This is the  
eBook of the  
printed book

and may not  
include any  
media,  
website  
access codes,  
or print  
supplements  
that may  
come

packaged with  
the bound  
book. This  
book covers  
introductory  
Word, Excel,  
Access, and  
PowerPoint,  
with an

additional Windows 8 chapter. Move students beyond the point-and-click. The goal of the Exploring series is to move students beyond the point and click, to understanding the why and how behind each skill. And, because so much learning takes place outside of the classroom, this series provides learning tools that students can access anywhere, any time. Students

go to college now with a different set of skills than they did years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everyone needs to know. NOTE: This is just the spiral bound book with access card that includes the online. content that used to be on

the CD/DVD. ALERT: If the student wants access to MyITLab, they would need to order the package ISBN that includes the book and the MyITLab access card. There are many packages that include MyITLab so the student should request the ISBN from their Instructor before purchasing. Several versions of Pearson's MyLab & Mastering products exist for each title,

<p>and registrations are not transferable. To register for and use Pearson's MyLab &amp; Mastering products, you may also need a Course ID, which your instructor will provide. One of the packages 013381016X / 9780133810165 Exploring Microsoft Office 2013, Volume 1 &amp; MyITLab -- Access Card -- for Exploring Microsoft Office 2013 Package Package consists of 0133142671 /</p>	<p>9780133142679 Exploring Microsoft Office 2013, Volume 1 0133775143 / 9780133775143 MyITLab without Pearson eText -- Access Card -- for Exploring Microsoft Office 2013 (Replacement Card) <i>GO! with Microsoft Office 365, Word 2019 Comprehensive GO! with Microsoft Excel 2016 Comprehensive</i> This is the eBook of the printed book and may not include any media,</p>	<p>website access codes, or print supplements that may come packaged with the bound book. Teach the course YOU want in LESS TIME! In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the</p>
---	---	--

moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in

Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on

their own. New GO! Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO! your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. Also available with MyITLab

MyITLab ® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, to engage students and improve results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, so students learn more quickly and effectively, and build the critical skills

needed for college and career success. Digital badges allow students to showcase their Microsoft Office or Computer Concepts competencies, keeping them motivated and focused on their future careers. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct

package ISBN and Course ID. Instructors, contact your Pearson representative for more information. [Excel for Beginners](#) Pearson Higher Ed For introductory courses in Microsoft (R) Word (TM) . Seamless digital instruction, practice, and assessment For over 17 years, instructors have relied upon the GO! series to teach Microsoft Office successfully. The series

uses a project-based approach that clusters learning objectives around projects, rather than software features, so students can practice solving real business problems. Gaskin uses easy-to-follow Microsoft Procedural Syntax so students always know where to go on the ribbon; she combines this with a Teachable Moment approach that offers learners tips and instructions at the precise moment they're needed. Updated to Office 365, GO! with Microsoft(R) Office 365(R), Word 2019 Comprehensive adds tips for Mac users, revised instructional projects, and improved coverage of the what, why, and how of skills application. Also available with MyLab IT By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. MyLab IT 2019 delivers trusted content and resources through an expansive course materials library, including new easy-to-use Prebuilt Learning Modules that promote student success. Through an authentic learning experience, students become sharp critical thinkers and

<p>proficient in Microsoft Office, developing essential skills employers seek. Note: You are purchasing a standalone product; MyLab IT does not come packaged with this content. Students, if interested in purchasing this title with MyLab IT, ask your instructor to confirm the correct package ISBN and Course ID. Introduce the latest version of the fundamental SQL language used in all relational databases today with Casteel's ORACLE 12C: SQL, 3E. Much more than a study guide, this edition helps those who have only a basic knowledge of databases master the latest SQL and Oracle concepts and techniques. Learners gain a strong understanding of how to use Oracle 12c SQL most effectively as they prepare for the first exam in the Oracle Database Administrator or Oracle Developer Certification Exam paths. This edition initially focuses on creating database objects, including tables, constraints, indexes, sequences, and more. The author then explores data query techniques, such as row filtering, joins, single-row functions, aggregate functions, subqueries, and views, as well as advanced query topics. ORACLE 12C: SQL, 3E introduces the latest features and enhancements in 12c, from enhanced data types and invisible columns to new CROSS and OUTER APPLY methods for joins. To help readers transition to further studies, appendixes introduce SQL tuning, compare Oracle's SQL syntax with other

databases, and overview Oracle connection interface tools: SQL Developer and SQL Plus. Readers can trust ORACLE 12C: SQL, 3E to provide the knowledge for Oracle certification testing and the solid foundation for pursuing a career as a successful database administrator or developer. Important Notice: Media content referenced within the product description or the product

