*The Livery Collar in Late Medieval
England and Wales* Cambridge University
Press

No period of British history generates such deep interest as the reign of Elizabeth I, from 1558 to 1603. The individuals and events of that era continue to be popular topics for contemporary literature and film, and Elizabethan drama, poetry, and music are studied and enjoyed everywhere by students, scholars, and the general public. The Historical Dictionary of the Elizabeth World provides clear definitions and descriptions of people, events, institutions, ideas, and terminology relating in some significant way to the Elizabethan period. The first dictionary of history to focus exclusively on the reign of Elizabeth I, the Dictionary is also the first to take a broad trans-Atlantic approach to the period by including relevant individuals and terms from Irish, Scottish, Welsh, American, and Western European history. Editors' Choice: Reference

Urban Culture in Medieval Wales
Routledge

This book surveys the economy of Wales from the first Norman intrusions of 1067 to the Act of Union of England and Wales

in 1536. Key themes include the evolution of the agrarian economy; the foundation and growth of towns; the adoption of a money economy; English colonisation and economic exploitation; the collapse of Welsh social structures and rise of economic individualism; the disastrous effect of the Glyndŵr rebellion; and, ultimately, the alignment of the Welsh economy to the English economy. Comprising four chapters, a narrative history is presented of the economic history of Wales, 1067-1536, and the final chapter tests the applicability in a Welsh context of the main theoretical frameworks that have been developed to explain long-term economic and social change in medieval Britain and Europe.

*Catholic Reformation in Protestant
Britain* Oxford University Press
Shakespeare, Spenser and the Matter of Britain examines the work of two of the most important English Renaissance authors in terms of the cultural, social and political contexts of early modern Britain. Andrew Hadfield demonstrates that the poetry of Edmund Spenser and the plays of William Shakespeare demand to be read in terms of an expanding Elizabethan and Jacobean culture in which a dominant English identity had to come to terms with the Irish, Scots and Welsh who were now also subjects of the crown.

Protestant Identities Univ of
Hertfordshire Press
The conquest of Wales by the medieval

English throne produced a fiercely contested territory, both militarily and culturally. Wales was left fissured by frontiers of language, jurisdiction and loyalty - a reluctant meeting place of literary traditions and political cultures. But the profound consequences of this first colonial adventure on the development of medieval English culture have been disregarded. In setting English figurations of Wales against the contrasted representations of the Welsh language tradition, this volume seeks to reverse this neglect, insisting on the crucial importance of the English experience in Wales for any understanding of the literary cultures of medieval England and medieval Britain.

The Cambridge History of Welsh Literature University of Wales Press

Saints and Their Cults in the Atlantic World traces the changing significance of a dozen saints and holy sites from the fourth century to the twentieth and from Africa, Sicily, Wales, and Iceland to Canada, Boston, Mexico, Brazil, and the Caribbean. Scholars representing the fields of history, art history, religious studies, and communications contribute their perspectives in this interdisciplinary collection, also notable as the first English language study of many of the saints treated in the volume. Several chapters chart the changing images and meanings of holy people as their veneration traveled from the Old World to the New; others describe sites and devotions that developed in the Americas. The ways that a group feels connected to the holy figure by ethnicity or regionalism proves to be a critical factor in a saint's reception, and many contributors discuss the tensions that develop between ecclesiastical authorities and communities of devotees.

Renewal and Reformation Clarendon Press

Literacy in Medieval Celtic Societies
Springer

This 1998 collection of studies examines the use of the written word in Celtic-speaking regions of Europe between c. 400 and c. 1500. Building on previous work as well as presenting the fruits of much new research, the book seeks to highlight the interest and importance of Celtic uses of literacy for the study of both medieval literacy generally and of the history and cultures of the Celtic countries in the Middle Ages. Among the topics discussed are the uses and significance of charter-writing, the interplay of oral and literate modes in the composition and transmission of medieval Irish and Welsh genealogies, prose narratives and poetry, the survival of Celtic culture in Brittany and of Gaelic literacy in eastern Scotland in the twelfth century, and pragmatic uses of literacy in later medieval Wales.

