Yorkshire Gritstone Bouldering

Routledge

'When it comes to training for climbing, you are your own experiment.'

Beastmaking by Ned Feehally is a book about training for climbing. It is designed to provide normal people - like you and me - with the tools we need to get the most out of our climbing. It is written by one of the world's top climbers and a co-founder of Beastmaker. It features

sections on finger strength, fingerboarding, board training, mobility and core, and includes suggested exercises and workouts. There are insights from some of the world's top climbers, including Alex Honnold, Shauna Coxsey, Adam Ondra, Alex Puccio and Tomoa Narasaki. Free from jargon, it is intended to provide enough information for us to work out what we need to train, and to help us to train it.

Northern Limestone

Rockfax Limited
 The wide rolling hills, outcrops and quarries of sandstone and gritstone that pepper northern England have long been popular with the locals, though visitors are less common, except on the few better known cliffs. Although lacking the extravagantly draped grandeur of the spectacular Edges of the Peak District, there are many fine crags and hidden

classics here waiting for the diligent explorer. This guidebook will help climbers get the most from this extensive area.

South Wales Sport Climbs Rockfax Limited
 This guide contains all the best routes and rock climbing areas on the Costa Blanca, Spain.

Costa Blanca

Routledge
 A guidebook to one of the finest sport climbing venues in Europe, the Catalan province of Lleida in Northeast Spain. It describes 120 separate sectors spread across 22 zones, offering almost 2,800 routes of between grade III (S) and 9b+, and ranging from just a few metres in length to over 250 metres.

Europe

Rockfax
 This will be the second Rockfax guidebook to this spectacular and beautiful area, the first 2008 volume won the Banff Guidebook of the Year Award and put

Lofoten very much on the map. We have updated and expanded the information with a completely new set of crag photographs, plus some fantastic maps and all the new developments from the nine years since the last book was published. For the first time we have also included coverage of the astounding set of peaks around the Stetind area on the mainland, close to Narvik. Crag Covered - The West - Helvetestinden, Merraflestinden, Breiflogtinden, Branntuva, Maslitinden, Olstinden, Ølkontinden, Reinesvaet, Ramsberg, Stortind, Eggum Henningsvær - Rørvika, Pianokrakken, Djupfjord, Presten, Gandalfveggen, Festvågvegg, The Coast Kalle - Paradiset, Vågakallen, Øverdalen, Kallebukta, Trollfestningen, Glåmtinden Kabelvåg - Sandvika, Tjelbergvika Svolvær - Blåtinden, Svolvær Geita, Skråpillaren Stetind Walking Peaks, Bouldering, Winter. Ski Mountaineering

North Wales Slate Rowman & Littlefield A guidebook to the trade and sport routes of the many and varied cliffs scattered across Peak Limestone. It takes the coverage in the Peak section of the well-received Northern Limestone Rockfax from 2004 and expands this with better photographic coverage, more cliffs and more routes.

Kalymnos Rockfax Climbing Guide Series The complete European rock climbing guidebook, showing 3000 climbing locations and descriptions. With this information climbers of any nationality can then plan their climbing trips with full confidence that they will be directed to the best climbing in each country and region. The information pages give complete information that all visiting

climbers seek: local climbing guides, camping/accommodation, orientation of the crag, type of climbing etc. This information is given in six languages, along with an easy to use index of symbols.

Spain: Mallorca Jingo Wobbly The best mountain, crag, sea cliff and sport climbing in Scotland. From the Foreword by Hamish MacInnes . "If you have an ambition to do all the climbs in these two Scottish Rock guides I think you'd better schedule time off in your next life. This labour of Gary's has been of gargantuan proportions. Those of you who use the guides will benefit by his dedication and the sheer choice offered; if you divide the retail price of these by the number of good routes you'll realise this is a bargain. Volume 1 covers a proliferation of Scottish crags up to the natural demarcation of the Great Glen. They are easier to access than most in Volume 2 and present infinite variety. I have been a long-time advocate of selected climbs and the use of photographs to illustrate both climbs and action. I'm glad that this principle has been used throughout these two volumes. It gives you a push to get up and do things. The list seems endless and if you succeed in doing half of them you'll be a much better climber and know a lot more about Scotland - have a good decade!"

Escalada en Málaga i "el Chorro"

Rockfax Rock climbing guide book to areas of Spain.

Spain - El Chorro Pesda Press South Wales Sport covers the area to the south of the Brecon Beacons, spanning the land and sea cliffs from the River Wye on the Welsh border to Pembrokeshire in the west. The area is home to a wealth of sport climbing on a multitude of venues ranging from small inland quarries to extensive limestone sea cliffs. The climbing is easily split into four main areas - Valleys Sandstone, Gower, the inland and coastal limestone crags and Camarthenshire's sea cliffs. The variation in climbing on offer is remarkable for such a compact area and access is easy. This book will be the first book to bring together these various crags into a single edition with many never having been properly covered in print before. Although many of the crags are new, the increasing popularity of sport climbing ensures that this book is likely to be a big seller for years to come The guidebook is illustrated with a large number of superb action photos and the latest full colour topos as well as up-to-date information on where to stay, eat, drink and relax.

Peak Limestone

This completely revised and updated edition with all new color photos brings together in a single volume the anchoring systems most popular among climbers. Most climbers today learn their craft on artificial climbing walls and on sport routes with fixed protection. Their first efforts to lead on trad routes often come as a rude shock--they find that they haven't the skills and training to safeguard the climb or to set up solid belays. This new edition of Climbing Anchors is the climber's complete and authoritative source of information on protection, from fundamental knots to sophisticated rigging and equalizing skills.
