*Better Venture* Macmillan

Welcome back to the world's most whimsical way to learn about technology and coding as a programming superstar introduces kids to the basic components of a computer through storytelling and imaginative activities.

*Jenkins 2: Up and Running* Createspace Independent Publishing Platform

Angel Investing: Start to Finish is the most comprehensive practical and legal guide written to help investors and entrepreneurs avoid making expensive mistakes. Angel investing can be fun, financially rewarding, and socially impactful. But it can also be a costly endeavor in terms of money, time, and missed opportunities. Through the successes, failures, and collective experience of the authors you'll learn how to navigate the angel investment process to maximize your chances of success and manage downside risks as an investor or entrepreneur. You'll learn how: - Lead investors evaluate deals - Lawyers think through term sheets - To keep perspective through losses and triumphs This book will also be of use to founders raising an angel round, who will be wise to learn how decisions are made on the other side of the table. No matter where you're starting from, this book will give you the context to become a savvy thinker, a better negotiator, and a positive member of the angel investing and startup communities.

The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little. As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right. Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

Learn how to code web apps and get on the path to building your next side project, your lifestyle business, or your startup. Hello Web App is written for non-programmers by a designer, and will walk you through every step you need before launching your web

app live to real customers. No jargon, using simple and friendly language. This book doesn't walk you through a specific tutorial, but instead uses a generic example (a "collection of things") to allow you to create something that interests you. A blog is a collection of posts, a store is a collection of products, a directory is a collection of people. The possibilities are endless! Learn by doing--creating a project unique to you while teaching yourself how to build a web app.

The groundbreaking #1 New York Times bestseller that taught a generation how to transform their careers—now in a revised and updated edition “A profound book about self-determination and self-realization.”—Senator Cory Booker “The Startup of You is crammed with insights and strategies to help each of us create the work life we want.”—Gretchen Rubin, author of The Happiness Project In this invaluable book, LinkedIn co-founder Reid Hoffman and venture capitalist Ben Casnocha show how to accelerate your career in today's competitive world. The key is to manage your career as if it were a startup business: a living, breathing, growing startup of you. Why? Startups—and the entrepreneurs who run them—are nimble. They invest in themselves. They build their professional networks. They take intelligent risks. They make uncertainty and volatility work to their advantage. These are the very same skills professionals need to get ahead today. This book isn't about cover letters or résumés. Instead, you will learn the best practices of the most successful startups and how to apply these entrepreneurial strategies to your career. Whether you work for a giant multinational corporation, stitch together multiple gigs in a portfolio career, or are launching your own venture, you need to know how to • adapt your career plans as pandemics rage and technologies upend industries • develop a competitive advantage so that you stand out from others at work • strengthen your professional network by building powerful alliances and maintaining a diverse mix of relationships • engineer serendipity that produces life-changing career opportunities • take proactive risks to become more resilient to industry tsunamis • tap your network for information and intelligence that help you make smarter decisions The career landscape has changed dramatically in the decade since Hoffman and Casnocha first published this guide. In an urgent update to the frameworks that have helped hundreds of thousands of people transform their careers, this new edition of The Startup of You will teach you how to achieve your boldest professional ambitions.

INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for

the Circle, the world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Get Shit Done. Less meetings, more doing. Passion never fails. Startup Vitamins aims to provide doses of vitalizing support to startups to help them throughout their development. Posters are created to provide inspiration, reminding startups of key aspects to success while also offering a constant stream of other inspirational quotes on their blog. There's rocket-fuelled insight from the pioneers of the Lean revolution, alongside timeless wisdom from Zuckerberg, Bezos and Jobs. For instance: “It takes

time, it's a grind. There are no shortcuts. You've got to grind and grind." - Mark Cuban "Better to be right about the trend and wrong about the implementation, than the other way around." - Aaron Levie, Box.net "Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do." - Steve Jobs "Most people are searching for a path to success that is both easy and certain. Most paths are neither." - Seth Godin "Don't let people tell you your ideas won't work. If you're passionate about an idea that's stuck in your head, find a way to build it so you can prove to yourself that it doesn't work." - Dennis Crowley, Foursquare Whenever you're in search of inspiration and motivation, pick up this book. And then Get Shit Done.

You'll get working code samples you can use right away, along with the background and technical information you need to design,

program, build, and troubleshoot your own projects. The cutting edge design techniques and discussions with leading artists and designers will give you the tools and inspiration to let your imagination take flight.

#### The Circle Crown Currency

Every year, 6 million companies and more than 100,000 products are launched. They all need an awesome name, but many (such as Xobni, Svbtle, and Doostang) look like the results of a drunken Scrabble game. In this entertaining and engaging book, ace naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and buzz-worthy brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test—two acronyms for what makes or breaks a name. She also provides up-to-date advice, like how to make sure that Siri spells your name correctly and how to nab an available domain name. And you'll see dozens of examples—the good, the bad, and the “so bad she gave them an award.” Alexandra Watkins is not afraid to name names. Hello Ruby: Journey Inside the Computer No Starch Press Tapping into more than 33 years of small business expertise, the staff at Entrepreneur Media takes today's entrepreneurs beyond opening their doors and through the first three years of ownership. This revised edition features amended chapters on choosing a business, adding partners, getting funded, and managing the business structure and employees, and also includes help understanding the latest tax and healthcare reform information and legalities.

An engaging guide to excelling in today's venture capital arena Beginning in 2005, Brad Feld and Jason Mendelson, managing directors at Foundry Group, wrote a long series of blog posts describing all the parts of a typical venture capital Term Sheet: a document which outlines key financial and other terms of a proposed investment. Since this time, they've seen the series used as the basis for a number of college courses, and have been thanked by thousands of people who have used the information to gain a better understanding of the venture capital field. Drawn from the past work Feld and Mendelson have written about in their blog and augmented with newer material, Venture Capital Financings puts this discipline in perspective and lays out the strategies that allow entrepreneurs to excel in their start-up companies. Page by page, this book discusses all facets of the venture capital fundraising process. Along the way, Feld and Mendelson touch on everything from how valuations are set to what externalities venture capitalists face that factor into entrepreneurs' businesses. Includes a breakdown analysis of the mechanics of a Term Sheet and the tactics needed to negotiate Details the different stages of the venture capital process, from starting a venture and seeing it through to the later stages Explores the entire venture capital ecosystem including those who invest in venture capitalist Contain standard documents that are used in these transactions Written by two highly regarded experts in the world of venture capital The venture capital arena is a complex and competitive place, but with this book as your guide, you'll discover what it takes to make your way through it.