Greater Medieval Houses of England and Wales, 1300-1500: Volume 2, East Anglia, Central England and Wales Cambridge University Press

An account of Dominican activities in England, Ireland, Scotland and Wales from their arrival in 1221 until their dissolution at the Reformation
Literature, Nationalism, and Memory in Early Modern England and Wales
Routledge

The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far-sighted planning and vision as coincidence, accident and failure. It is a history of revolts and reversal, familial bonds and enmity, the study of which does much to explain the

underlying tension between the nations of modern day Britain. *The Making of the British Isles* recounts the development of the nations of England, Scotland, Wales and Ireland from the time of the Anglo-French dual monarchy under Henry VI through the Wars of the Roses, the Reformation crisis, the reigns of Henry VIII and Elizabeth I, the Anglo-Scottish dynastic union, the British multiple monarchy and the Cromwellian Republic, ending with the acts of British Union and the Restoration of the Monarchy.

Authority and accessibility combine to bring the history and the drama of Tudor England to life. Almost 900 engaging entries cover the life and times of Henry VIII, Mary I, Elizabeth I, William Shakespeare, and much, much more. * Almost 900 entries covering people, events, ideas, movements, institutions, and publications * An extensive chronology of important events from the Battle of Bosworth Field in 1485 to the death of Elizabeth I in 1603 * Maps and photographs * A guide to related topics * Appendixes that include genealogies and lists of European monarchs, contemporary popes, English bishops, speakers and sessions of Parliament, and major battles, rebellions, and uprisings * A bibliography of historical novels set in the period * An annotated list of films and television programs set in the period * A list of useful websites * An extensive, up-to-date bibliography divided into topical sections
The Legal History of Wales Boydell & Brewer
This volume is broadly divided into two main sections. The first part comprises a detailed introduction to the background of "The Dialogue", written in 1594 by George Owen of Henllys, north

Pembrokeshire, followed by an updated version of the text with explanatory notes. George Owen was the most observant Welsh historians of the late sixteenth century, and in the "Dialogue" he discusses the main functions of legal institutions of government in Tudor Wales following the Acts of Union (1536-43). The discourse is not merely a description of those institutions but rather, in the form of a dialogue, it provides an analysis of the good and bad aspects of the Tudor legal structure. Emphasis is placed on the administration of the Acts of Union, and comparisons are drawn with the harsh penal legislation which had previously been imposed by Henry IV. Owen reveals the strengths and weaknesses of the Henrician settlement, but heartily praises the Tudor regime, regarding Henry VII and Henry VIII as liberators of the Welsh nation which the author, in the 'prophetic tradition', associated with the nation's historic destiny. In this 'Dialogue' Demetus is described as a native Welsh gentleman and Barthol as the German lawyer from Frankfort travelling through Europe and observing legal practices. The Socratic method applied reveals the Renaissance style of conducting debates, a framework which gives the work much of its appeal. The "Dialogue" is an invaluable Tudor source which places Welsh Tudor government and administration in a broader historical perspective.

Christianities in the Early Modern Celtic World Univ of South Carolina Press
Catholic Europe, 1592-1648 examines the processes of Catholic renewal from a unique perspective; rather than concentrating on the much studied heartlands of Catholic Europe, it focuses primarily on a series of societies on the European periphery and examines how

Catholicism adapted to very different conditions in areas such as Ireland, Britain, the Netherlands, East-Central Europe, and the Balkans. In certain of these societies, such as Austria and Bohemia, the Catholic Reformation advanced alongside very rigorous processes of state coercion. In other Habsburg territories, most notably Royal Hungary, and in Poland, Catholic monarchs were forced to deploy less confrontational methods, which nevertheless enjoyed significant measures of success. On the Western fringe of the continent, Catholic renewal recorded its greatest advances in Ireland but even in the Netherlands it maintained a significant body of adherents, despite considerable state hostility. In the Balkans, Ó hAnnracháin examines the manner in which the papacy invested substantially more resources and diplomatic efforts in pursuing military strategies against the Ottoman Empire than in supporting missionary and educational activity. The chronological focus of the book is also unusual because on the peripheries of Europe the timing of Catholic reform occurred differently. Catholic Europe, 1592-1648 begins with the pontificate of Clement VIII and, rather than treating religious renewal in the later sixteenth and seventeenth centuries as essentially a continuation of established patterns of reform, it argues for the need to understand the contingency of this process and its constant adaptation to contemporary events and preoccupations.

