Colonial Inventions UBC Press

This book examines the proliferation of policy making concerning the recognition and protection of same-sex relationships in the countries of North and South America, adding to the knowledge of developments in the United States and Canada, but, mostly notable, exploring more recent developments in Mexico, Central and South America, and the Caribbean. While much work has been done on developments in Europe and upper North America, this book attempts to broaden the understanding of relationship equality policy proliferation around the world and to add new insights regarding the policies of sexuality in different national contexts. The book discusses the several factors that have constrained and facilitated policymaking in this area including legal systems, public opinion, political culture, and, more particularly, the role of religion as a key obstacle in the

recognition of rights for same-sex couples. The chapters also explore the role of institutional mechanisms, political parties, NGOs, IGOs, and international norms as significant factors for policy adoption. This book explores policy innovation for same-sex couples throughout the Americas and includes same-sex marriage legislation, civil unions, and other new developments for same-sex couples throughout the Americas at both national and sub-national levels. This scholarship is innovative because though much has been written regarding developments in North America, there is very little work dealing with recent developments in the rest of the Americas.

Rapid Appraisal Methods John Wiley & Sons

Southeast Asia possesses the most biologically diverse coral reefs on the planet; and they are severely threatened by human activities. This is a detailed evaluation of the threats from over-fishing, pollution, development and more, and makes several recommendations for improved management.

"Rapid appraisal is a less structured data collection method aimed at supplying needed information in a timely and cost-effective manner. This volume outlines five rapid data collection methods - key informant interviews, focus group discussions, group ... See More + interviews, structured observation, and informal surveys. Each of these methods has been used by exponents of rapid appraisal. Case studies are used to illustrate the use of these methods in development settings especially in evaluation of development projects and programs. The authors show that rapid appraisals can be a complement to standard social research methods which are not often used to meet the pressing information needs of decision-makers in development."-- World Bank.

Whose National Security? Salt Spring Island, B.C. : Land Trust Alliance of British Columbia

This book with 27 articles is the first organised literary effort on the part of the gay community to assert itself in a world which still sees same-sex love as queer. The contributors to the anthology come from within the gay community, and hail from distant corners of the country.

Messages from the Gods Gabriola Island, B.C. : New Society Publishers

The Age of Consent; Young People, Sexuality and Citizenship addresses the contentious issue of how children's sexual behaviour should be regulated. The text includes: ·A unique history of age of consent laws in the UK, analysed via contemporary social theory ·A global comparative survey of age

of consent laws and relevant international human rights law ·A critical analysis of how protectionist agendas shaped new age of consent laws in England and Wales in the Sexual Offences Act 2003 ·In-depth theoretical discussion of the rationale for age of consent laws ·An original proposal to reduce the age of consent to 14 for young people who are less than two years apart in age. Responding to contemporary concerns about young people's sexual behaviour, sexual abuse and paedophilia, this book will engage readers in law and socio-legal studies, sociology, history, politics, social policy, youth and childhood studies, and gender and sexuality studies; and professionals and practitioners working with young people.

Investing in Young Children Black Rose Books Ltd.

In the early seventies, the anti-establishment counterculture evolved into a new movement of health and agricultural purists. Rebelling against the politics and pollution of the U.S., these young people sought to create their own natural paradise outside its borders. This is the story of one such expatriated American, a starry-eyed wild child who searches for a fantasy lifestyle and gets more than she bargains for. The storyline, a colorful tapestry of romantic adventure set in the jungles of Belize, Central America, is flavored with vivid imagery, picturesque characters, wild animals, and Mayan archaeological intrigue. But it is also a compelling story of a maturing young woman and her battle with the darker side of human nature, of innocence lost, deception, infidelity, and heartbreaking exile. Full of poignant moral dilemma, it is a story of one woman's survival, of exceptional courage, strength in overcoming adversity, spiritual growth, and eventual triumph.

Queer Africa is a collection of unapologetic, tangled, tender, funny, bruising and brilliant stories about the many ways in which we love each other on the continent. In these unafraid stories of intimacy, sweat, betrayal and restless confidences, we accompany characters into cafes, tattoo salons, the barest of bedrooms, coldly gleaming spaces into which the rich withdraw, unlit streets, and their own deepest interiors.

The Colony of British Honduras. Its Resources and Prospects, with Particular Reference to Its Indigenous Plants and Economic Productions African Books Collective

Envisioning Global LGBT Human Rights: (Neo)colonialism, Neoliberalism, Resistance and Hope is an outcome of a five-year international collaboration among partners that share a common legacy of British colonial laws that criminalise same-sex intimacy and gender identity/expression. The project sought to facilitate learning from each other and to create outcomes that would advance knowledge and social justice. The project was unique, combining research and writing with participatory documentary filmmaking. This visionary politics infuses the pages of the anthology. The chapters are bursting with invaluable first hand insights from leading activists at the forefront of some of the most fiercely fought battlegrounds of contemporary sexual politics in India, the Caribbean and Africa. As well, authors from Canada, Botswana and Kenya examine key turning points in the advancement of SOGI issues at the United Nations, and provide critical insights on LGBT asylum in Canada. Authors also speak to a need to reorient and decolonise queer studies, and turn a critical gaze northwards from the Global South. It is a book for activists and academics in a range of disciplines from postcolonial and sexualities studies to filmmaking, as well as for policy-makers and practitioners committed to envisioning, and working for, a better future.

Would you believe that RCMP operatives used to spy on Tupperware parties? In the 1950s and '60s they did. They also monitored high school students, gays and lesbians, trade unionists, left-wing political groups, feminists, consumer's associations, Black activists, First Nations people, and Quebec sovereigntists. The establishment of a tenacious Canadian security state came as no accident. On the contrary, the highest levels of government and the police, along with non-governmental interests and institutions, were involved in a concerted campaign. The security state grouped ordinary Canadians into dozens of political stereotypes and labelled them as threats. Whose National Security? probes the security state's ideologies and hidden agendas, and sheds light on threats to democracy that persist to the present day. The contributors' varied approaches open up avenues for reconceptualizing the nature of spying.

Conservation Geography John Wiley & Sons

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the

banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

The Canadian War on Queers Reaktion Books

"Human rights in relation to sexual orientation and gender identity are at last reaching the heart of global debates. Yet 78 states worldwide continue to criminalise same-sex sexual behaviour, and due to the legal legacies of the British Empire, 42 of these - more than half - are in the Commonwealth of Nations. In recent years many states have seen the emergence of new sexual nationalisms, leading to increased enforcement of colonial sodomy laws against men, new criminalisations of sex between women and discrimination against transgender people. [This book] challenges these developments as the first book to focus on experiences of lesbian, gay, bisexual, transgender and intersex (LGBTI) and all non-heterosexual people in the Commonwealth. The volume offers the most internationally extensive analysis to date of the global struggle for decriminalisation of same-sex sexual behaviour and relationships."--Abstract, website.

Rainforest Remedies Routledge
