*The Domestic Politics of International  
 Relations Basic Books*

This book provides the reader with a balanced understanding of both the dynamism and the complexity of Israeli politics. It is devoted to Israel's domestic politics which includes right-wing and left-wing parties, Israel's main interest-group parties, Israeli security and foreign policy

issues.

Cases from Australia, New Zealand and Oceania Routledge

No country feels China's rise more deeply than Japan. Through intricate case studies of visits by Japanese politicians to the Yasukuni Shrine, conflicts over the boundaries of economic zones in the East China Sea, concerns about food safety, and strategies of island defense, Sheila A. Smith explores the policy issues testing the Japanese government as it tries to navigate its relationship with an advancing China. Smith finds that Japan's interactions with China extend far beyond the negotiations between diplomats and

include a broad array of social actors intent on influencing the Sino-Japanese relationship. Some of the tensions complicating Japan's encounters with China, such as those surrounding the Yasukuni Shrine or territorial disputes, have deep roots in the postwar era, and political advocates seeking a stronger Japanese state organize themselves around these causes. Other tensions manifest themselves during the institutional and regulatory reform of maritime boundary and food safety issues. Smith scrutinizes the role of the Japanese government in coping with contention as China's influence grows and Japanese

citizens demand more protection. Underlying the government's efforts is Japan's insecurity about its own capacity for change and its waning status as the leading economy in Asia. For many, China's rise means Japan's decline, and Smith suggests how Japan can maintain its regional and global clout as confidence in its postwar diplomatic and security approach diminishes.

American Domestic Politics and Foreign Policy Routledge

Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. Zaharna

Domestic Politics and International Relations University Press of Kentucky

A Christmas Carol: Scrooge in Bethlehem is an adaptation of Charles Dickens' 19th-century English story, A Christmas Carol. In this merry adaptation Scrooge is the Bethlehem Innkeeper who refuses shelter to Mary and Joseph on that first Christmas night. His front desk clerk, Bob Cratchit, comes to their aid while Scrooge sleeps alone in his dark room in the inn. When God sends an angel with the Light of Salvation to Scrooge, the wretched man is forced to search his soul. Gradually he realizes that he has traded his soul for money. His final redemption reflects the promise of salvation for all, both poor and rich, in the birth of Emmanuel, God with us.

New Realities in Foreign Affairs Foreign Policy, Domestic Politics and International Relations The case of Italy

What is Iran? What are its domestic politics? Its history? Its international relations? Here, Arshin Adib-Moghaddam

sheds fresh light on these questions, offering a general introduction to everything there is to know about this country. Uniquely, he uses musical pieces as a way to offer a holistic understanding of the full spectrum of Iranian affairs. As a result, even the general reader is invited to traverse a wide array of topics in an interactive format which merges approaches from the social sciences with philosophy, poetry and art. These topics include a variety of themes, issues and personalities: from Trump, Khomeini, the Shah, Saddam Hussein and Qasem Soleimani, to Israel, Syria, Latin America, China and the Gulf monarchies. Ultimately, this book demonstrates in clear and accessible prose the impact of Iranian politics on a global scale, and offers solutions to the various crises enveloping the country in the region and beyond.

International Migration and the Globalization of Domestic Politics Nomos Verlag

Increasingly scholars of international relations are rallying around the idea that "domestic politics matters." Few, however, have articulated precisely how or why it matters. In this significant book, Helen Milner lays out the first fully developed theory of domestic politics, showing exactly how domestic politics affects international outcomes. In developing this rational-choice theory, Milner argues that any explanation that treats states as unitary actors is ultimately misleading. She describes all states as polyarchic, where decision-making power is shared between two or more actors (such as a legislature and an executive). Milner constructs a new model based on two-level game theory, reflecting the political activity at both the domestic and international levels. She illustrates this model by taking up the critical question of cooperation among nations. Milner examines the central factors that influence the strategic game of domestic politics. She shows that it is the outcome of this internal game--not fears of other countries' relative gains or the likelihood of cheating--that ultimately shapes how the international game is played out and therefore the extent of cooperative endeavors. The interaction of the domestic actors' preferences, given their political institutions and levels of information, defines when international cooperation is possible and what its terms will be. Several test cases examine how this argument explains the phases of a cooperative attempt: the initiation, the negotiations at the international level, and the eventual domestic ratification. The book reaches the surprising conclusion

that theorists--neo-Institutionalists and Realists alike--have overestimated the likelihood of cooperation among states. Foreign Policy, Domestic Politics, and Internal Security, 1946-1948 Vanderbilt University Press

This volume focuses on the effects of the internationalization of national markets on domestic politics.