Reader's Guide to British History
Cambridge University Press

The history of Britain and Ireland is incomprehensible without an understanding of the Christian faith that has shaped it. Introduced when the

nations of these islands were still in their infancy, Christianity has provided the framework for their development from the beginning. Gerald Bray's comprehensive overview demonstrates the remarkable creativity and resilience of Christianity in Britain and Ireland. Through the ages, it has adapted to the challenges of presenting the gospel of Christ to different generations in a variety of circumstances. As a result, it is at once a recognizable offshoot of the universal church and a world of its own. It has also profoundly affected the notable spread of Christianity worldwide in recent times. Although historians have done much to explain the details of how the church has evolved separately in England, Ireland, Scotland and Wales, a synthesis of the whole has rarely been attempted. Yet the story of one nation cannot be understood properly without involving the others; so, Gerald Bray sets individual narratives in an overarching framework. Accessible to a general readership, *The History of Christianity in Britain and Ireland* draws on current scholarship to serve as a reference work for students of both history and theology.

A Companion to Britain in the Later Middle Ages Clarendon Press
Region, Religion and English Renaissance Literature brings together leading scholars of early modern literature and culture to explicate the ways in which both regional and religious contexts inform the production, circulation and interpretation of Renaissance literary texts. Examining texts by a wide variety of early modern writers - including Edmund Spenser, Lodowick Lloyd, Richard Nugent, Thomas Middleton and John Webster, Richard Montagu, and John Milton - the contributors to this volume enhance our

understanding of the complex cultural contexts of early modern Anglophone writing.

Catholics in Britain and Ireland,

1558-1829 University of Wales Press

In this 2005 book, leading historians examine sanctity and sacred space in Europe during and after the religious upheavals of the early modern period.

The Economy of Medieval Wales,

1067-1536 Oxford Illustrated History

Thomas Cromwell rose from very humble beginnings to become Henry VIII's chief minister, his right-hand man during the English Reformation. He wielded enormous power while he retained the king's favour, but the failure of Henry's marriage to Anne of Cleves, which Cromwell had arranged, led to his swift downfall and execution. John Schofield's biography reveals that the popular image of him as a blood-stained henchman is largely fictional. Detailed research into contemporary sources illuminates his brilliant mind and his love for and patronage of the arts and humanities, while short case studies shed new light on his relations with, and his reputation among, Henry VIII's subjects. The final part narrates the drama of his downfall, and the king's posthumous exoneration of the 'most faithful servant he ever had.'

Routledge

This collection of twelve essays describes aspects of town life in medieval Wales, from the way people lived and worked to how they spent their leisure time. Drawing on evidence from historical records, archaeology and literature, twelve leading scholars outline the diversity of town life and urban identity in medieval Wales. While urban histories of Wales have charted the economic growth of towns in post-Norman Wales, much less has been

written about the nature of urban culture in Wales. This book fills in some of the gaps about how people lived in towns and the kinds of cultural experience which helped to construct a Welsh urban identity.

The Rise & Fall of Thomas Cromwell John Wiley & Sons

The Reader's Guide to British History is the essential source to secondary material on British history. This resource contains over 1,000 A-Z entries on the history of Britain, from ancient and Roman Britain to the present day. Each entry lists 6-12 of the best-known books on the subject, then discusses those works in an essay of 800 to 1,000 words prepared by an expert in the field. The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication.

Mercenaries and Paid Men BRILL

How did the Welsh travel beyond their geographical borders in the Middle Ages? What did they do, what did they take with them in their baggage, and what did they bring back? This book seeks for the first time to capture the medieval Welsh on the move, and core to its purpose is the exploration of identity within and outside the Welsh territories - particularly since 'Welsh' may have become a fluid term to describe a stranger, often pejoratively. The contributors also seek to explore the nature of 'Welsh history' as a discipline. How can a consideration of the Welsh abroad draw upon wider paradigms of nationhood, diaspora and colonisation; economic migration; gender relations; and the pursuit of educational, religious and cultural opportunities? Is there anything specifically 'Welsh' about the experiences of medieval migrants and correspondents? And what can the

medieval experience of Welsh people exploring the then known world contribute to the longer-term history of emigration and exchange? Examining archaeological, historical and literary evidence together, this book enables a better understanding of the ways in which people from Wales interacted with and understood their near and distant neighbours.

Medieval Welsh Pilgrimage, c.1100-1500
Routledge

Why were mercenaries such a commonplace of war in the medieval and early modern periods and why have they traditionally been so poorly regarded? Who were mercenaries, and how were they distinguished from other soldiers? The contributors to this volume attempt to cast light on these questions.
