Islam's tense relationship with modernity is one of the most crucial issues of our time. Within Islamic legal systems, with their traditional preference for eyewitness testimony, this struggle has played a significant role in attitudes toward expert witnesses. Utilizing a uniquely comparative approach, Ron Shaham here examines the evolution of the role of such witnesses in a number of Arab countries from the premodern period to the present. Shaham begins with a history of expert testimony in medieval Islamic culture, analyzing the different roles played by male experts, especially physicians and architects, and females, particularly midwives. From there, he focuses on the case of Egypt, tracing the country's reform of its traditional legal system along European lines beginning in the late nineteenth century. Returning to a broader perspective, Shaham draws on a variety of legal and historical sources to place the phenomenon of expert testimony in cultural context. A truly comprehensive resource, *The Expert Witness in Islamic Courts* will be sought out by a broad spectrum of scholars working in history, religion, gender studies, and law.

Advances in Concrete Slab Technology documents the proceedings of the International Conference on Concrete Slabs held at Dundee University on April 3-6, 1979. This book discusses the influence of steel fiber-reinforcement on the shear strength of slab-column connections; sulfur-treated concrete slabs; yield line analysis of orthotropically reinforced exterior panels of flat slab floors; and behavior of flat slab/edge column joints. The design of multiple panel flat slab structures; structural behavior of floor slabs in shear wall buildings; shrinkage and cracking of concrete at early ages; and slab construction for HAB system modules are also elaborated. This text likewise covers the direct finishing of concrete slabs using the early age power grinding technique; application of vacuum dewatering to in-situ slab production; retexturing of concrete slabs; and fatigue resistance of composite precast and in situ concrete floors. This publication is a good reference for students and individuals concerned with the practices and research relating to slab technology.

On the slopes of Colorado, an actress is caught in a passionate love triangle in this electrifying novel by a New York Times-bestselling author. Six weeks ago, Kit Masters was a nobody—a farm girl from Aspen, Colorado, who came to Hollywood hoping to make it as a movie star. Incredibly, her dream came true, and she was cast opposite John Travis, the biggest name on the silver screen. Now, she's flying back to her home state on a private jet to begin shooting the film that will make her famous. She should be overjoyed, but when the trip home means a reunion with her old flame, rugged rancher Tom Bannon, Kit finds herself caught between Hollywood glamour and the passion of her Rocky Mountain heart. America's first lady of romance, Janet Dailey shows that love burns hottest when the air is cold, demonstrating the storytelling talent that made her a multimillion-selling phenomenon.

This book examines why authoritarian governments are willing to address environmental problems that have an international impact, such as CO2 emissions, but are reluctant to address problems that have only a domestic impact. In a case study of Azerbaijani oil politics, it demonstrates how the incumbent Azerbaijani regime has taken important measures trying to address CO2 emissions while ignoring the damage caused by oil pollution on the Caspian coast. The book argues that resource-rich authoritarian governments are eager to join international environmental initiatives to improve their image, but they address domestic environmental issues mainly if they threaten their hold on power. This book is an important contribution to scholarship on environmental governance in the post-Soviet space, an area that is poorly researched. Therefore, it is a must-read for researchers and scholars interested in post-Soviet studies, as well as in the nexus between mineral-rich regions and how social policy is created, e.g., environment, education, and healthcare. In addition, this book will be of tremendous importance for policymakers and international organizations as it looks into the motivation of authoritarian states in the post-Soviet space for environmental measures.

Gas Dynamics For Engineers, 1/e Fantagraphics Books

This captivating rural romance features an indomitable young woman determined to save her family farm, and the city-boy who is not all he seems. . . Paige Quinn will let nothing and no one distract her from caring for her wheelchair-bound father, Connor, and fighting for her remote, drought-stricken property, Banora Downs—least of all a surprise farm-stay guest named Tait Cavanaugh, whose smooth words are as lethal as his movie-star smile. Except Paige can't help noticing that, for a city-boy, Tait seems unexpectedly at home on the land. And he does ask a lot of questions. . . It doesn't matter how much he helps out or how much laughter he brings into her life, she soon suspects he is harboring a big secret—the real reason he has come to Banora Downs. . .

Brooks/Cole Publishing Company

Collects all three volumes of the Eisner Award-nominated graphic novels series, which skewers a self-important male literary poser. Living in a beat-up motel and consorting with the downtrodden as well as the mid-level literati, Fante Bukowski must overcome great obstacles — a love interest turned rival, ghostwriting a teen celebrity's memoirs, no actual talent — to gain the respect and adoration from critics and, more importantly, his father. Van Sciver has created a scathing, hilarious, and empathetic character study of a self-styled author determined that he's just one more poem (or drink) away from success. The book includes a foreword by novelist Ryan Boudinot (*Blueprints of the Afterlife*), a facsimile reproduction of Bukowski's literary debut, *6 Poems* (thought lost to time in the wake of a motel fire that destroyed the entire original print run), a "Works Cited" section, and a selection of "visual tributes" by over two dozen cartoonists including Nina Bunjevac, Simon Hanselmann, Jesse Jacobs, Ed Piskor, Leslie Stein, and others.

'Very funny and frank' Independent 'Reads like *Scrubs: The Blog* ... funny and awful in equal measure' Observer * * * * * The bestselling real life story of a hapless junior doctor, based on his columns written anonymously for the Telegraph. IF YOU'RE GOING to be ill, it's best to avoid the first Wednesday in August. This is the day when junior doctors graduate to their first placements and begin to face having to put into practice what they have spent the last six years learning. Starting on the evening before he begins work as a doctor, this book charts Max Pemberton's touching and funny journey through his first year in the NHS. Progressing from youthful idealism to frank

bewilderment, Max realises how little his job is about 'saving people' and how much of his time is taken up by signing forms and trying to figure out all the important things no one has explained yet -- for example, the crucial question of how to tell whether someone is dead or not. Along the way, Max and his fellow fledgling doctors grapple with the complicated questions of

life, love, mental health and how on earth to make time to do your laundry. All Creatures Great and Small meets Bridget Jones's Diary, this is a humorous and accessible peek into a world which you'd normally need a medical degree to witness. If you enjoy Trust Me, I'm a (Junior) Doctor, don't miss the follow-up titles Where Does It Hurt? and The Doctor Will See You Now.