The Domestic Sources of China's Foreign Policy University of Michigan Press

When engaging with other countries, the U.S. government has a number of different policy instruments at its disposal, including foreign aid, international trade, and the use of military force. But what determines which policies are chosen?

Does the United States rely too much on the use of military power and coercion in its foreign policies? Sailing the Water's Edge focuses on how domestic U.S. politics—in particular the interactions between the president, Congress, interest groups, bureaucratic institutions, and the public—have influenced foreign policy choices since World War II and shows why presidents have more control over some policy instruments than others.

Presidential power matters and it varies systematically across policy instruments. Helen Milner and Dustin Tingley consider how Congress and interest groups have substantial material interests in and ideological divisions around certain issues and that these factors constrain presidents from applying specific tools. As a result, presidents select instruments that they have more control over, such as use of the military. This militarization of U.S. foreign policy raises concerns about the nature of American engagement, substitution among policy tools, and the future of U.S. foreign policy. Milner and Tingley explore whether American foreign policy will remain guided by a grand strategy of liberal internationalism, what affects American foreign policy successes and failures, and the role of U.S. intelligence collection in shaping foreign policy. The authors support their arguments with rigorous theorizing, quantitative analysis, and focused case studies, such as U.S. foreign policy in Sub-Saharan Africa across two presidential administrations. Sailing the Water's Edge examines the importance of domestic political coalitions and institutions on the formation of American foreign policy.

Domestic Politics, Foreign Policy, and Security Challenges University of Chicago Press

This book collects Thomas Risse's most important articles together in a single volume. Covering a wide range of issues – the end of the Cold War, transatlantic

relations, the "democratic peace," human rights, governance in areas of limited statehood, Europeanization, European identity and public spheres, most recently comparative regionalism – it is testament to the breadth and excellence of this highly respected International Relations scholar's work. The collection is organized thematically – domestic politics and international relations, international sources of domestic change, and the diffusion of ideas and institutions – and a brand new introductory essay provides additional coherence. This text will be of key interest to scholars and students of International Relations, European Politics, and Comparative Politics.

Domestic Politics and Foreign Policy Wiley-Blackwell

This book offers a re-examination of foreign policy, in its relation with domestic politics and international relations (IR). Bringing together a vast body of literature from IR, foreign policy analysis, comparative politics and public policy, this book systematically reconceptualises foreign policy as a dialectic, produced by the interplay of context, strategy and discourse. It argues that foreign policy defies easy understandings and necessitates a complex framework of analysis, introducing the 'Strategic-Relational Model', as conceptualised in critical realism, for the first time to the field of foreign policy analysis. Combining a comprehensive investigation of the last century of Italian foreign policy with an exploration of a key theoretical issue within the field of foreign policy analysis and IR, this book analyses key episodes within Italian foreign policy, including Italy's Cold War alliance politics, colonial interventions, fascist foreign policy and Italy's participation in the wars of Kosovo, Iraq and Afghanistan. It provides a comprehensive and up-to-date account of the long-term historical trajectory of Italian foreign policy, from the Liberal age to the 'Second Republic', including all four governments of Silvio Berlusconi. Foreign Policy, Domestic Politics and International Relations will be of interest to students and scholars of International Relations, Foreign Policy Analysis and Italian politics.

The Peace Agreement with the Soviet Union Praeger

Examining Benjamin Netanyahu's more than a decade-long period as Israel's Prime Minister, this important book evaluates the domestic politics and foreign policy of Israel from 2009-2019. This comprehensive study assesses Israel's main political parties, highlights the special position in Israel of Israel's Arab, Russian and religious communities,

appraises Netanyahu's stewardship of Israel's economy, and analyzes Israel's foreign relations. The scholars contributing to the volume are leading experts from both Israel and the United States and represent a broad spectrum of viewpoints on Israeli politics and foreign policy. The case studies cover the Likud party, the non-religious opposition parties such as Labor, Meretz, and Yesh Atid, the Arab parties, the religious parties and the Russian-based Yisrael B'Aliyah party, and present analyses of the ups and downs of Israel's relations with the United States, the American Jewish Community, Iran, Europe, the Palestinians, the Arab World, Russia, China, India, and Turkey as well as Israel's challenges in dealing with terrorism. Another highlight of the book is an assessment of Netanyahu's leadership of the Likud party, which seeks to answer the question as to whether Netanyahu is a pragmatist interested in a peace deal with the Palestinians or an ideologue who wants Israel to hold on to the West Bank as well as all of Jerusalem. This volume will be of interest to readers who wish to understand the dynamics of Israel during Benjamin Netanyahu's time as Prime Minister and are interested in the history and politics of Israel and the Middle East.

