Where else can that well-known phrase be better applied than to a study of the Finns in Sudbury? "Rock" defines the physical reality of the Sudbury setting: rugged hills, mines, farms and forests set in the Precambrian Shield. "Hard" defines the human setting: Finnish immigrants having to contend with the problems and stresses of relocating to a new culture, with livelihoods that required great endurance as well as a tolerance for hazardous conditions. Since 1883 Finnish immigrants in Sudbury, men and women alike, have striven to improve their lot through the options available to them.

Despite great obstacles, the Finns never flagged in their unwavering fight for workers' rights and the union movement. And as agricultural settlers, labour reformers, builders of churches, halls, saunas and athletic fields, Finns left an indelible imprint on the physical and human landscape. In the process they have played an integral part in the transformation of Sudbury from a small struggling rail town to its present role as regional capital of northwestern Ontario. This penetrating study of the cultural geography of the Finns in the Sudbury region provides an international, national and local framework for analysis — a model for future studies of other cultural groups.

In their startling new book, Steven and Evan Strong challenge the "out-of-Africa" theory. Based on fresh examination of both the DNA and archeological evidence, they conclude that modern humans originated from Australia, not Africa. The original Australians (referred to by some as Aborigines), like so many indigenous peoples, are portrayed as "backward" and "primitive." Yet, as the Strongs demonstrate, original Australians had a rich culture, which may have sown the first seeds of spirituality in the world. They had the technology to make international seafaring voyages and have left traces in the Americas and possibly Japan, Southern India, Egypt, and elsewhere. They practiced brain surgery, invented the first hand tools, and had knowledge of penicillin. This book brings together 30 years of intensive research in consultation with elders in the original Australian community. Among their conclusions are the following: There is evidence that humans existed in Australia 40,000 years before they existed in Australia. There were migrations of original Australians in large boats throughout the Indian/Pacific rim. Three distinct kinds of Homo sapiens are found in Australia. There is evidence from the Americas that debunks the out-of-Africa theory. The spiritual influence of the Aborigines is reflected in

the religions of the world.

Pastoral supervision is undergoing a radical shift from the supervision of pastoral work to fostering the wellbeing of practitioners and systems alike.

This book charts twenty years of developing thought, writing and practice and re-vision supervision as the intentional dialogue between Soul, Role and Context. Originally delivered in conferences, workshop and training events across the English speaking world, the material offered here expresses constructive impatience with the narrowness of earlier work - the writer's included - and urges a radical rethink of supervision that can truly be called pastoral and visionary.

* Mark Twight's collected works, some never before published in North America * Includes dramatic black and white mountaineering photos * Features brand new epilogues to all of the stories They call him Dr. Doom. Raving and kicking against mediocrity, his anger and pain simmer close to the surface. He speaks and writes the language of the punk music that defined him. He is extreme alpinist Mark Twight, and he doesn't back down from the truth. He's a one-man literary punk band. If you have any doubt, here comes his knockout punch: the only collection of writing Twight swears he'll ever publish. Kiss or Kill: Confessions of a Serial Climber is raw, unfiltered Twight. These author's cut are the real deal, not the homogenized fluff offered up by magazine editors who are often unwilling to offend. Twight's words make it clear that climbing is only distantly about the summit. Several of these pieces are new to U.S. readers. Twight edited all of the selections and appended each with a current author's note; confessing his inspiration, events that followed, and lessons learned (or not learned, some might say). It adds up to a frightfully lucid look into Twight's personal life as both man and hardcore alpine climber. The dissection scares me sometimes... Whether railing against the spinelessness of American siege-style mountaineering, admitting addiction to pushing the bounds of the possible, or reveling in his ability to cut away anything in life that holds him back, Twight never blinks. Along the way, there is the drama of new and epic routes, unbreakable bonds between climbing partners, and Twight's evolution as a climber and a man. He tells every story in a unique, in-your-face style. Kiss or Kill is not an easy read. It may scare some readers-but that's the point. "I want this book to help you recognize your own anger, which will help you understand mine", says Twight. "Somewhere out there somebody understands these words and knows they matter. They were written in blood, learned by heart."

