*Modern Analytical Chemistry* Penguin UK  
 What happens when people turn their everyday experience into data: an introduction to the essential ideas and key challenges of self-tracking. People keep track. In the eighteenth century, Benjamin Franklin kept charts of time spent and virtues lived up to. Today, people use technology to self-track: hours slept, steps taken, calories consumed, medications administered. Ninety million wearable sensors were shipped in 2014 to help us gather data about our lives. This book examines how people record, analyze, and reflect on this data, looking at the tools they use and the communities they become part of. Gina Neff and Dawn Nafus describe what happens when people turn their everyday experience—in particular, health and wellness-related experience—into data, and offer an introduction to the essential ideas and key challenges of using these technologies. They consider self-tracking as a social and cultural phenomenon, describing not only the use of data as a kind of mirror of the self but also how this enables people to connect to, and learn from, others. Neff and Nafus consider what's at stake: who wants our data and why; the practices of serious self-tracking enthusiasts; the design of commercial self-tracking technology; and how self-tracking can fill gaps in the healthcare system. Today, no one can lead an entirely untracked life. Neff and Nafus show us how to use data in a way that empowers and educates.

 Narratives Unsettled argues by way of close readings of three very different German-language writers that only if we conceive of narrativity unburdened by plot can we properly account for radical forms of digression.

 What do Mexico's Zapatistas, the French National Front, Slow Food, rave subculture, and al-Qaeda all have in common? From right-wing to left-wing to no-wing, they all proudly proclaim their mission to defend their distinctive identities against modernity's homogenizing processes. This controversial book establishes fundamental similarities between anti-globalization "aurora" movements that aim to destroy the modern world and bring a radiant new dawn to humankind. While these groups often despise one another, they nonetheless share many fundamental characteristics, goals, and attitudes. Drawing on the original writings and actions of various anti-globalist groups, the authors

reveal a common tendency toward charismatic leadership, good versus evil worldviews, the quest for authentic identity, concern with ritual, and unbending demands for total commitment. These movements, however they pursue world transformation and personal transcendence, are a prominent and continuing aspect of our present condition. This book is a strong reminder that, no matter what the cause, revolution is not a thing of the past and the fervent search for another world continues.

*You Can't Make This Stuff Up* Simon and Schuster  
 America's top psychic medium reflects on his life of speaking to Spirit and the lessons he's learned along the way—from both the living and the dead. Matt Fraser is just an ordinary guy...who happens to talk to dead people. Born into a psychic family, Matt carries on the legacy passed down from his late Grandmother Mary by connecting people to their dearly departed loved ones and delivering messages from the other side. His sold-out live group readings, television appearances, and private readings have allowed him to bring hope and healing to fans from around the world. But people who are not in the habit of talking with the dead have a hard time imagining what his day-to-day life is like. Based on the questions he gets, they seem to think he spends most of his time sitting cross-legged in a trance, maybe hovering a few inches off the ground, leaving his physical body behind as he journeys across the veil to the spirit realm. But it's not like that at all. Now, in *When Heaven Calls*, Matt opens up about it's really like to be a psychic medium—including how he discovered his spiritual gift, what it's like to connect with souls on the other side, what communicating with the dead has taught him about embracing life, and how you can tap into your own intuitive awareness to manifest your dreams, goals, and desires.

 For fans of TLC's Long Island Medium and anyone interested in the big questions of life, death, and finding out what's important in between, New York Times bestselling author and medium Theresa Caputo shares how she discovered her gift and her many encounters with Spirit. Beloved medium Theresa Caputo, star of the hit television show Long Island Medium, opens the door to her world and invites you to experience her exceptional gift of communicating with those who've crossed over to the Other Side.

