HARVEY DAVENPORT

A Land As God Made It Cengage Learning
 A sweeping history of the 1840s, *Manifest Destinies* captures the enormous sense of possibility that inspired America's growth and shows how the acquisition of western territories forced the nation to come to grips with the deep fault line that would bring war in the near future. Steven E. Woodworth gives us a portrait of America at its most vibrant and expansive. It was a decade in which the nation significantly enlarged its boundaries, taking Texas, New Mexico, California, and the Pacific Northwest; William Henry Harrison ran the first modern populist campaign, focusing on entertaining voters rather than on discussing issues; prospectors headed west to search for gold; Joseph Smith founded a new religion; railroads and telegraph lines connected the country's disparate populations as never before. When the 1840s dawned, Americans were feeling optimistic about the future: the population was growing, economic conditions were improving, and peace had reigned for nearly thirty years. A hopeful nation looked to the West, where vast areas of unsettled

land seemed to promise prosperity to anyone resourceful enough to take advantage. And yet political tensions roiled below the surface; as the country took on new lands, slavery emerged as an irreconcilable source of disagreement between North and South, and secession reared its head for the first time. Rich in detail and full of dramatic events and fascinating characters, *Manifest Destinies* is an absorbing and highly entertaining account of a crucial decade that forged a young nation's character and destiny.

The Vision of Columbus Stanford University Press

A noted historian and navigator relates the story of the accomplished seaman who sailed west to the New World

A Poem, in Nine Books Plume

Equip your students to excel on the AP® United States History Exam, as updated for 2016 Features "flexibility designed to use in a one-semester or one-year course" divided into nine chronological periods mirroring the structure of the new AP® U.S. College Board Curriculum Framework, the text reflects the Board's effort to focus on trends rather than isolated facts "each period features a one-page overview summarizing the major developments of the period and lists the three featured Key Concepts from the College Board Curriculum Framework" each

Think As a Historian feature focuses on one of the nine historical thinking skills that the AP® exam will test "each chapter narrative concludes with Historical Perspectives, a feature that addresses the College Board emphasis on how historians have interpreted the events of the chapter in various ways "the chapter conclusion features a list of key terms, people, and events organized by theme, reflecting the College Board's focus on asking students to identify themes, not just events "chapter assessments include eight multiple-choice items, each tied to a source as on the new AP® exam, as well as four short-answer questions "period reviews include both long-essay questions and Document-Based Questions in the format of those on the AP® exam, as updated for 2016

Rhetoric from Aristotle to Obama Profile Books

THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis.

Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1–41); Volume 1: To 1877 (Chapters 1–22); Volume 2: Since 1865 (Chapters 22–41). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A History of the Republic Harper Collins

The College Physics for AP(R) Courses text is designed to engage students in their exploration of physics and help them apply these concepts to the Advanced Placement(R) test. This book is Learning List-approved for AP(R) Physics courses. The text and images in this book are grayscale.

From the Arrival of Native American Tribes to the Obama Presidency Harper Collins

Examines the causes of the financial crisis that began in 2008 and reveals the weaknesses found in financial regulation, excessive borrowing, and breaches in accountability.

Techniques That Actually Work. • Tried-and-true strategies to help you avoid traps and beat the test • Tips for pacing yourself and guessing logically • Essential tactics to help you work smarter, not harder Everything You Need to Know to Help Achieve a High Score. • Detailed coverage of the short-answer questions and source-based multiple-choice questions • In-depth guidance on the document-based and long essay questions • Up-to-date

information on the 2016 exam • Access to AP Connect, our online portal for helpful pre-college information and exam updates Practice Your Way to Excellence. • 2 full-length practice tests with detailed answer explanations • End-of-chapter review questions to test your retention of the material • Pacing drills to help you maximize your points

American Holocaust Oxford University Press

The definitive history of the Jamestown colony, the crucible of American history Although it was the first permanent English settlement in North America, Jamestown is too often overlooked in the writing of American history. Founded thirteen years before the Mayflower sailed, Jamestown's courageous settlers have been overshadowed ever since by the pilgrims of Plymouth. But as historian James Horn demonstrates in this vivid and meticulously researched account, Jamestown-not Plymouth-was the true crucible of American history. Jamestown introduced slavery into English-speaking North America; it became the first of England's colonies to adopt a representative government; and it was the site of the first white-Indian clashes over territorial expansion. *A Land As God Made It* offers the definitive account of the colony that give rise to America.

