The Man Who  
Loved  
Seagulls St.  
Martin's Griffin  
One of the  
most  
important life  
events is  
falling in love,  
yet we never  
learn about it  
in school.  
Societies and

religions force  
us into models  
and thought-  
forms that are  
often in  
opposition to  
an organic  
model of love,  
which is  
instead  
institutionalise  
d by marriage,  
religious  
affiliations,  
and  
nationalism.  
This results in  
love that is,

for most  
people, a  
painful  
challenge in  
one form or  
another  
throughout  
life. In these  
modern days,  
where the  
focus shifts  
more and  
more to  
realising one's  
individual  
potential,  
Osho helps us  
to direct our

search for love by widening our view - showing us that love has many manifestations and is not limited to the 'other'. One manifestation of love is meditation, a life-changing experience that allows the flowering of real love within oneself and toward others. The Osho Life Essentials series focuses on the most important questions in the life of the individual. Each volume contains timeless yet

contemporary investigations and discussions into questions vital to our personal search for meaning and purpose. The Osho Life Essentials series focuses on questions specific to our inner life and quality of existence; for example, is it possible to have an authentic spirituality without a belief in God? What is meditation and how does it work? What can I do as an individual to make the

world a better place?  
**Destiny, Freedom, and the Soul**  
 Osho  
 International Krishna is utterly incomparable, he is so unique. Firstly, his uniqueness lies in the fact that although Krishna happened in the ancient past he belongs to the future, is really of the future. Man has yet to grow to that height where he can be a contemporary of Krishna's. He is still beyond man's

understanding ; he continues to puzzle and battle us. Only in some future time will we be able to understand him and appreciate his virtues. And there are good reasons for it.

### **Die O Yogi**

**Die** Macmillan

One of the greatest spiritual teachers of the twentieth century encourages you to embrace your childlike curiosity and reconnect it to your adult sensibilities. Innocence, Knowledge, and Wonder:

What Happened to the Sense of Wonder I Felt as a Child? looks to each person's last state of innocence—childhood—to recover the ability to truly be curious.

Osho discusses why it is important to look to our "inner child" and how it can help you understand the person you have become. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices

that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in

virtually every country of the world.

**Life, Love, Laughter**

Macmillan Children have a natural authenticity and freedom, a joyfulness and a playfulness and a natural creativity. This book calls for a "children's liberation movement" to break through the patterns and create the opportunity for an entirely new way of relating as human beings.

For over thirty years,  
Opening the

Hand of Thought has offered an introduction to Zen Buddhism and meditation unmatched in clarity and power. This is the revised edition of Kosho Uchiyama's singularly incisive classic. This new edition contains even more useful material: new prefaces, an index, and extended endnotes, in addition to a revised glossary. As Jisho Warner writes in her preface, Opening the

Hand of Thought "goes directly to the heart of Zen practice... showing how Zen Buddhism can be a deep and life-sustaining activity." She goes on to say, "Uchiyama looks at what a person is, what a self is, how to develop a true self not separate from all things, one that can settle in peace in the midst of life." By turns humorous, philosophical, and personal, Opening the Hand of Thought is

above all a great book for the Buddhist practitioner. It's a perfect follow-up for the reader who has read Zen Meditation in Plain English and is especially useful for those who have not yet encountered a Zen teacher. Autobiography of a Spiritually Incorrect Mystic Fivestar One of the greatest spiritual teachers of the twentieth century shares the inspirational insights of

timeless philosophies in *The Man Who Loved Seagulls: Essential Life Lessons from the World's Greatest Wisdom Traditions*. In *The Man Who Loved Seagulls*, Osho discusses essential stories and parables from the world's great wisdom traditions of Zen, Taoism, Christianity, and Judaism. Osho—himself a master storyteller—interprets the stories in this collection and applies them to the

concerns of modern day life. The valuable lessons they impart are both timely and universal. The stories encourage meditation as they are meant to be told and studied again and again, in order to discover new layers of meaning with each reading. Ideas and topics include:  
 \* The futility of chasing happiness \* The journey from fear to freedom \* The Zen approach to death and dying \* The

extraordinary intelligence of innocence \*  
 And much more Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and

Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world. Krishna: The Man and His Philosophy Fivestar In "Belief, Doubt, and Fanaticism", Osho brings his unique and often surprising perspective to the religious, political, social and economic forces that

drive people into opposing camps, fanatical groups, and belief systems that depend on seeing every "other" as the "enemy." As always, the focus is first and foremost on the individual psyche and consciousness, to identify the root causes and hidden demons of our human need to belong and have something to "believe in." The Last Morning Star St. Martin's Griffin

