 Now, for the first time, Mira Grant's complete New York Times bestselling NEWSFLESH trilogy is available in a single volume. "Alive or dead, the truth won't rest. My name is Georgia Mason, and I am begging you. Rise up while you can." The year was 2014. We had cured cancer. We had beat the common cold. But in doing so we created

something new, something terrible that no one could stop. The infection spread, virus blocks taking over bodies and minds with one, unstoppable command: FEED. Now, twenty years after the Rising, Georgia and Shaun Mason are on the trail of the biggest story of their lives - the dark conspiracy behind the infected. The truth will out, even if it kills them. The Rising

includes Feed, Deadline, and Blackout. NewsfleshFeedDeadlineBlackout Feedback Newsflesh Short Fiction CollectionRise **Feed** Hendrickson Publishers DeadlineOrbit Kingdom of Needle and Bone Orbit We think we understand the laws of physics. We think reality is an immutable monolith, consistent from one end of the universe to the next. We think the square/cube law has actual relevance. We

think a lot of things. It was perhaps inevitable that some of them would turn out to be wrong. When the great incursion occurred, no one was prepared. How could they have been? Of all the things physicists had predicted, "the fabric of reality might rip open and giant monsters could come pouring through" had not made the list. But somehow, on a fine morning in May, that was precisely

what happened. For sisters Susan and Katharine Black, the day of the incursion was the day they lost everything. Their home, their parents, their sense of normalcy...and each other, because when the rift opened, Susan was on one side and Katharine was on the other, and each sister was stranded in a separate form of reality. For Susan, it was science and study and the struggle to solve the

mystery of the altered physics inside the zones transformed by the incursion. For Katharine, it was monsters and mayhem and the fight to stay alive in a world unlike the world of her birth. The world has changed. The laws of physics have changed. The girls have changed. And the one universal truth of all states of changed matter is that nothing can be completely restored to what it was originally, no

matter how much you might wish it could be. Nothing goes back. *Feed* Hachette UK
Now in mass-market paperback from the national bestselling author of *The Troop*—which Stephen King raved “scared the hell out of me and I couldn’t put it down....old-school horror at its best”—an utterly terrifying novel that pits the mysteries of *The Abyss* against the horrors of *The*

Shining. A strange plague called the ‘Gets is decimating humanity on a global scale. It causes people to forget—small things at first, like where they left their keys...then the not-so-small things like how to drive, or the letters of the alphabet. Then their bodies forget how to function involuntarily... and there is no cure. But now, far below the surface of the Pacific Ocean, deep in the Mariana

Trench, an heretofore unknown substance hailed as “ambrosia”— a universal healer, from initial reports—has been discovered. It may just be the key to eradicating the ‘Gets. In order to study this phenomenon, a special research lab, the Trieste, has been built eight miles under the sea’s surface. But when the station goes incommunicado, a brave few descend through the

lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine. “Fans of unflinching bleakness and all-out horror will love this novel....Each new shock is freshly disturbing” (Publishers Weekly, starred review). **Coming to You Live** Orbit The final book

in Mira Grant's terrifying Parasitology trilogy. The outbreak has spread, tearing apart the foundations of society, as implanted tapeworms have turned their human hosts into a seemingly mindless mob. Sal and her family are trapped between bad and worse, and must find a way to compromise between the two sides of their nature before the battle becomes large enough to

destroy humanity, and everything that humanity has built...including the chimera. The broken doors are closing. Can Sal make it home?
