Strands of Bronze and Gold Floris Books
 Tanus is the fair-haired young lion of a warrior whom the gods have decreed will lead Egypt's army in a bold attempt to reunite the Kingdom's shattered halves. But Tanus will have to defy the same gods to attain the reward they have forbidden him, an object more prized than battle's glory: possession of the Lady Lostris, a rare beauty with skin the color of oiled cedar--destined for the adoration of a nation, and the love of one extraordinary man. International bestselling author Wilbur Smith, creator of over two dozen highly acclaimed novels, draws readers into a magnificent, richly imagined Egyptian saga. Exploding with all the

drama, mystery, and rage of ancient Egypt, *River God* is a masterpiece from a storyteller at the height of his powers.

E. coli and the New Science of Life

Fires blaze in history's fantastic mirrors. A trickster monkey, divine bureaucrats, a pleasure-loving maid in an aristocratic household: all play their parts in the storytellers' games. Larsen's time-riddling, worlds-whirling magical show takes place in the palaces of the immortals also on the earth of medieval China (here, the Southern Soong of A.D. 1136), and spaces in-between A quite special pleasure. Kirkus Reviews Anyone with a fondness for satire, sentiment, and high style will prize *Bronze Mirror* and return to it, surprised each time by the levels of meaning that Larsen packs into her richly textured prose. Susan Schwartz, *Newsday*

Bronze Summer Simon and Schuster

To Catch a Killer Harper Collins

"Multilayered, compassionate, and thought-provoking." — Kirkus Reviews (starred review) Thirteen-year-old Sophie isn't happy about spending the summer of 1960 at her grandmother's old house in the bayou. Bored and lonely, she can't resist exploring the house's maze, or making an impulsive wish for a fantasy-book adventure with herself as the heroine. What she gets instead is a real adventure: a trip back in time to 1860 and the race-haunted world of her family's Louisiana sugar plantation. Here, President Lincoln's Emancipation Proclamation is still two years in the future and passage of the Thirteenth Amendment is almost four years away. And here, Sophie is mistaken, by her own ancestors, for a slave.

Mussolini's Cities Candlewick Press

A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential

writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

What Doc and Captain Hannah Smith don't mention is that the island is riddled with limestone caves, once home to a band of pirates, and stories of Spanish gold have lured outlaw treasure hunters to the area. When the trio finds precious artifacts, they agree to guard the secret until they've thoroughly explored the spot. Soon, outlaws search for the trio, hoping they will lead them to riches.

The Downstairs Girl Penguin

When she was a girl, Lisa See spent summers in the cool, dark recesses of her family's antiques store in Los Angeles' Chinatown. There, her grandmother and great-aunt told her intriguing, colourful stories about their family's past - stories of missionaries, concubines, tong wars, glamorous nightclubs, and the determined struggle to triumph over racist laws and discrimination. They spoke of how Lisa's great-great-grandfather emigrated from his Chinese village to the United States, and how his son followed him. As an adult, See spent five years collecting the details of her family's remarkable history. She interviewed nearly one hundred relatives and pored over documents at the National

Archives, the immigration office, and in countless attics, basements, and closets for the intimate nuances of her ancestors' lives. The result is a vivid, sweeping family portrait that is at once particular and universal, telling the story not only of one family, but of the Chinese people in America - and of America itself, a country that both welcomes and reviles its immigrants like no other culture in the world.

The Mirk and Midnight Hour St. Martin's Griffin

A brilliant retelling of an ancient myth, *The Songs of the Kings* offers up a different narrative of the Trojan War, one devoid of honor, wherein the mission to rescue

Helen is a pretext for plundering Troy of its treasures. As the ships of the Greek fleet find themselves stalled in the straits at Aulis, waiting vainly for the gods to deliver more favorable winds, Odysseus cynically advances a call for the sacrifice of Agamemnon's daughter, Calchas the diviner interprets events for the reader, and a Homer-like figure called the Singer is persuaded to proclaim a tale of a just war to hide the corrupt motivations of those in power. But couched within the Singer's spin is a message at once timely and timeless: "There is always another story. But it is the stories told by the strong, the songs of kings, that are believed in the end."