This book is based on papers presented at the conference. However, it is not a typical publication of academic conference proceedings because the topics are not completely congruent with those of the conference. Some lectures that could not be held due to travel restrictions related to the coronavirus pandemic were submitted as book contributions. In addition, I also wrote a short contribution on the Jewish history of the region, which

has been often neglected in previous presentations of the region. The various authors for this volume have been intensively involved with the region in recent years. However, the authors do not only focus on the situation on the ground, but also on the international context of the autonomous administration. The conflict in Syria is no longer just a civil war, but a transnational conflict with important roles played not only by actors such as Russia or the USA, but also Turkey or Iran. Given the transnationality of the conflict and the role of the hegemonic powers, these authors share thoughtful analyses from very different perspectives. It is important to share these diverse views with the world so that the tragic conflict might become more comprehensible. This does not mean, however, that I necessarily advocate each particular position taken by the varied contributors to this book. The intent is to offer you multiple perspectives and certainly not a common narrative.

"The gripping articles collected in Classic Krakauer--originally published in magazines such as The New Yorker, Outside, and Smithsonian--show why he is considered a standard-bearer of modern journalism. Spanning an extraordinary range of subjects and locations, these pieces take us from a horrifying avalanche on Mount Everest to a volcano poised to obliterate a big chunk of Seattle; from a wilderness teen-therapy program run by apparent sadists to an otherworldly cave in New Mexico, studied by NASA to better understand Mars; from the notebook of one Fred Beckey, who catalogued the greatest unclimbed mountaineering routes on the planet, to the last days of legendary surfer Mark Foo. Rigorously researched and vividly written, marked by an unerring instinct for storytelling and scoop, these pieces are unified by the author's ambivalent love affair with unruly landscapes and his relentless search for truth"--

"Powerful and haunting . . . an intimate and unforgettable tale that transports the reader to the heart of Imperial Russia." —Chanel Cleeton, New York Times bestselling author of *The Most Beautiful Girl in Cuba* This sweeping novel takes readers behind palace walls to see the end of Imperial Russia through the eyes of Olga Nikolaevna Romanov, the first daughter of the last tsar Grand Duchess Olga Romanov comes of age amid a shifting tide for the great dynasties of Europe. But even as unrest simmers in the capital, Olga is content to live within the confines of the sheltered life her parents have built for her and her three sisters: hiding from the world on account of their mother's ill health, their brother Alexei's secret affliction, and rising controversy over Father Grigori Rasputin, the priest on whom the tsarina has come to rely. Olga's only escape from the seclusion of Alexander Palace comes from the grand tea parties her aunt hosts amid the shadow court of Saint Petersburg—a world of opulent ballrooms, scandalous flirtation, and whispered conversation. But as war approaches, the palaces of Russia are transformed. Olga and her sisters trade their gowns for nursing habits, assisting in surgeries and tending to the wounded bodies and minds of Russia's military officers. As troubling rumors about her parents trickle in from the front, Olga dares to hope that a budding romance might survive whatever the future may hold. But when tensions run high and supplies run low, the controversy over Rasputin grows into fiery protest, and calls for revolution threaten to end three hundred years of Romanov rule. At turns glittering and harrowing, *The Last Grand Duchess* is a story about dynasty, duty, and love, but above all, it's the story of a family who would choose devotion to each other over everything—including their lives.

Andrew Mueller is Australian by birth, a Londoner by choice, a wanderer by nature, and a journalist by profession. Unable to decide between being a rock critic, travel writer, or foreign correspondent, he hit upon the novel, if time-consuming, solution of trying to be all three at once. In *Rock and Hard Places*, published originally in the U.K. in 1999, now re-envisioned and updated and available for the first time in the United States, he travels to Lebanon with the Prodigy, comes to America with Radiohead, and goes all over the place with U2. He ventures to Bosnia Herzegovina with an aid convoy in the middle of the war, sees Def Leppard play in a cave in Morocco, and attempts to ask the Taliban not only what they think they're up to, but who they fancy for the World Cup. He flings himself head first down the Cresta Run, sits in Stalin's armchair, chases ambulances through Moscow, chases some kind of lost tribe in India, wakes up at least once in a park in Reykjavik, and strongly advises avoiding the seafood salad in Sapporo Airport. He's funny. Occasionally he makes a point.
