A legend. A warrior. A hero. A classic American epic. Two centuries ago, with the support of the young Revolutionary government, George Rogers Clark led a small but fierce army west from Virginia to conquer all the territory between the Ohio and Mississippi rivers. He battled the British, forged friendships with French and Spanish settlers, and made treaties with many Indian tribes who revered the lanky, red-haired white man and called him Long Knife. He fell in love with the woman of his dreams, the beautiful Spanish maiden Teresa de Leyba. And George Rogers Clark was, in the end, bitterly betrayed by the same government he had so nobly served. Rich in the heroic characters, meticulously researched detail, and grand scale that have become James Alexander Thom's trademarks, Long Knife, his first historical epic, is simply unforgettable.

Adam Bede, the first novel written by George Eliot (the pen name of Mary Ann Evans), was published in 1859. It was published pseudonymously, even though Evans was a well-published and highly respected scholar of her time. The story's plot follows four characters' rural lives in the fictional community of Hayslope—a rural, pastoral and close-knit community in 1799. The novel revolves around a love triangle between beautiful but self-absorbed Hetty Sorrel, Captain Arthur Donnithorne, the young squire who seduces her, Adam Bede, her unacknowledged suitor, and Dinah Morris, Hetty's cousin, a fervent, virtuous and beautiful Methodist lay preacher.
