Can you confirm if doing a factory default on a C20 using the power button does a factory default on it's web interface password as well? Find A Community. Buy or Renew. Find A Community ...

Turn the C20 off by pressing the physical reset button. ... Please we have c20 VC Unit which only displays Cisco on the screen. The Tandberg C20 VC Unit ...

Cisco TelePresence PrecisionHD 1080p-720p Camera User Guide

I checked "precisionhd_1080p-720p_camera_user_guide.pdf" but there was no description about 4x cameras for C40. (I found some descriptions about PrecisionHD 1080p4x there but they must be 4x cameras only for C20) I guess it is possible because 1080p 12x cameras which can daisy chain, have same physical interface as 1080p 4x cameras for C40.

A physical interface will be numbered with the same interface name as is printed on the physical port. For example "GigabitEthernet 0/1" corresponds to port 1 on module 0 (or the base unit). A logical interface can be a subinterface on a routed port and will have a dot (".") preceding the subinterface number (ex. GigabitEthernet 0/1.1).