text may not be available in the ebook version. Oracle 12c: SQL Prentice Hall The primary goal of the GO! Series, aside from teaching computer applications, is ease of implementation, with an approach that is based on clearly defined projects for students and a one of a kind supplements package. Knowthis: Marketing Basics, Third Edition Pearson This book is the perfect

complement to the Excel or Access Comprehensive texts, particularly for instructors looking for more complex, real world cases for students to work through. Included are 15 total cases (6 Excel, 6 Access, and 3 integrated). Real world problem solving for business and beyond The Your Office series prepares students to use both technical and soft skills in the real world. Hands-on

technical content is woven into realistic business scenarios and focuses on using Microsoft Office® as a decision-making tool. The series features a unique running business scenario that connects all of the cases together and exposes students to using Office to solve problems relating to business areas like finance and accounting, production

and operations, sales and marketing. Each chapter introduces a realistic business case for students to complete via hands-on steps that are easily identified in blue shaded boxes. Each blue box teaches a skill and comes complete with video and interactive support. Chapters are grouped into Business Units, which collectively illustrate a specific set of business concepts to

achieve AACSB-related outcomes. Each Business Unit ends with a Capstone section, testing students' ability to apply concepts and skills beyond a single chapter. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct package ISBN and Course ID. Instructors,

contact your Pearson representative for more information.

**GO! with Microsoft Word 2016 Comprehensive**

Pearson For a first-year graduate-level course on nonlinear systems. It may also be used for self-study or reference by engineers and applied mathematicians. The text is written to build the level of mathematical sophistication from chapter to chapter. It has been reorganized

into four parts: Basic analysis, Analysis of feedback systems, Advanced analysis, and Nonlinear feedback control. *Skills for Success with Microsoft Office 2016* Pearson Higher Ed Current, comprehensive guidelines to ethical regulations for accounting professionals A handful of high-profile accounting misdeeds at Enron, WorldCom, Adelphia, and the like have

left the entire accounting profession scrambling to assert its validity and negotiate a flurry of new regulations. Ethics for CPAs provides a valuable road map to this new landscape, instructing accounting professionals on how to abide by the new pronouncements and, if necessary, how to professionally respond to an investigation. Employing an information-mapping format, Ethics

for CPAs separates information into small units based on purpose or function for the reader, rather than by topic, creating an accessible desk reference. This authoritative guide covers the most recent and extensively revised ethics requirements of the: \* AICPA's Code of Professional Conduct \* SEC \* Department of Labor \* GAO's Yellow Book \* State societies and state boards With a

companion Web site posting interpretations of new pronouncements within thirty days of issuance, Ethics for CPAs proves the most up-to-date and comprehensive resource on the market. *Your Office* Pearson It is widely agreed throughout the world that education and access to education are human rights. In order to accommodate the educational needs of people

globally, technology will be required that supports inclusion and promotes equity for both learning processes and governance in educational institutions. In order to achieve this, technological resources must be designed to be accessible and usable for all individuals by implementing user-centered design (UCD) and user experience design (UXD) processes. UXD and UCD Approaches

for Accessible Education is an academic research publication that explores thoughts and experiences on accessible and equitable education from perspectives on human-computer interaction, user research, and design thinking. It seeks to improve the understanding on how technology should be designed to truly contribute to and support accessibility and equity in education.

Featuring a wide range of topics such as online courses, inclusive education, and virtual reality, this publication is essential for academicians, curriculum designers, researchers, instructional designers, educational software developers, IT consultants, policymakers, administrators, and students. [GO! with Microsoft Excel 2016 Comprehensive](#) Pearson Start mastering the

tool that finance professionals depend upon every day. [FINANCIAL ANALYSIS WITH MICROSOFT EXCEL](#) covers all the topics you'll see in a corporate finance course: financial statements, budgets, the Market Security Line, pro forma statements, cost of capital, equities, and debt. Plus, it's easy-to-read and full of study tools that will help you succeed in class. [Nonlinear](#)

Pearson  
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. GO! with Office 2016 Getting Started is an Introductory text that offers a chapter on core Office 2016 features, and then one chapter for each of the four primary applications that

introduces students to the basic features of each. Using the scenario-based instructional projects students learn the basics and then apply them through mastery, problem-solving, and critical thinking projects. In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related

projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, these learning

objectives are presented in project-based scenarios that prompt students to prove mastery in the context of real-world application. NOTE: This is the standalone book(spiral bound), if you want the book/access card order the ISBN below; 0134582152 / 9780134582153 GO! with Microsoft Office 2016 Getting Started & MyITLab with Pearson eText -- Access Card -- for GO! 2016 with Technology In Action Package Package consists of: 0134444957 / 9780134444956 MyITLab with Pearson eText -- Access Card -- for GO! 2016 with Technology In Action 0134497066 / 9780134497068 GO! with Microsoft Office 2016 Getting Started ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN.
