of military veterans rights, was found shot to death in the bedroom of the home she shared with her husband, Dr. James Kauffman. Six years later, in the fall of 2018, Freddy Augello, a leader of the notorious motorcycle gang the Pagans, went on trial for drug dealing and murder. He was charged with arranging the death of April Kauffman in exchange for \$50,000 from her husband, who, in addition to practicing medicine, was one of the area's most prolific drug traffickers. Told by two accomplished reporters and authors with exclusive insights and details provided by two principal players, this is the story about one man's descent into evil and the people he took with him. It's a story about a doctor who helped flood the streets with opioids, about a husband who hid dark secrets from his wives, and about a man so consumed with greed and arrogance that he thought he could get away with murder.

The Meritorious Price of Our Redemption: A Facsimile Edition reproduces William Pynchon's rare 1650 theological treatise about the Atonement. Written in the dialogue genre and deemed heretical by Boston orthodoxy, the book was burned on the city Commons. More than three

hundred years later Meritorious Price is transformed in On Preterition, a fictional counterpart that is inscribed in Thomas Pynchon's Gravity's Rainbow, a landmark in the contemporary American novel. The reworking of the Puritan past in this recent postmodernist novel in part results from Thomas Pynchon's direct descent from his Puritan ancestor, but more than that, it points at important continuities in American literature. Introductory essays by Michael W. Vella, Lance Schachterle, and Louis Mackey explore questions of genealogy, theology, and postmodernism in

the presentation of this facsimile edition aimed at scholars and readers of both Pynchons.
