Æschylus Copyright

In the 1990s,
'protection', 'import

substitution' and 'intervention' have become dirty words, part of the 'leyenda negra' of Latin America development in the postwar period. This book attempts a fresh look at the controversial years between the end of the Second World War and the point when, at varying dates in different countries, a discontinuity occurs in which the postwar 'style of development' ceased to play a central role in the economic evolution of the region. The analysis is based on seven case studies covering eleven countries.

This important and
 comprehensive volume
 vividly depicts the
 current status of
 women and girls in
 West Bengal. The
 analysis has been
 conducted in the
 framework of the socio-
 economic and politico-
 cultural ambience that
 has characterized the
 state in recent
 decades. The
 contributors highlight
 both areas of strength
 and vulnerability and
 clearly demonstrate
 that the status of
 women cannot be

conceived as monolithic or static—it has many facets and is in a state of constant flux. The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends.

Money and Macroeconomics is a significant collection of David Laidler's most important papers on the so-called 'monetarist counter-revolution'. This volume contains both published and unpublished examples of his influential contribution, detailing empirical work on the demand for money, the

economics of inflation, the foundations of the 'buffer stock' approach to monetary theory, the monetarist critique of new classical economics and issues of economic policy.

The term home economics often conjures images of sterile classrooms where girls learn to cook dinner and swaddle dolls, far removed from the seats of power. Helen Schneider unsettles this assumption by

revealing how Chinese women helped to build a nation, one family at a time. From the 1920s to the early 1950s, home economists transformed the most fundamental of political spaces ♦ the home ♦ by teaching women to nurture ideal families and manage projects of social reform.

Although their discipline came undone after 1949, it created a legacy of gendered professionalism and reinforced the idea that leaders should shape domestic rituals of the people.
