"The Ice Palace" is a modernist short story written by F. Scott Fitzgerald and published in *The Saturday Evening Post*, 22 May 1920. It is one of eight short stories originally published in Fitzgerald's first collection, *Flappers and Philosophers* (New York: Charles Scribner's Sons, 1920) Sally Carrol Happer, a young southern woman from the fictional city of Tarleton, Georgia, is bored with her unchanging environment. Her local friends are dismayed to learn she is engaged to Harry Bellamy, a man from an unspecified Northern town. She brushes off their concerns, alluding to her need for something more in her life, a need to see "things happen on a big scale." Sally Carrol travels to the North during the winter to visit Harry's home town and meet his family. The winter weather underscores her growing disillusion with the decision to move north, until her moment of epiphany in the town's local "Ice Palace". In the end, Sally Carrol returns home.

Originally published in 1958, *Ice Palace* is Pulitzer Prize winner Edna Ferber's classic and mighty novel about the taming of a great northern wilderness—Alaska. Czar Kennedy came to Alaska for money and power, Thor Storm for a dream. This is the story of their struggle, over a long half-century, for the future of Alaska and the destiny of their beautiful, rebellious granddaughter, Christine, a courageous woman who must make a choice that will shape the destiny of a new

generation. Above all, it is the glowing and eloquent tale of Alaska itself—the last, great American frontier.

From the American Chronicles of John H. Watson, M.D. Peter Owen Publishers

The sunlight dripped over the house like golden paint over an art jar, and the freckling shadows here and there only intensified the rigor of the bath of light. The Butterworth and Larkin houses flanking were entrenched behind great stodgy trees; only the Happer house took the full sun, and all day long faced the dusty road-street with a tolerant kindly patience. This was the city of Tarleton in southernmost Georgia, September afternoon. Up in her bedroom window Sally Carrol Happer rested her nineteen-year-old chin on a fifty-two-year-old sill and watched Clark Darrow's ancient Ford turn the corner. The car was hot--being partly metallic it retained all the heat it absorbed or evolved--and Clark Darrow sitting bolt upright at the wheel wore a pained, strained expression as though he considered himself a spare part, and rather likely to break. He laboriously crossed two dust ruts, the wheels squeaking indignantly at the encounter, and then with a terrifying expression he gave the steering-gear a final wrench and deposited self and car approximately in front of the Happer steps. There was a heaving sound, a death-rattle, followed by a short silence; and then the air was rent by a startling whistle. Sally Carrol gazed down sleepily. She started to yawn, but finding this quite impossible unless she raised her chin from the window-sill, changed her mind and continued silently to regard the car, whose owner sat brilliantly if perfunctorily at attention as he waited for an answer to his signal. After a moment the whistle once more split the dusty air.

The Ice Crystal Palace By Willy Paul The Ice Crystal Palace is a story about the most beautiful kingdom IN THE WHOLE WIDE WORLD! And this is why... You see, up around the North Pole, it is very, very cold outside all year long! So the people living there had to think of new ways to build things and have fun, too! The Ice Crystal Palace and all of the walls surrounding the kingdom were built out of sculpted ice. Some of the blocks were as big as a small house and some were as small as a grain of sand. But they all had a specific purpose - to reflect the sun's rays all around the kingdom. The citizens living there knew they only had a few hours of precious sunlight each day, so they wanted to make the very most of it. The sun's rays would stream into the kingdom and bounce off the sculpted ice back and forth, creating the most beautiful colors in the rainbow! This would last until the sun went down each day. And every night, the people would build a big fire in the middle of the town and, once again, watch the colors shoot through the air, reflecting off all of the ice crystals from building to building and wall to wall. It was a most beautiful sight to behold, and all of the children loved to chase the rainbows as they bounced around all over the square. The rainbow games were so much fun, and all of the children loved to play every night until it was time for everyone to go home, go to bed, say their prayers, and

then fall fast asleep in their warm, soft beds. Everyone agreed the Ice Crystal Palace was by far the most beautiful kingdom anywhere IN THE WHOLE WIDE WORLD.

A spare, powerful, supremely graceful novel from a giant of Norwegian literature As strange, unsettling, and memorable as *The Ice Palace*, this remarkable novel carries with it all the compassion, human insight, and lyrical power of all great Vesaas novels. It describes the changing relationships between three adolescents—an unmarried mother who has drowned her newborn child and the girl and boy who befriend her. Their individual reactions to the tragedy and their efforts to communicate with each other form the central theme of the narrative.

A new edition of what is commonly seen as the legendary Norwegian writer's masterpiece, this story tells the tale of Siss and Unn, two friends who have only spent one evening in each other's company. But so profound is this evening between them that when Unn inexplicably disappears, Siss's world is shattered. Siss's struggle with her fidelity to the memory of her friend and Unn's fatal exploration of the strange, terrifyingly beautiful frozen waterfall that is the Ice Palace are described in prose of a lyrical economy that ranks among the most memorable achievements of modern literature.

Set in the Norwegian countryside over the course of one summer, *The Birds* tells the story of forty-year-old Mattis, who has mental disabilities and lives in a small house near a lake with his sister Hege, who ekes out a modest living knitting sweaters. From time to time Hege encourages her brother to find work to ease their financial burdens, but Mattis's attempts to work at the surrounding farms always end in failure and disgrace. Mattis is keenly aware of the distance between himself and the world around him, which often feels hostile; the villagers call him Simple Simon. Profoundly sensitive to his surroundings, Mattis spends much of his time in the forest, reading its signs and symbols: A woodcock begins a daily flight over their house, a beautiful bird is waiting for him on the path one day when he returns from the store, and one afternoon lightning strikes one of the two withered aspen trees outside the house - trees known in the village as "Mattis-and-Hege." When Mattis decides to

employ himself as a ferryman, the only passenger he manages to bring across the lake is a lumberjack, Jørgen. When Jørgen and Hege become lovers, Mattis finds he cannot adjust to this new situation. Wholly reliant on Hege and terrified of losing her, he clings to the familiar and does everything in his power to make Jørgen leave. Simultaneously, he struggles to find a place for himself in a world that does not seem to want him. With spare simplicity, Vesaas's straightforward prose subtly reveals Mattis's perspective and readers will find themselves shifting irrevocably from observers of his experience to participants in it. Written by one of Norway's most celebrated and beloved authors, *The Birds* is a deeply nuanced examination of identity and responsibility, with abundant narrative suspense and hauntingly beautiful writing besides.

The Ice Palace that Melted Away Peter Owen Publishers

In the freezing cold winter of 1739/40, Europe was in the grip of the worst

weather for 30 years. The Seine, Rhine, Danube and Thames froze solid for months. Tsaritsa Anna Ivanovna gave an order to build a palace made completely of ice on the frozen river. She ordered the architect Pyotr Eropkin to design the building. The Ice Palace had been designed for a cruel jest. She made the prince marry a particularly ugly Kalmyk (area of Mongolia) serving woman, and the ice palace was for their honeymoon! It amounted to no more than a sick and perverse death sentence. The unhappy couple were paraded in a cage on the back of an elephant at the head of a procession of freaks, dwarves, cripples and all manner of grotesque human beings. In the palace the newlyweds were enclosed into an icy nuptial chamber under heavy guard and bedded down publicly in the icy room. The couple barely survived the night; but survive they did with the help of the Prince's aide and friends of the Kalmyk bride.
