The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have

emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

Under the Broken Sky Longman

This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice

translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

Combining your body's Paleolithic needs with modern nutritional and medical research for complete mind-body wellness • Provides sustainable diet strategies to curb sugar cravings, promote fat burning and weight loss, reduce stress and anxiety, improve sleep and moods, increase energy and immunity, and enhance memory and brain function • Shows how our modern diet leads to weight gain and "diseases of civilization"--such as cancer, osteoporosis, metabolic syndrome, heart disease, and ADD • Explains how diet affects the brain, hormone balance, and the aging process and the crucial role of vitamin D in cancer and disease prevention Examining the healthy lives of our pre-agricultural Paleolithic ancestors and the marked decline in stature, bone density, and dental health and the increase in birth defects, malnutrition, and disease following the implementation of the agricultural lifestyle, Nora Gedgudas shows how our modern grain- and carbohydrate-heavy low-fat diets are a far cry from the high-fat, moderate-protein hunter-gatherer diets we are genetically programmed for, leading not only to lifelong weight gain but also to cravings, mood disorders, cognitive problems, and "diseases of civilization"--such as cancer, osteoporosis, metabolic syndrome (insulin resistance), heart disease, and mental illness. Applying modern discoveries to the basic hunter-gatherer diet, she culls from vast research in evolutionary physiology, biochemistry, metabolism, nutrition, and chronic and degenerative disease to unveil a holistic lifestyle for true mind-body health and longevity. Revealing the primal origins and physiological basis for a high-fat, moderate-protein, starch-free diet and the importance of adequate omega-3 intake--critical to our brain and nervous system but sorely lacking in most people's diets--she explains the nutritional problems of grains, gluten, soy, dairy, and starchy vegetables; which natural fats promote health and which (such as canola oil) harm it; the crucial role of vitamin D in cancer and disease prevention; the importance of saturated fat and cholesterol; and how diet affects mental health, memory, cognitive function, hormonal balance, and cellular aging. With step-by-step guidelines, recipes, and meal recommendations, this book offers sustainable strategies for a primally based, yet modern approach to diet and exercise to reduce stress and anxiety, lose weight, improve sleep and mood, increase energy and immunity, enhance brain function, save money on groceries, and live longer and happier.

A schoolteacher still reeling from the tragedies of the Great War and the influenza epidemic travels to the Middle East in this memorable and passionate novel "Marvelous . . . a stirring story of personal awakening set against the background of a crucial moment in modern history."—The Washington Post Agnes Shanklin, a forty-year-old schoolteacher from Ohio, has come into a modest inheritance that allows her to take the trip of a lifetime to Egypt and the Holy Land. Arriving at the Semiramis Hotel just as the 1921 Cairo Peace Conference convenes, she is freed for the first time from her mother's withering influence and finds herself being wooed by a handsome, mysterious German. At the same time, Agnes—with her plainspoken American opinions—is drawn into the company of Winston Churchill, T. E. Lawrence, and Lady Gertrude Bell, who will, in the space of a few days, redraw the world map to create the modern Middle East. As they change history, Agnes too will find her own life transformed forever. With prose as graceful and effortless as a seductive float down the Nile, Mary Doria Russell illuminates the long, rich history of the Middle East with a story that brilliantly elucidates today's headlines.

The glamorous world of a silent film star's wife abruptly crumbles when she's forcibly quarantined at the Carville Lepers Home in this page-turning story of courage, resilience, and reinvention set in 1920s Louisiana and Los Angeles. Based on little-known history, this timely book will strike a chord with readers of Fiona Davis, Tracey Lange, and Marie Benedict. Based on the true story of America's only leper colony, *The Second Life of Mirielle West* brings vividly to life the Louisiana institution known as Carville, where thousands of people were stripped of their civil rights, branded as lepers, and forcibly quarantined throughout the entire 20th century. For Mirielle West, a 1920's socialite married to a silent film star, the isolation and powerlessness of the Louisiana Leper Home is an unimaginable fall from her intoxicatingly chic life of bootlegged champagne and the star-studded parties of Hollywood's Golden Age. When a doctor notices a pale patch of skin on her hand, she's immediately branded a leper and carted hundreds of miles from home to Carville, taking a new name to spare her family and famous husband the shame that accompanies the disease. At first she hopes her exile will be brief, but those sent to Carville are more prisoners than patients and their disease has no cure. Instead she must find community and purpose within its walls, struggling to redefine her self-worth while fighting an unchosen fate. As a registered nurse, Amanda Skenandore's medical background adds layers of detail and authenticity to the experiences of patients and medical professionals at Carville - the isolation, stigma, experimental treatments, and disparate community. A tale of repulsion, resilience, and the Roaring '20s, *The Second Life of Mirielle West* is also the story of a health crisis in America's past, made all the more poignant by the author's experiences during another, all-too-recent crisis. **PRAISE FOR AMANDA SKENANDORE'S BETWEEN EARTH AND SKY** "Intensely emotional...Skenandore's deeply introspective and moving novel will appeal to readers of American history." —Publishers Weekly

