on expertise with the usage of Information Communication Technologies (ICT) are changing the sociology of knowledge in the globalized world. Universities are the major institutions involved in the production and dissemination of knowledge. This book looks at ICT for education initiatives taken up towards building a Knowledge Society as emphasized in national education policy regimes for encouraging knowledge generation, knowledge acquisition, knowledge diffusion and the exploitation of knowledge. The research examines the present practice of ICT adoption in an existing framework of University of Hyderabad (UOH) and

Tezpur University (TZU) through intensive case study. The research attempts to analyze issues of knowledge, governance and access using ICT; the application of communication technologies in Higher Education Sector that helps in fulfilling the goal of a Knowledge Society; the communication process and strategies in the networking of higher education into a Knowledge Society; existing 'digital divide' and the implications. The Stakeholder's perspective further highlights the advantages and the challenges faced in the actual implementation of ICT4E. Based on the study, the research offers recommendations for

management, human resources, processes and institutional culture in ICT4E implementation.

The dynamic economic climate invites participants who are grounded in strategic financial management and infrastructure development. Thus, a lack of sufficient infrastructure, in both quality and quantity, often disqualifies developing countries from being key players in the global economy

and influences other socioeconomic problems like unemployment, quality of work life, and quality of life. Handbook of Research on Strategic Business Infrastructure Development and Contemporary Issues in Finance discusses the efficiency of good infrastructure and its impact on socioeconomic growth and socioeconomic development in general and addresses contemporary aspects of the strategic financial management essential for accomplishing the objective of wealth maximization in today's challenging and competitive economy. This book is an essential research work for policy makers, government workers and NGO employees,

as well as academicians and researchers in the fields of business, finance, marketing, management, accounting, MIS, public administration, economics, and law. **Annual Report** Walter de Gruyter GmbH & Co KG
The impact of COVID-19 was worst on women during this pandemic. Women were affected more than men by the social and economic effects of this pandemic. To understand and mitigate the various issues on women during this pandemic, a NATIONAL WEBINAR on "Peace, Security and Justice: Impact of COVID-19 Pandemic on Women" was organized by Women Cell, Bahona College in collaboration with

IQAC, Bahona College, Jorhat, Assam on 20-21 July 2020 during the lockdown period due to COVID-19. More than 1200 participants all over India participated in that webinar and many of them also expressed their interest in submitting their original articles/research papers on various issues related to the theme of the webinar. A good number of articles/research papers were received which were decided to publish in the form of an Edited Book after these were reviewed by the Expert Committee and entitled "COVID-19: Negotiating the Immediate and Beyond". The contributors of this book are leading academicians, research

scholars, and students from all over this country who actively participated in this webinar and enlightened this book with their valuable knowledge. Women are the backbone of any society and contribute significantly to the betterment of any society. Without them, no society exists. But still, during this pandemic situation due to COVID-19 they were the worst sufferers in almost all sectors in the society. Therefore, the aim of this Book was to understand and mitigate the various issues faced by women during this pandemic period on the basis of effective wisdom, learning, and findings of the large resource pool available across the country. This Book is the outcome of all

the collaborative efforts of all the contributors. I sincerely hope that this Book will be of great value and a research guide for all of us especially to the women in any society. Western Political Thought Berghahn Books

A sustained and systematic study of the construction, erosion and reconstruction of national histories across a wide variety of states is highly topical and extremely relevant in the context of the accelerating processes of Europeanization and globalization. However, as demonstrated in this volume, histories have not, of course, only been written by professional historians. Drawing on studies from a number of different European

nation states, the contributors to this volume present a systematic exploration, of the representation of the national paradigm. In doing so, they contextualize the European experience in a more global framework by providing comparative perspectives on the national histories in the Far East and North America. As such, they expose the complex variables and diverse actors that lie behind the narration of a nation.

The Rohingyas have
become a 'crisis' for all
including the host
countries, the
international
community and even
for themselves. Much
has been written about
the clearance
operation perpetrated
by Myanmar military
forces and vigilantes in
2017, forcing Rohingya
survivors to migrate
and seek refuge in
other countries. How
they have been
surviving during the
post-2017 period has
largely been left out in
academic literature.
The Rohingya Crisis:
Human Rights Issues,
Policy Concerns and

Burden Sharing
addresses the many
aspects of Rohingya
lives in Bangladesh,
Myanmar, India,
Southeast Asian
countries and in the
West. This book studies
the transforming public
discourse about
Rohingyas, the blame-
game of ecological
costs of Rohingya
presence, and the
declining relationship
between the host
communities and the
refugees. It examines
causes for escalating
intra-group conflicts,
decreasing
international support
and the repatriation
failures. It analyses the
critical roles of the
international
community, global civil
society and diaspora
activism, and discusses
what the future might
hold. 'Burden' sharing
should be seen as

sharing responsibilities for global justice. It is not the Rohingyas who are the burden.
