 This book is dedicated to the description and application of various different theoretical models to identify the near and mid-infrared spectra of symmetric and spherical top molecules in their gaseous form. Theoretical models based on the use of group theory are applied to rigid and non-rigid molecules, characterized by the phenomenon of tunneling and large amplitude motions. The calculation of vibration-rotation energy levels and the analysis of infrared transitions are applied to molecules of ammonia (NH₃) and methane (CH₄). The applications show how interactions at the molecular scale

modify the near and mid-infrared spectra of isolated molecules, under the influence of the pressure of a nano-cage (the substitution site of a rare gas matrix, clathrate, fullerene or zeolite) or a surface, and allow us to identify the characteristics of the perturbing environment. This book provides valuable support for teachers and researchers but is also intended for engineering students, working research engineers and Master's and doctorate students.

The kingdom of Patan faces an ominous future. King Karnadev lies on his deathbed. His son, Jaydev, is too young to ascend the throne. Rumours abound of scheming warlords intent on establishing their own independence and powerful merchants plotting to wrest control from Patan Fort. There is also the shadowy

monk Anandsuri and his vision to unite Patan under one religion: Jainism. In the eye of this gathering storm are Queen Minaldevi and the shrewd chief minister Munjal Mehta. Both have striven to maintain order in Patan and ensure that Jaydev's succession is secure. But the attraction between them is threatened by betrayal and intrigue, with dramatic consequences for the future of Patan. A sprawling, fast-paced saga in the oeuvre of Alexandre Dumas, *The Glory of Patan* is the first book in an epic trilogy about the exploits of the magnificent Chalukya dynasty at a crucial period in the history of Gujarat.

This is one of the many inspiring books from the renowned "Motivator" Dr. G. Francis Xavier. Evidently, this harvest of stories has been gleaned from lands he

visited and books he read. Xavier, who conducts full-house personal growth courses has brought out this compendium in an interactive form, making the reader give the answers at the end of the story, which is a novel approach. Stories and examples are the best way to inspire, and this volume can be gifted to anyone. It is useful for preachers, speakers and teachers. The book appeals to readers of all ages except the morose and irredeemable negaholics (negative thinking addicts) and anti-reading teenagers. It has stories to inspire and promises uninterrupted chuckles till the end. There are also quotations on success. Naked Wisdom of the Child Penguin Books India

The celebrated Hindi novelist Vishwanath is heartbroken by the recent loss of his son in a car accident. The tragedy breaks a long dry spell and spurs him to write a novel set in the household of Lala Motichand in the early decades of the twentieth century. It follows the lives of the wealthy lala and his three sons: self-confident Dinanath, the true heir to Motichand's mercantile temperament; lonely Diwanchand, uninterested in business and steeped in poetry; and illegitimate Makhan Lal, a Marx-loving schoolteacher relegated to the periphery of his father's life. And in an illuminating act of self-reflection, Vishwanath, the son of a cook for a rich sethji, also tells the story of the lala's personal servant, Mange Ram, and his son, Parsadi. Fatherhood, brotherhood and childhood, love, loyalty and poetry all come to the fore as sons and servants await the lala's oncoming demise, against the devotional landscape of the Ramcharitmanas of Tulsidas. By writing about mortality and family, Vishwanath confronts the wreckage of his own life while seeking to make sense of the new India that comes into being in the first half of the twentieth century. Spellbinding and penetrating, *Half the Night Is Gone* raises questions of religion, literature and society that speak to our fractured times.

Go Kiss the World Sahitya Akademi
 "Iris' story, as told and photographed by her mother, beautifully deciphers the way a child with autism sees and approaches the world . . . Compelling reading"
 (Booklist, starred review). Iris Grace is a beautiful little girl who, from a very young age, barely communicated, avoided social interaction with other people, and rarely smiled. Both before her diagnosis of autism and after, she seemed trapped in her own world, unable to connect with those around her. One day, her mother brought home a Maine Coon kitten for Iris,

even though cats aren't typically thought of as therapy pets. Thula, named after one of Iris's favorite African lullabies and meaning "peace" in Zulu, immediately bonded with Iris. Thula knew right away how to assuage Iris when she became overstimulated; when to intervene when Iris became overwhelmed; and how to provide distraction when Iris started heading toward a meltdown. Whether exploring, playing, sleeping, or taking a bath with Iris or accompanying the family on a bike ride, Thula became so much more than a therapy cat. With Thula's safe companionship, Iris began to talk and interact with her family. This heartwarming story is illustrated with both the author's photographs and sixty of Iris's gorgeous impressionistic paintings, works of art that have allowed her to express herself since the age of three. A gifted artist, Iris sees the natural world in a profoundly vivid and visceral way. With Thula by her side, she'll sit and paint for hours, and the results are stunning. Inspiring and touching, Iris Grace follows the struggles and triumphs of a family—and a miracle cat—as they learn to connect with an amazing child.