America's HistoryFor the AP CourseColonial AmericaA Very Short IntroductionOxford University Press

Cracking the AP. U.S. History Exam Stanford University Press

Arguing that the European and white American destruction of the native American people was the most massive act of genocide in the history of the world, Stannard attempts to set the records straight on what befell American Indians over the last five centuries.

Women of the Republic Harper Collins

This book examines the peculiar new worlds of the Five Nations of the Iroquois, the Dutch, and the French, who shared cultural frontiers in seventeenth-century America. Viewing early America from the different perspectives of the diverse peoples who coexisted uneasily during the colonial encounter between Europeans and Indians, he explains a long-standing paradox: the apparent belligerence of the Five Nations, a people who saw themselves as promoters of universal peace. In a radically new interpretation of the Iroquois, Dennis argues that the Five Nations sought to incorporate their new European neighbors as kinspeople into their Longhouse, the physical symbolic embodiment of Iroquois domesticity and peace. He offers a close, original reading of the fundamental political myth of the Five Nations, the Deganawidah Epic, and situates it historically and ideologically in Iroquois life. Detailing the particular nature of Iroquois peace, he describes the Five Nations' diligent efforts to establish peace on their own terms and the frustrations and hostilities that stemmed from the fundamental contrast between Iroquois and European goals, expectations, and perceptions of human relationships.

U.S. History Boxtree

A classic since its original landmark publication in 1980, Howard Zinn's *A People's History of the United States* is the first scholarly work to tell America's story from the bottom up—from the point of view of, and in the words of, America's women, factory workers, African Americans, Native Americans, working poor, and

immigrant labourers. From Columbus to the Revolution to slavery and the Civil War—from World War II to the election of George W. Bush and the "War on Terror"—*A People's History of the United States* is an important and necessary contribution to a complete and balanced understanding of American history.

First Establishment of the Faith in New France Hill and Wang

The McCarthy era is generally considered the worst period of political repression in recent American history. But while the famous question, "Are you now or have you ever been a member of the Communist Party?" resonated in the halls of Congress, security officials were posing another question at least as frequently, if more discreetly: "Information has come to the attention of the Civil Service Commission that you are a homosexual. What comment do you care to make?" Historian David K. Johnson here relates the frightening, untold story of how, during the Cold War, homosexuals were considered as dangerous a threat to national security as Communists. Charges that the Roosevelt and Truman administrations were havens for homosexuals proved a potent political weapon, sparking a "Lavender Scare" more vehement and long-lasting than McCarthy's Red Scare. Relying on newly declassified documents, years of research in the records of the National Archives and the FBI, and interviews with former civil servants, Johnson recreates the vibrant gay subculture that flourished in New Deal-era Washington and takes us inside the security interrogation rooms where thousands of Americans were questioned about their sex lives. The homosexual purges ended promising careers, ruined lives, and pushed many to suicide. But, as Johnson also shows, the purges brought victims together to protest their treatment, helping launch a new civil rights struggle. The Lavender Scare shatters the myth that homosexuality has only recently become a national political issue, changing the way we think about both the McCarthy era and the origins of the gay rights movement. And perhaps just as importantly, this book is a cautionary tale, reminding us of how acts taken by the government in the name of "national security" during the Cold War resulted in the infringement of the civil liberties of thousands of Americans.

