This edition of the World
Bank has been revised
and expanded by the
Terminology Unit in the
Languages Services
Division of the World Bank
in collaboration with the
English, Spanish, and

French Translation
Sections. The Glossary is
intended to assist the
Bank's translators and
interpreters, other Bank
staff using French and
Spanish in their work, and
free-lance translator's and
interpreters employed by
the Bank. For this reason,
the Glossary contains not
only financial and
economic terminology
and terms relating to the
Bank's procedures and

practices, but also terms
that frequently occur in
Bank documents, and
others for which the Bank
has a preferred
equivalent. Although
many of these terms,
relating to such fields as
agriculture, education,
energy, housing, law,
technology, and
transportation, could be
found in other sources,
they have been
assembled here for ease

of reference. A list of acronyms occurring frequently in Bank texts (the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.