The buddha is already breathing in you. Just a little recognition, just a little turning inwards... and that has not to be done forcibly. If you do it forcibly you will miss the point. It is very delicate. You have to look inward playfully, not seriously. That's what he means by "taking things easily." Don't take anything seriously. Existence is very easy. You have got your life without any effort, you are living your

life without any effort. You are breathing perfectly well without being reminded; your heartbeat continues even in your sleep -- so easy is existence with you! But you are not so easy with existence. You are very close-fisted. You want everything to be turned into an achievement. **The Buddha: The Emptiness of the Heart** St. Martin's Griffin In Life, Love, Laughter: Celebrating

Your Existence, one of the twentieth century's greatest spiritual teachers shares how humor and wisdom strengthens our lives. In this collection of reflections, Osho's encouraging and loving stories go far beyond the usual chicken-soup fare. Life, Love, Laughter establishes a new genre of introspective text stripped of all platitudes and clichés, and absolutely in

tune with the realities of the twenty-first century. In this artful work, Osho mixes entertainment and inspiration, ancient Zen stories and contemporary jokes to help us to find love, laughter, and ultimately, happiness. Featuring an original talk by Osho on DVD, you'll experience his direct insight and wit straight from the source. Osho challenges readers to examine and break free of

the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to

expand, reaching seekers of all ages in virtually every country of the world.

**The Golden Future** Simon and Schuster Discourses of the author based on the poems of Daya, a women mystic poet from India. Power, Politics, and Change Macmillan Land of Two Rivers chronicles the story of one of the most fascinating and influential regions in the Indian subcontinent.

The confluence of two major river systems, Ganga and Brahmaputra, created the delta of Bengal--an ancient land known as a center of trade, learning and the arts from the days of the Mahabharata and through the ancient dynasties. During the medieval era, this eventful journey saw the rise of Muslim dynasties which brought into being a unique culture, quite distinct from

that of northern India. The colonial conquest in the eighteenth century opened the modern chapter of Bengal's history and transformed the social and economic structure of the region. Nitish Sengupta traces the formation of Bengali identity through the Bengal Renaissance, the growth of nationalist politics and the complex web of events that eventually led

to the partition of the region in 1947, analyzing why, despite centuries of shared history and culture, the Bengalis finally divided along communal lines. The struggle of East Pakistan to free itself from West Pakistan's dominance is vividly described, documenting the economic exploitation and cultural oppression of the Bengali people. Ultimately, under the leadership of

Bangabandhu Mujibur Rahman, East Pakistan became the independent nation of Bangladesh in 1971. Land of Two Rivers is a scholarly yet extremely accessible account of the development of Bengal, sketching the eventful and turbulent history of this ancient civilization, rich in scope as well as in influence. Mindfulness in the Modern World St. Martin's Press "Death cannot be denied by repeating that

death does not exist. Death will have to be known, it will have to be encountered, it will have to be lived. You will have to become acquainted with it." —Osho Why are we afraid of death? How do I relax in the certainty of death? Is the theory of reincarnation true? How can I celebrate death as you suggest? With depth, clarity, compassion, and even humor, Osho answers these questions and many others,

shedding new light on this most sacred of mysteries and providing practical guidance for meditation and support. In The Art of Living and Dying, Osho not only reveals that our fear of death is based on a misunderstanding of its nature, but that dying is a tremendous opportunity for inner growth. Death is not an event but a process—and one that begins with birth. Each exhalation is a

small death; each inhalation, a rebirth. When life is lived consciously and totally, death is not a catastrophe but a joyous climax. Moral, Immoral, Amoral St. Martin's Griffin Danger: Truth at Workgoes to the heart of our most fundamental human issues. Why can't we just live happily and be content? While we seem to have all the knowledge we need to solve our problems, we haven't. In

this timely book, Osho explains that religious conditioning has held us back. Each chapter covers a different aspect of this conditioning, and, in gentle but persuasive language, shows readers how to transcend it. Individual chapters cover such subjects as The Nuclear Family: The Imminent Meltdown; Pseudo-Religion: The Stick-on Soul; They Say Believe, I Say Explore; and