The always funny, frank, and down-to-earth medium—whether she's talking to her family, the local butcher, or the souls of those who've passed on—began communicating with Spirit at the age of four, but didn't fully accept her gift until she was thirty-three years old. She had a good life as a busy wife and working mom, but also suffered from chronic anxiety that, as it turned out, came from ignoring her abilities. Once Theresa began channeling, she realized that she felt much better after delivering a message from Spirit and releasing that energy. Since then she's used her extraordinary gift to help people heal from the loss of their loved ones. Theresa feels that it's her purpose to make us all aware that there is more to life than what we see here in the physical world. She wants you to know that your deceased loved ones are safe and at peace, and that they're now with you in a different way—watching over you, loving you, and assisting you from the Other Side. She also wants you to realize that the unexplainable things you sense and feel from these souls are real, and that it's healthy and essential to acknowledge them. *There's More to Life Than This* lends insight on how Theresa's mediumship works, what happens to your soul when you die, what Spirit says Heaven is like, what the deceased want you to know, the importance of living a positive life, and the many roles that your family, friends, angels, guides, souls of faith, and God play here and in the afterlife. It also explores how to safely connect with Spirit, so that you can recognize when your loved ones are reaching out. Through Theresa's personal story, compelling anecdotes, and fascinating client readings, she teaches us about how she communicates with Spirit and helps us to understand and appreciate the important lessons and touching messages that we're meant to embrace every day.

*Good Mourning* Pratham Books

Fiercely observed, often hilarious, and “reminiscent of Ibsen and Strindberg” (The New York Times Book Review), this exquisitely controversial novel was initially banned in its author’s homeland. A searing portrayal of Vienna’s bourgeoisie, it begins with the arrival of an unnamed writer at an ‘artistic dinner’ hosted by a composer and his society wife—a couple he once admired and has come to loathe. The guest of honor, a distinguished actor from the Burgtheater, is late. As the other guests wait impatiently, they are seen through the critical eye of the writer, who narrates a silent but frenzied tirade against these former friends, most of whom have been brought together by Joana, a woman they buried earlier that day. Reflections on Joana’s life and suicide are mixed with these denunciations until the famous actor arrives, bringing an explosive end to the evening that even the writer could not have seen coming.

A unique and personal portrait of the beloved, legendary Swiss writer, finally in English After a nervous breakdown in 1929, Robert Walser spent the remaining twenty-seven years of his life in mental asylums, closed off from the rest of the world in almost complete anonymity. While at the Herisau sanitarium, instead of writing, Walser practiced another favorite activity: walking. Starting in 1936, Carl Seelig, Walser’s friend and literary executor, visited and accompanied him on these walks, meticulously recording their conversations. As they strolled, Walser told stories, shared his daily experiences of the sanatorium, and expressed his opinions about books and art, writing and history. When Seelig asked why he no longer wrote, Walser famously replied: “I’m not here to write, I’m here to be mad.” Filled with lively anecdotes and details, *Walks with Walser* offers the fullest available account of this wonderful writer’s inner and outer life.

*Good Grief* Springer Nature

A grieving widow discovers a most unexpected form of healing—hunting for mushrooms. “Moving . . . Long tells the story of finding hope after despair lightly and artfully, with self-effacement and so much gentle good nature.”—The New York Times Long Litt Woon met Eiof a month after arriving in Norway from Malaysia as an exchange student. They fell in love, married, and settled into domestic bliss. Then Eiof’s unexpected death at fifty-four left Woon struggling to imagine a life without the man who had been her partner and anchor for thirty-two years. Adrift in grief, she signed up for a beginner’s course on mushrooming—a course the two of them had planned to take together—and found, to her surprise, that the pursuit of mushrooms rekindled her zest for life. *The Way Through the Woods* tells the story of parallel journeys: an inner one, through the landscape of mourning, and an outer one, into the fascinating realm of mushrooms—resilient, adaptable, and essential to nature’s cycle of death and rebirth. From idyllic Norwegian forests and urban flower beds to the sandy beaches of Corsica and New York’s Central Park, Woon uncovers an abundance of surprises often hidden in plain sight: salmon-pink Bloody Milk Caps, which ooze red liquid when cut; delectable morels, prized for their earthy yet delicate flavor; and bioluminescent mushrooms that light up the forest at night. Along the way, she discovers the warm fellowship of other mushroom obsessives, and finds that giving her full attention to the natural world transforms her, opening a way for her to survive Eiof’s death, to see herself anew, and to reengage with life. Praise for *The Way Through the Woods* “In her search for new meaning in life after the death of her husband, Long Litt Woon undertook the study of mushrooms.

What she found in the woods, and expresses with such tender joy in this heartfelt memoir, was nothing less than salvation.”—Eugenia Bone, author of *Mycophilia and Microbia* *Moving Through Everyday Losses with Wisdom from the Other Side* HarperCollins
