Essential Oils for Pets Discover The Top 9 Amazing Essential Oils That Have Naturally Healing Properties For Pets! Storey Publishing

Here is the missing link in Essential Oil literature, the first modern work written by the man who coined the word 'Aromatherapy.' In July 1910 René- Maurice Gattefossé discovered the healing properties of lavender oil after severely burning his hands in a laboratory explosion. This led him into a lifetime of research into Essential Oils. His remarkable book was first published in 1937 and has been out of print for many years. Now translated, it has been edited by Robert Tisserand, author of three books on

aromatherapy (including the best-seller, *The Art of Aromatherapy*), editorial adviser of the *Journal of Alternative and Complementary Medicine* and editor of *The International Journal of Aromatherapy*. The book is a fascinating blend of ancient and modern knowledge and aromatherapists will find it an essential tool of reference. Extensive notes are provided by Robert Tisserand at the back of the book. Chapters include those on human smells and animal smells, toxicity, the properties of essential oils and their constituents, the treatment of many diseases, and over fifty case studies from doctors.

This is the SOFTCOVER version of the original Animal Desk Reference book. The "ADR" is written by Holistic Veterinarian Melissa Shelton - describing the many ways that Essential Oils are used for animals - especially pertaining to the French Model of Aromatherapy. Young Living Essential Oils and products are specifically described in this reference - making it very similar to the Essential Oils Desk Reference book for humans. Information for the use of essential oils is included for every species of animal - from fish and cats, to dogs, horses, and elephants. General techniques and methods are thoroughly described in this easy to read book. Discussions on safety and monitoring of animals during the use of essential oils are also covered.

Aromatherapy for Pets Fox Chapel Publishing

The second edition of the original Animal Desk Reference (ADR) written by Holistic Veterinarian Melissa Shelton: This text of 585 pages, is the most accurate reference available regarding the safe use of essential oils with animals - or Veterinary Aromatic Medicine. This text is non-brand specific, and discusses all aspects of safety, science, and veterinary medicine. Melissa Shelton DVM is regarded as the leading expert in the use of essential oils with all animals - insects to elephants. Every animal species is included within this easy to read text; along with details on sourcing, evaluation, chemistry, carrier oils, and descriptions of each single essential oil. Recipes and suggestions for common conditions affecting all species is included, along with safety and monitoring information, as well as the current knowledge regarding feline metabolism, toxicity, and safety with essential oils.

This might seem like a strange topic to you. Essential oils for pets, it's not something that you hear about every day. You might know of essential oils that have been used on humans, and you yourself might even reap in the benefits of these essential oils. But the truth is, you can actually use these essential oils on pets as well. They have a wide variety of therapeutic effects on pets, and it's something that is important for some pets if you want a natural means to help any animal that is having issues. For some owners, living a natural lifestyle can be great for themselves, and they want their fur babies to have the same benefits. That's totally fine, and you can do that. This book will actually cover the best essential oils for bets out there.

You'll see essential oils in cosmetics, moisturizers, shampoos, and soaps. They can be found as part of air freshening systems and detergents as well. You'll even see them added to foods, or occasional sold in your regular grocery store as nutritional supplements. Use of essential oils, either aromatically, dermally,

or internally, can be a highly effective, all natural way to achieve and maintain health; the same is true for your pets.

375 Essential Oils and Hydrosols Simon and Schuster

- The first book devoted exclusively to aromatic hydrosols--gentle, water-based plant extracts that expand the healing, cosmetic, and culinary applications of aromatherapy.
- The newest development in the field of aromatherapy.
- The homeopathic form of aromatic treatment that is the perfect complement to other forms of vibrational medicine.
- A comprehensive reference with more than 100 recipes and formulas for using hydrosols as well as sources of supply.
- With an introduction by Kurt Schnaubelt, author of *Advanced Aromatherapy and Medical Aromatherapy*. Hydrosols is one of the most anticipated books in the world of holistic health because it introduces a revolutionary new use of essential oils in aromatic treatment. Hydrosols, or hydrolates, are the pure, water-based solutions created when essential oils are steam distilled. Through this process, a potent, yet subtle form of medicine is created, one that is able to be ingested as well as applied directly to the skin, unlike most pure essential oils. In fact, hydrosols are considered the homeopathic version of aromatherapy, and as such are ideal for use with children, animals, and those with fragile immune systems. Suzanne Catty details the specifics of 67 hydrosols, provides formulas to treat more than 50 health concerns, and offers 40 delicious recipes in which hydrosols can be used. Her section on pets will help owners deal with urinary tract and digestive problems as well as grooming and odor issues. She also shows how hydrosols can be used with other forms of vibrational medicine and with feng shui, geomancy, and dowsing.

You're About To Discover How To Use Essential Oils And Natural Remedies For Pets, For Dogs Since you are reading this, you love your pet and because you know the benefits of essential oils, you want your pet to enjoy the benefits of essential oils just as you do. Essential oils are important to us for many reasons; they are also important to pets. For pets, most of these reasons are no different. Whether you want to improve your dog's digestive function, skin, respiration, immune support for seasonal and

environmental health or even for purposes of repelling insects, with the essential oils we are going to talk about today, you can do that safely and naturally. More specifically, we will discuss the right types of essential oils, the proper application process, and something about the essential oils issues that have made it difficult for cautious folks to use these oils on their pets. First, there are different forms of essential oils available today and animals metabolize and react differently to each of them. This alone has become a major concern. It is thus important that we all understand things such as the species-specific differences before using the essential oils. In addition, many vets often observe a big problem in their clinics: issues related to overusing of essential oils-people discover essential oils and wildly start diffusing them into their homes and end up creating unintentional overdoses for their pets-we shall discuss and clarify this issue. The purpose of this book is to help you avert such issues and help you know how best to use natural essential oils to increase the appetite, reduce fatigue, boost the immune system, remove anxiety, and manage many other problems that hinder your pet's

wellbeing. Here Is Just A Small Preview Of What You'll Learn...