Ecstasy Is Now: Why Wait? and others. The enclosed DVD gives a firsthand experience of the process of spiritual renewal, which Osho calls a "dry cleaning of the mind." While Osho passed away in 1990, he left a rich legacy of video recordings that form the basis of this important book and video. **The Divine Melody** Simon and Schuster In Living on

Your Own Terms: What Is Real Rebellion?, one of the twentieth century's greatest spiritual teachers reveals how you can resist the rules and regulations that oppose your values while retaining your own individuality. "People can be happy only in one way, and that is if they are authentically themselves. Then the springs of happiness start flowing; they become more alive,

they become a joy to see, a joy to be with; they are a song, they are a dance."—Osho  
Decades after the rebellions of the 1960s, new generations are again challenging and rebelling against outdated structures and values, focusing on political and economic systems and their failings. But this generation has the opportunity and responsibility to move the development

of human freedom to the next level. Osho's philosophies will support these future generations in expanding their understanding of freedom and pushing toward new systems for humanity. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday

Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

Authentic Living  
The fish in the

sea is not thirsty -- but man is. Man lives in God, and is absolutely unaware of it. Man is born in God, breathes in God, and one day will dissolve in God. MAN IS GOD, made of the stuff called God, and yet completely oblivious of the fact. The fish is not thirsty in the sea, but man is. God is the sea -- God surrounds you, within and without. All that is is divine. God is not a person: God is the

presence that is overflowing everywhere in all directions. The radiance, the beauty of existence, the splendour, the majestic, the miraculous, the mysterious -- the whole magic of life is God. God has not to be worshipped: God has to be lived. And to live God you need not go anywhere -- you are already in him. To live God you need not cultivate any character. God is already the case. He is your consciousness

 Entering into the Unknown  
 This question and answer book tells a true story of great trust, love, and humor between Osho and those who have gathered around him again after a long separation. Fresh from their adventures and experiences as seekers alone in the marketplace, this book is full of genuine, pertinent questions and enlightened responses from Osho that will inspire each one of us to live our full potential and risk walking on the razor's edge of life. "You have taken the first step towards reality, now never look backwards, however dangerous it seems - because as questions and answers and I and you start disappearing, you will find yourself entering into a more and more unknown space. This I call 'the razor's edge'." — Osho  
The Power of Love St.  
 Martin's Griffin  
 One of the twentieth century's greatest spiritual teachers inspires us to experience and appreciate both the elation—and sadness—of Joy: The Happiness That Comes from Within. With an artful mix of compassion and humor, Osho shows us that joy is the essence of life, that even

unhappiness has its root in joy. He encourages us to accept joy by being grateful to be alive and for the challenges and opportunities in life, and by finding the good in all that we have—rather than setting conditions or demands for happiness. By embracing joy, one comes closer to a true, peaceful, and balanced state. Osho challenges readers to examine and break free of the

conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand,

reaching seekers of all ages in virtually every country of the world. *Belief, Doubt, and Fanaticism* St. Martin's Griffin One of the twentieth century's greatest spiritual teachers reveals how to find true north on your moral compass even while living in a divisive world. “I don't say cultivate morality; I say become more conscious, and you will be moral. But that morality will have a totally

different flavor to it. It will be spontaneous; it will not be ready-made.”—Osho  
 In a global world, we are in search of universal values—values based on a contemporary understanding that unifies us as human beings beyond the divisions of religions, nations, and race. In *Moral, Immoral, Amoral: What Is Right and What Is Wrong?*, Osho speaks directly to this contemporary search as he introduces us to a quest for

values that make sense in the world we live in—a quest that goes far beyond moral codes of behavior and comes from an inner connectivity and oneness with existence. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of

London as one of the “1000 Makers of the 20th Century” and by *Sunday Mid-Day (India)* as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Living on Your Own Terms St. Martin's Press Silence usually is understood to be something negative, something empty, an absence of sound, of noises. This

misunderstanding is prevalent because very few people have ever experienced silence. All that they have experienced in the name of silence is noiselessness. But silence is a totally different phenomenon. It is utterly positive. It is existential, it is not empty. It is overflowing with a music that you have never heard before, with a fragrance that is unfamiliar to you, with a light that can only be seen

by the inner eyes. It is not something fictitious; it is a reality, and a reality which is already present in	everyone -- just we never look in. All our senses are extrovert. Our eyes open outside, our ears open	outside, our hands move outside, our legs... all our senses are meant to explore the outside world.