Beards and Texts explores the literary portrayal of beards in medieval German texts from the mid-twelfth to the early sixteenth centuries. It argues that as the pre-eminent symbol for masculinity the beard played a distinctive role throughout the Middle Ages in literary discussions of such major themes as majesty and humanity. At the same time beards served as an important point of reference in didactic poetry concerned with wisdom, teaching and learning, and in comedic texts that were designed to make their audiences laugh, not least by submitting various figure-types to the indignity of having their beards manhandled. Four main chapters each offer a reading of a work or poetic tradition of particular significance (Pfaffe Konrad's *Rolandslied*; Wolfram von Eschenbach's *Willehalm*; 'Sangspruchdichtung'; Heinrich Wittenwiler's *Ring*), before examining cognate material of various kinds, including sources or later versions of the same story, manuscript variants and miniatures and further relevant beard-motifs from the same period. The book concludes by reviewing the portrayal of Jesus in vernacular German literature, which represents a special test-case in the literary history of beards. As the first study of its kind in medieval German studies, this investigation submits beard-motifs to sustained and detailed analysis in order to shed light both on medieval poetic techniques and the normative construction of masculinity in a wide range of literary genres.

Facing a life of poverty, neglect, abandonment and even homelessness, young Jamaican boys are placed in a disciplinarian Catholic boarding school. With a rigorous musical training program overseen by an eccentric jazz-loving nun, the young virtuoso graduates of Alpha Boys' School went on to change the shape of music forever. It's the 1950s in Jamaica and a musical revolution is brewing. People all over Kingston dance nightly to vast outdoor sound systems blasting American rhythm and blues records across the shanty towns. In the hotels and theaters big bands are playing jazz and calypso. Street musicians are playing home-grown folk music called mento. Out of this musical stew, Jamaica will soon birth a dance music all of its own, a sound that will conquer the globe. Starting with ska in the early 1960s, followed by rocksteady, eventually arriving at reggae in 1969, a group of virtuoso graduates of a Roman Catholic boarding school spearhead a musical and cultural revolution that still reverberates around the world over half a century later. The Sisters of Mercy nuns at Alpha provided a home alongside industrial trades apprenticeships and religious indoctrination. One in particular, Sister Mary Ignatius, dedicated 64 years of her life to running the school's music program. Her deep appreciation of jazz and her sense of fun endeared her to the boys in the band, inspiring them to attain greatness. From early Jamaican jazz giants like Joe Harriott and Dizzy Reece to the greatest ska band of all time, The Skatalites, and some of reggae's most inspirational artists such as Cedric Brooks, Johnny Osbourne, Leroy Smart and Yellowman, the Alpha story is the untold history of Jamaican music. Join Heather Augustyn and Adam Reeves as they delve into the history of this remarkable institution and reveal the life and works of 47 of the greatest Alpha boys. The culmination of many combined years of work, using musicians' personal recollections and a wealth of rarely seen photographs, *Alpha Boys' School: Cradle of Jamaican Music* will take you to the heart of the Jamaica music story. Whether you are a lover of original ska and rocksteady, roots, dub, dancehall and beyond, these stories will take you deeper into the music. If you enjoyed *Solid Foundation: An Oral History of Reggae* by David Katz, *Bass Culture* by Lloyd Bradley or *So Much Things To Say: The Oral History of Bob Marley* by Roger Steffens, then this is definitely for you.

“A book that is at once riveting and relevant as it unpeels the various meanings of motherhood, family, and loyalty. I tore through it.”—Miranda Cowley Heller, author of *The Paper Palace* The bonds between three picture-perfect—but viciously protective—mothers and their close-knit sons are tested during one unforgettable summer in a gripping novel from the New York Times bestselling author of *The Jetsetters*. Austin’s Zilker Park neighborhood is a wonderland of greenbelt trails, live music, and moms who drink a few too many margaritas. Whitney, Annette, and Liza have grown thick as thieves as they have raised their children together for fifteen years, believing that they can shelter them their children from an increasingly dangerous world. Their friendship is unbreakable—as safe as the neighborhood where they’ve raised their sweet little boys. Or so they think. One night, the three women have been enjoying happy hour when their boys, lifeguards for the summer, come back on bicycles from a late-night dip in their favorite swimming hole. The boys share a secret—news that will shatter the perfect world their mothers have so painstakingly created. Combining three mothers’ points of view in a powerful narrative tale with commentary from entertaining neighborhood listservs, secret text messages, and police reports, *The Lifeguards* is both a story about the secrets we tell to protect the ones we love and a riveting novel of suspense filled with half-truths and betrayals, fierce love and complicated friendships, and the loss of innocence on one hot summer night.