*Internationalization and Domestic Politics* Cambridge University Press

Increasing international migration, the information revolution and democratization have propelled a globalization of the domestic politics of many states and, although diasporic politics is not new, emigrant political participation in homeland politics has grown as well as adapted to the new methods of the information revolution. This book examines the participation of emigrants in their home country politics. It considers the consequences of such participation for domestic and foreign policies in both host and home country, and explores the theoretical implications for democracy, nationalism, the state and the shape of world politics in the future. It includes detailed case studies of Turkish emigrants in Europe, the US and Saudi Arabia, Kurds in Europe, Israeli emigrants and the American Jewish community, Mexicans in the US, Chinese throughout the Pacific Rim, Indians in the US and Russians who found themselves outside Russia when the Soviet Union collapsed. By providing extensive documentation of emigrant political activity with significant impact on homeland politics and foreign policies, this work provides ammunition to the argument that international migration, globalization and transnational phenomena pose serious challenges to the

state and the international system of states. It will be of interest to anthropologists, sociologists and area studies specialists as well as political science and international relations scholars.

**Japanese Domestic Politics and a Rising China** Routledge

This book offers a re-examination of foreign policy, in its relation with domestic politics and international relations (IR). Bringing together a vast body of literature from IR, foreign policy analysis, comparative politics and public policy, this book systematically reconceptualises foreign policy as a dialectic, produced by the interplay of context, strategy and discourse. It argues that foreign policy defies easy understandings and necessitates a complex framework of analysis, introducing the 'Strategic-Relational Model', as conceptualised in critical realism, for the first time to the field of foreign policy analysis. Foreign Policy, Domestic Politics and International Relations will be of interest to students and scholars of International Relations, Foreign Policy Analysis and Italian politics.

**Identity Politics Inside Out** Routledge

This book discusses the history of the El Chamizal dispute, integrating theories of statecraft with the domestic environment for choice that is built on an analysis of how key factions within policy coalitions react to the policy and political risks attached to the different foreign policy options.

United States Development Assistance Policy Springer

A twentieth-century innovation, foreign aid has become a familiar and even expected element in international relations. But scholars and government officials continue to debate why countries provide it: some claim that it is primarily a tool of diplomacy, some argue that it is largely intended to support development in poor countries, and still others point out its myriad newer uses. Carol Lancaster effectively puts this dispute to rest here by

providing the most comprehensive answer yet to the question of why governments give foreign aid. She argues that because of domestic politics in aid-giving countries, it has always been—and will continue to be—used to achieve a mixture of different goals. Drawing on her expertise in both comparative politics and international relations and on her experience as a former public official, Lancaster provides five in-depth case studies—the United States, Japan, France, Germany, and Denmark—that demonstrate how domestic politics and international pressures combine to shape how and why donor governments give aid. In doing so, she explores the impact on foreign aid of political institutions, interest groups, and the ways governments organize their giving. Her findings provide essential insight for scholars of international relations and comparative politics, as well as anyone involved with foreign aid or foreign policy.

**Domestic Politics and US Foreign Policy since 1945** Taylor & Francis

This title was first published in 2000. An important comparative study, which considers the domestic/international interface. The book covers climate change in Australia; New Zealand and the abolition of nuclear weapons; the Bougainville conflict and settlement in Papua New Guinea; Decolonization (New

Caledonia, East Timor, West Papua); Indigenous Rights (Australia, New Zealand, and Fiji); Governance Reform and Environmental Management challenges in the Pacific Island states. The conclusion evaluates propositions advanced in the introductory chapter regarding the distinctive domestic/international issues raised and argues that, in order to comprehend foreign relations in an increasingly complex world, there is no substitute for a thorough knowledge of distinctive local, social and political dynamics shaping international orientations. The theme of the book is the way that these interactions have operated in the cases examined

**Domestic Politics, the Republican Party, and the War** University of Chicago Press

Two studies exploring the question of linkage between Beijing's foreign policy and domestic politics in the PRC