Tales of Fosterganj EverAfter Romance
 This book concerns the analysis and design of induction heating of poor electrical conduction materials. Some innovating applications such as inductive plasma installation or transformers, thermo inductive non-destructive testing and carbon-reinforced composite materials heating are studied. Analytical, semi-analytical and numerical models are combined to obtain the best modeling technique for each case. Each model has been tested with experimental results and validated. The principal aspects of a computational package to solve these kinds of coupled problems are described. In the first chapter, the mathematical tools for coupled electromagnetic and thermal phenomena are introduced. In Chapter 2, these tools are used to analyze a radio frequency inductive plasma installation. The third chapter describes the methodology of designing a low frequency plasma transformer. Chapter 4 studies the feasibility of the thermo inductive technique for non-destructive testing and the final chapter is dedicated to the use of induction heating in the lifecycle of carbon-reinforced composite materials.
 Contents 1. Thermal and Electromagnetic Coupling, Javad Fouladgar, Didier Trichet and Brahim Ramdane. 2. Simplified Model of a Radiofrequency Inductive Thermal Plasma Installation, Javad Fouladgar and Jean-Pierre Ploteau. 3. Design Methodology of A Very Low-Frequency Plasma Transformer, Javad Fouladgar and Sourii Mohamed Mimoune. 4. Non Destructive Testing by Thermo-Inductive Method, Javad Fouladgar, Brahim Ramdane, Didier Trichet and Tayeb Saidi. 5.  'Go, kiss the world' were Subroto Bagchi's blind mother's last words to him. These words became the guiding principle of his life. Subroto Bagchi grew up amidst what he calls the 'material simplicity' of rural and small-town Orissa, imbibing from his family a sense of contentment, constant wonder, connectedness to a larger whole and learning from unusual sources. From humble beginnings, he went on to achieve extraordinary professional success, eventually co-founding MindTree, one of India's most admired software services companies. Through personal anecdotes and simple words of wisdom, Subroto Bagchi brings to the young professional lessons in working and living, energizing ordinary people to lead

extraordinary lives. Go Kiss the World will be an inspiration to 'young India', and to those who come from small-town India, urging them to recognize and develop their inner strengths, thereby helping them realize their own, unique potential. #1 NEW YORK TIMES BEST SELLER • John Grisham takes you to a different kind of court in his first basketball novel. Samuel "Sooley" Sooleymon is a raw, young talent with big hoop dreams—and even bigger challenges off the court. "Hard to put down ... the pages turn quickly ... building to a climax that won't leave readers doubting whether this is a John Grisham novel." —Associated Press In the summer of his seventeenth year, Samuel Sooleymon gets the chance of a lifetime: a trip to the United States with his South

Sudanese teammates to play in a showcase basketball tournament. He has never been away from home, nor has he ever been on an airplane. The opportunity to be scouted by dozens of college coaches is a dream come true. Samuel is an amazing athlete, with speed, quickness, and an astonishing vertical leap. The rest of his game, though, needs work, and the American coaches are less than impressed. During the tournament, Samuel receives devastating news from home: A civil war is raging across South Sudan, and rebel troops have ransacked his village. His father is dead, his sister is missing, and his mother and two younger brothers are in a refugee camp. Samuel desperately wants to go home, but it's just not possible. Partly out of sympathy, the coach of North Carolina Central offers him a scholarship. Samuel moves to Durham, enrolls in classes, joins the team, and prepares to sit out his freshman season. There is plenty of more mature talent and he isn't immediately needed. But Samuel has something no other player has: a fierce determination to succeed so he can bring his family to America. He works tirelessly on his game, shooting baskets every morning at dawn by himself in the gym, and soon he's dominating everyone in practice. With the Central team losing and suffering injury after injury, Sooley, as he is nicknamed, is called off the bench. And the legend begins. But how far can Sooley take his team? And will success allow him to save his family? Gripping and moving, Sooley showcases John Grisham's unparalleled storytelling powers in a whole new light. This is Grisham at the top of his game.

[Trunk Music](#) Penguin Random House India Death, deception, and a detective with quite a lot to hide stalk the pages of Anthony Horowitz's brilliant murder mystery, the second in the bestselling series starring Private Investigator Daniel Hawthorne. "You shouldn't be here. It's too late . . ." These, heard over the phone, were the last recorded words of successful celebrity-divorce lawyer Richard Pryce, found bludgeoned to death in his bachelor pad with a bottle of wine—a 1982 Chateau Lafite worth

£3,000, to be precise. Odd, considering he didn't drink. Why this bottle? And why those words? And why was a three-digit number painted on the wall by the killer? And, most importantly, which of the man's many, many enemies did the deed? Baffled, the police are forced to bring in Private Investigator Daniel Hawthorne and his sidekick, the author Anthony, who's really getting rather good at this murder investigation business. But as Hawthorne takes on the case with characteristic relish, it becomes clear that he, too, has secrets to hide. As our reluctant narrator becomes ever more embroiled in the case, he realizes that these secrets must be exposed—even at the risk of death . . .