The American Pageant, Advanced Placement Edition Basic Books

Brinkley's *American History*, a comprehensive U.S. History program, transforms the learning experience through proven, adaptive technology helping students better grasp the issues of the past while providing instructors greater insight on student performance. Known for its clear, single voice and balanced scholarship, Brinkley asks students to think historically about the many forces shaping and re-shaping our dynamic history. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

The New England Way Hill and Wang

The Other Civil War offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller *A People's History of the United States*, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

AP Us History: Prep 2015 Se Perfection Learning

This clear and concise new introduction examines all the major debates and issues using a wide range of well-known examples. It discusses the challenge of using verbal and written language to analyse a visual form. Dana Arnold also examines the many

different ways of writing about art, and the changing boundaries of the subject of art history. Topics covered include the canon of Art History, the role of the gallery, 'blockbuster' exhibitions, the emergence of social histories of art (Feminist Art History or Queer Art History, for example), the impact of photography, and the development of Art History using artefacts such as the altarpiece, the portrait, or pornography, to explore social and cultural issues such as consumption, taste, religion, and politics. Importantly, this book explains how the traditional emphasis on periods and styles originates in western art production and can obscure other critical approaches, as well as art from non western cultures.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Catawbas and Their Neighbors from European Contact through the Era of Removal Houghton Mifflin College Division

This eloquent, pathbreaking account follows the Catawbas from their first contact with Europeans in the sixteenth century until they carved out a place in the American republic three centuries later. It is a story of Native agency, creativity, resilience, and endurance. Upon its original publication in 1989, James Merrell's definitive history of Catawbas and their neighbors in the southern piedmont helped signal a new direction in the study of Native Americans, serving as a model for their reintegration into American history. In an introduction written for this twentieth anniversary edition, Merrell recalls the book's origins and considers its place in the field of early American history in general and Native American history in particular, both at the time it was first published and two decades later.

The Indians' New World Penguin

In June 1812 the still-infant United States had the audacity to declare war on the British Empire. Fought between creaking sailing ships and armies often led by bumbling generals, the ensuing conflict featured a tit-for-tat "You burned our capital, so we'll burn yours" and a legendary battle unknowingly fought after the signing of a peace treaty. During the course of the war, the young American navy proved its mettle as the USS Constitution, "Old Ironsides," sent two first-rate British frigates to the bottom, and a twenty-seven-year-old lieutenant named Oliver Hazard Perry hoisted a flag exhorting, "Don't Give Up the Ship," and chased the British from Lake Erie. By 1814, however, the United States was no longer fighting for free trade, sailors' rights, and as much of Canada as it could grab, but for its very existence as a nation. With Washington in flames, only a valiant defense at Fort McHenry saved Baltimore from a similar fate. Here are the stories of commanding generals such as America's Henry "Granny" Dearborn, double-dealing James Wilkinson, and feisty Andrew Jackson, as well as Great Britain's gallant Sir Isaac Brock, overly cautious Sir George Prevost, and Rear Admiral George Cockburn, the man who put the torch to Washington. Here too are those inadvertently caught up in the war, from heroine farm wife Laura Secord, whom some call Canada's Paul Revere, to country doctor William Beanes, whose capture set the stage for Francis Scott Key to write "The Star-Spangled Banner." *1812: The War That Forged a Nation* presents a sweeping narrative that emphasizes the struggle's importance to America's coming-of-age as a nation. Though frequently overlooked between the American Revolution and the Civil War, the War of 1812 did indeed span half a continent -- from Mackinac Island to New Orleans, and Lake Champlain to Horseshoe Bend -- and it paved the way for the conquest of the other half. During the War of 1812, the United States cast aside its cloak of colonial adolescence and -- with

both humiliating and glorious moments -- found the fire that was to forge a nation.

[A Massively Collaborative Open U.S. History Textbook, Vol. 1: To 1877](#) Amsco School Publications

In this Very Short Introduction, Alan Taylor presents the current

scholarly understanding of colonial America to a broader audience. He focuses on the transatlantic and a transcontinental perspective, examining the interplay of Europe, Africa, and the Americas through the flows of goods, people, plants, animals, capital, and ideas.
