The Science of Self-
 Hypnosis: " The Evidence

Based Way To Hypnotise Yourself" is a book written for anyone wanting to learn about self-hypnosis and how to use it. This book is ideal for anyone; ranging from beginners who are new to the field of self-hypnosis, to experienced clinicians hoping to teach patients how to use self-hypnosis for therapeutic gain. Contained within this book are a range of methods for anyone to apply: to achieve a hypnotic mindset, develop hypnotic skills, induce self-hypnosis, deepen the experience of hypnosis, apply a range of evidence-based techniques and strategies for self-improvement and then exit hypnosis. The book offers a modern historical explanation of the development of this fascinating field as well as serving as a guidebook for

practical application. All of this is done by dispensing with notions of an 'unconscious mind' or a 'special trance state', instead showing hypnosis to be an ordinary skill that anyone can learn, to be good at and derive benefit from. As the book title suggests, it adheres to research findings and the evidence-base available as much as possible while offering up a substantial literature review of this topic. The second half of the book looks specifically at applying self-hypnosis for stress management, anxiety reduction, depression, pain control and sleep enhancement; all showcasing techniques which can be applied to a range of other issues too. This is a comprehensive volume that aims to result in it's readers becoming proficient self-hypnotists. Adam ends his book with these words: In my opinion, there are not enough people in the world who have these skills. Self-hypnotists have the opportunity to make real beneficial changes that make each day an exciting prospect; the self-hypnosis adventure and exploration starts here. That indeed is an exciting prospect!

Hypnotize Yourself Out of Pain Now! Penguin
THIS BOOK CAN LITERALLY UPSET YOUR LIFE...Are you looking for the best tools to hack others' minds? Do you

desire to make everyone do your bidding? Do you think that mind control is the most powerful key to having everything you want? Well, you are on the right track, so keep reading...Everyone wants success in life, but only a few admit that to themselves... Fewer admit that to others. Just try for a moment to think about the life you have always wanted, visualize it, and define an image that represents it. Now focus on the feeling that image generates ... Well, this is what is called daydreaming. But what if this dream could come true? Most of the books told you that to achieve success, you need to be a better person, the best version of yourself. True... but it's not enough! What they don't tell you is that you must develop the ability to make everyone do what do you want, when you want. You have just two methods. The first one is using a gun (but I don't suggest this), and the second is MANIPULATION. I am telling you that manipulation is a fundamental key to achieving what you really want in life. Okay, but what does manipulation has to do with hypnosis? Hypnosis is the

most powerful and subtle way to manipulate a mind. Hypnosis gives you access to the subconscious mind of a human being and you can literally overwrite his behavior. It's not a joke. It was used for military scope and for inducing people to commit political murder, totally unaware and without a trace of it in their memory. In this book you will learn: - All the truth about Hypnosis- The most powerful hypnotic techniques- Darkest myths about it- The deadliest mistakes to avoid in hypnosis- The art of mind control- How to literally brainwash anyone- Using mind control to literally upset your life- The seduction of persuasion\\- NLP vs Hypnosis-- are you ready for the battle?Hey, I am not responsible of how you use this book. I just want you to tell you that to improve properly, this is a noble act and everyone can have benefits from applying these techniques.With this book, you can create wealth for you and people you love, or improve the relationship with your partner. When I opened my first hypnosis office I was in my early 20s. I was fresh out of hypnosis trade school, and excited, but more nervous, and you get the point. Anyway, I will never forget my first client. She was a little girl, very nervous, and her parents seemed very at odds with taking their young daughter to see some hypnotist to help her with a problem she'd been having. They had been referred by a mutual acquaintance, but not one I knew very well. I have to tell you I wasn't prepared for a child client. I instantly and intuitively knew that the techniques I'd been taught weren't going to work with this young girl. Getting her to imagine walking down a peaceful path with beautiful sunrays beaming down on her wasn't going to cut it. In highschool I had taken up magic. After graduation I became so mastered in magic that I actually began performing street shows and small venues on the weekends. I

actually earned a nice sum of money, which later went to my hypnosis training, but that's another story in itself. The young girl laid down in my comfortable hypnosis chair, her mother sat in one back corner of my office, her father the other, and the look her father gave me caused sweat beads to deposit on my forehead. It was a small office anyhow and the four bodies didn't help my comfort level. I needed help, but there was none. I couldn't screw this up or else my reputation in this small town would be ruined forever. It was one of those small towns where everybody knew everybody and they talked. Did they ever talk! I decided to do something totally radical. I decided to hypnotize her with a magic trick I figured I could use to hold her attention. When I mentioned a magic trick the little girl's face came alive and her nervousness left instantly. Mind followed. I was comfortable with magic. I had performed in front of live audiences and it was...well...what I did. I took the principles of hypnosis and applied it to the magic trick. I very much so wanted to help

the little girl, so I prefaced to her that the hypnosis would come during the magic trick. I gained her confidence in me and thus gained greater confidence in my ability to help her. Something happened. I became a natural hypnotist, forgetting my lack of experience, everything I had thought about myself up to that point, and something inside of me snapped and I became first class instantly. The little girl became hypnotized and entered a deep hypnotic trance and I was able to give her suggestions and they worked. Her life changed after that, and the respect I received from her parents turned into hundreds (if not thousands) of referrals over the years I was in private practice. I have found one of the easiest ways to hypnotize anyone is through the application of magic tricks. In this book I will explain seven magic tricks to you that work well. I'll give you everything you need to know to apply them, including why you should use each one, what you must know upfront, how to do the trick, other applications, frequently asked questions students of mine have asked regarding each trick, and

some action keys to help you proactively take charge and use the trick to discover how easy applying magic can be. Many people over the years have asked me, "Why magic tricks?" You'll love it! You'll use it! Grab your copy now!
