The official
story about
9/11 is
discredited.
That is the

sobering conclusion reached by millions of Americans, all across the political spectrum, who have sifted through the evidence uncovered by hundreds of independent researchers. Many honest citizens are now forced, with sadness and reluctance, to make an almost unthinkable inference: Powerful US officials must have had foreknowledge of the planned attacks, and then acted

from the inside to: thwart efforts to prevent 9/11, remove or cover up criminal evidence, and hamper inquiries into what happened. Were the horrific events of September 11, 2001 truly an inside job? This book will help you decide for yourself. In this work, world-renowned conspiracy theorist Jim Marrs makes a compelling case that 9/11 marks the intersection of several

conspiracies at once, each based on overlapping political agendas. Support for his thesis comes from this sampling of the many disturbing anomalies, cited by Marrs: Standard air defence mechanisms systematically failed, simultaneously; Interceptor jets were scrambled too late, too slowly, and from the wrong locations; President Bush proceeded

with a 'photo op' long after he knew we were under attack; Fires could not have caused the free-fall collapse of the World Trade Center towers; The collapse of Building 7 in the complex was later admitted to be a demolition; Vital physical evidence was either removed or has never been released to investigators; Key officials claimed warnings never came, despite massive evidence to

the contrary. This is the definitive journalistic account of the hidden role of the Bush administration in failing to prevent the 9/11 attacks. The author provides heavy documentation of his findings, plus extensive appendices that include perspectives from families of 9/11 victims, and excerpts from the RICO Act lawsuit filed by 9/11 widow Ellen Mariani. Do the Global Elite Conceal Ancient

Aliens? Feral House Bringing the worlds of neuroscience and social psychology together, this book examines the ethical problems involved in carrying out the required experiments on humans, the limitations of animal models, and the frightening implications of such research. It also explores the history of thought-control and shows how it exists around us.

Our Occulted History Disinformation Company This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between

Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

The Mueller Report

Harper Collins Discusses popular conspiracy theories, primarily those involving the Internet, and their validity, including if road signs contain

hidden codes, if the Moon landings were faked, and who murdered John F. Kennedy.

Esoteric Classics St. Martin's Press Tallinn Manual 2.0 expands on the highly influential first edition by extending its coverage of the international law governing cyber operations to peacetime legal regimes. The product of a three-year follow-on project by a new group of twenty renowned international

law experts, it addresses such topics as sovereignty, state responsibility, human rights, and the law of air, space, and the sea.

Tallinn Manual 2.0 identifies 154 'black letter' rules governing cyber operations and provides extensive commentary on each rule. Although Tallinn Manual 2.0 represents the views of the experts in their personal capacity, the project benefitted from the unofficial

input of many states and over fifty peer reviewers.

Pottermore Publishing
The New York Times
bestselling journalist and leading conspiracy writer
presents his latest findings on the truth behind the 9/11 terror attacks. The terror attacks of September 11, 2001

ushered the United States into an era of war across the Middle East and government surveillance at home. In *The Terror Conspiracy Revisited*, Jim Marrs updates his authoritative dissection of the official story of 9/11. This revised edition is packed with explosive material including: The revelations of former New Jersey attorney General John Farmer, who served as Senior

Counsel to the 9/11 Commission: "At some level of the government, at some point in time. . .there was an agreement not to tell the truth about what happened." Commission cochairman Thomas Kean's suspicion of deceit: "We to this day don't know why NORAD told us what they told us. It was just so far from the truth." The conclusion of European scientists that there was nanothermite

in the World Trade Center debris, a high explosive generally available only through the US military. The investigation by Pilots For 9/11 Truth and their conclusion that hijackers could not have accessed the cockpit of Flight 77. One thing we know to be true is that the full truth about the September 11th attacks has not yet been presented to the American public. Jim Marrs

thoroughly dismantles the credibility of the US government's narrative and leaves the reader with some unsavory but indisputable conclusions. **Composed Originally for the Use of the Senate**

HarperCollins Two nationally renowned congressional scholars review the evolution of Congress from the early days of the republic to 2006, arguing that extreme partisanship and a disregard for institutional procedures are responsible for the institution's current state Secrets Skyhorse Blood, Money, & Power exposes the secret, high-level

conspiracy in Texas that led to President John F. Kennedy's death and the succession of Lyndon B. Johnson as president in 1963. Attorney Barr McClellan, a former member of L.B.J.'s legal team, uses hundreds of newly released documents, including insider interviews, court papers, and the Warren Commission, to illuminate the maneuvers, payoffs, and

power plays that revolved around the assassination of Kennedy and to expose L.B.J.'s involvement in the murder plot. In addition to revealing new information, McClellan answers common questions surrounding the assassination of our thirty-fifth president. Who had the opportunity, motive, and means to assassinate J.F.K.? Who controlled the investigation and findings of the Warren

Commission?
This historically significant book is proof that absolute power, money, blood, corruption, and deception were at the heart of politics in the early 1960s, and it represents the very best investigative journalism has to offer.
Unmasking the 9/11 Conspiracies
Oxford University Press
A remarkable debut by one of America's premier young reporters on financial

corruption, Casey Michel's American Kleptocracy offers an explosive investigation into how the United States of America built the largest illicit offshore finance system the world has ever known. "An indefatigable young American journalist who has virtually cornered the international kleptocracy beat on the US end of the black aquifer." —The Los Angeles Review of Books For

years, one country has acted as the greatest offshore haven in the world, attracting hundreds of billions of dollars in illicit finance tied directly to corrupt regimes, extremist networks, and the worst the world has to offer. But it hasn't been the sand-splattered Caribbean islands, or even traditional financial secrecy havens like Switzerland or Panama, that

have come to dominate the offshoring world. Instead, the country profiting the most also happens to be the one that still claims to be the moral leader of the free world, and the one that claims to be leading the fight against the crooked and the corrupt: the USA. American Kleptocracy examines just how the United States' implosion into a center of global offshoring took place: how states like Delaware

and Nevada perfected the art of the anonymous shell company, and how post-9/11 reformers watched their success usher in a new flood of illicit finance directly into the U.S.; how African despots and post-Soviet oligarchs came to dominate American coastlines, American industries, and entire cities and small towns across the American Midwest; how Nazi-era lobbyists

birthed an entire industry of spin-men whitewashing trans-national crooks and despots, and how dirty money has now begun infiltrating America's universities and think tanks and cultural centers; and how those on the front-line are trying to restore America's legacy of anti-corruption leadership—and finally end this reign of American kleptocracy. **Brainwashing** Red Wheel Weiser

An archaeologist explores history's most fascinating enigmas, from the ancient Druids to the mysteries of the Mayan calendar and the lost city of Atlantis. Across thousands of years of history, so-called lost civilizations still speak to us through their artifacts and architecture. In *Hidden History*, archaeologist Brian Haughton fills the gap between archaeology

and alternative history using the latest available data and a common sense, open-minded approach. Divided into three sections, this expertly researched volume shares the secrets of Mysterious Places, Unexplained Artifacts, and Enigmatic People. Haughton introduces readers to the greatest mysteries of the ancient world, from the labyrinthine palace of

Knossos on Crete to the pyramids of Egypt, the remote jungle temples of Peru, and the megalithic mystery of Stonehenge. But he also goes further to explore historical puzzles like the Coso Artifact, the possibility of ancient flight, and the Voynich Manuscript, as well as mysterious peoples from the Magi and the Druids to the Knights Templar and the Green Children. With more than 50

photographs and illustrations, this is the ideal reference work for those interested in the archaeology of these great enigmas.
