Do you find yourself making the same mistakes or poor choices again and again? Do you feel that you could make more of your life and be more happy and fulfilled? In *Take Charge of Your Life with NLP*, master NLP practitioner Felix Economakis reveals how our subconscious minds control a startling amount of our behaviour - making us repeat unhealthy

patterns, dwell on unnecessary worries and make the same bad choices again and again. This can cause a huge amount of mental conflict and unhappiness, as well as hold you back in life. This book provides simple and easy NLP techniques for breaking these negative behaviours by creating a better working relationship with your unconscious mind. You'll discover how to banish phobias and addictions, improve your self-esteem and motivation, feel happier and more fulfilled,

and take charge of your life for good.

The simple yet powerful techniques to help you use your mind to its full potential and finally witness a real change in your behavior What your life looks like today is the sum of your habits. How

happy you feel, how successful you are, how you deal with stress and struggle are all a result of what you think about. The thoughts you think in your mind influence what you do. And when you think something repeatedly, it becomes an unconscious pattern -- a habit. Breaking bad habits isn't always easy. Binge-watching your favorite tv series, chain-smoking in times of stress, snoozing your alarm clock are just some examples of the unconscious patterns we keep. Perhaps, you've

tried to stop through the sheer power of will, only to go back to the same destructive behavior in a week or a month. You may tell yourself: "I should exercise, I should get up early, I should quit," only to wake up with feelings of guilt and shame the next day. Sometimes, for real change to occur, self-discipline simply won't cut it. Because habits are deep psychological patterns often established by your past, your values, and your language use. So, it's not as simple as

willing yourself to stop. Neuro-Linguistic Programming (NLP) makes you aware of your self-sabotaging language, identifies your subconscious patterns, and gives you new ways to think about life. Your mind controls every thought, action, and experience in your life. If you understand how it works, you can finally take conscious control of the things you never thought possible. In 7 NLP Techniques to Break Any Bad Habit, you will discover: The proven and

tested psychological approach to transforming your habits once and for all The exact language you need to use to influence your thoughts, let go of negative feelings, and create a positive future The necessary self-assessment questions you need to answer to get to know your negative patterns and true values Step-by-step instructions to the one technique that has been proven to break bad habits permanently (see chapter 3) True-to-life examples to

understand how mindset, beliefs, and language work in everyday situations Simple strategies to remove triggers, achieve success, and witness massive shifts in your personal and professional life Practical exercises to help you change your attitude, reframe your mindset, and break habit patterns And much more. When trying to break a bad habit, many people make the mistake of only focusing on the conscious part of their mind. But the road to successful change

lies in your subconscious. These 7 NLP techniques are laid out with easy steps anyone can follow, and they will allow you to take 100% control of what goes on behind the scenes. Let go of the disempowering patterns of the past... and take hold of your empowering future! If you are ready to show up in all of your greatness in everything that you do, then get this book RIGHT NOW.

NLP Techniques You Can Use To Overcome Any Thought: Use Nlp For Your Personal

Lulu Press, Inc

The first thing that this book will teach you is how to overcome the edginess in you. You must know that even the experienced public speakers do get the nerves sometimes so consider this as a normal reaction but must be eliminated from your system. Getting over the shyness is tantamount to learning the techniques of

mind control. It goes like once you face the audience you can instantly focus your mind on your own speech and speak in your own world. Basically, this is what the professional public speakers do. They know how to control their minds and their nerves to get that extreme confidence. "Public Speaking: Mastering the Fundamentals To Overcome Anxiety and Gain Confidence" will also teach you the better ways in preparing for your speech prior to the actual

day of the event. You will also be trained to familiarize yourself with your surroundings and even how to visualize the venue of your speech while doing your practice speech. Experts in public speaking also do this kind of technique.

Your conscious mind has nearly 10% of your total mind-power while the remaining 90% power is with your subconscious mind. This book will teach you the techniques to access that 90% power which your subconscious mind has and use it in your favor. It will also teach you as to how you can gradually remove all the negativities from your subconscious mind. These negative impressions and emotions in your subconscious mind

prevent you from using your mighty subconscious mind in a productive manner. The very fact that you are reading this is enough proof that you do have a keen desire to learn 'something more' about the actual working of your mind, including the different roles that your Conscious Mind and Subconscious Mind play in your everyday life. Though you have never seen your subconscious mind, you have indeed seen many impactful results that it has brought about in your life and in

the lives of people close to you. You have, for sure, also heard many 'stories' of the positive changes that it has had in the lives of many highly successful people. Perhaps, you have also heard some pleasing comments and compliments from people on your own achievements, which too were the result of brilliant guidance provided by your mind. In addition to the above, you are also inquisitive to know about how your mind actually works. Towards this end, you would naturally be

keen to know more about the following: The enormous powers of your subconscious mind; The language that your subconscious mind understands; The key to unlocking the powers of your subconscious mind; The art of re-programming your subconscious mind. This book is my humble attempt to provide you with all that is mentioned above. It will also answer your simple questions such as -- How does your mind work? - What is subconscious mind? - How

does any information enter the subconscious mind?- How can you prevent yourself from 'unknowingly' using the power of your subconscious mind to your detriment?While I shall be explaining various concepts in detail, I shall also be liberal in taking up some day-to-day illustrations for your easy understanding of the various terms. I shall also be repeating certain critically important pieces of relevant information so that they get duly implanted in your memory

for easy recall and use.I have divided this book into easy-to-understand chapters, based on "NLP-Subconscious Mastery," which happens to be my favourite subject. This will greatly facilitate your implementing the knowledge that you acquire from this book in a gradual manner in your daily life. While learning is indeed a continuous process, you will be startled to see the results as they start to pour-in.I do hope that this book will be found very interesting as well as useful by you.

You may even be able to use it as an everyday 'Reference Manual' till such time as using the power of your subconscious mind on a continuous basis gets into your system and comes naturally.About the book: The book is available in three types, the Kindle edition, paperback edition and hardcover edition. The book contains concise information of about 90 pages of wisdom, clarity and positive energy.Book size: The book is sized at 5"x8" which is easy to carry.About the Author:

Ved embarked upon his current challenging but interesting journey more than 10 years ago. During the process, he learnt, practiced and polished multiple skills such as Hypnosis, Neuro Linguistic Programming (NLP), Counseling, Psychology, Memory Enhancement, Law of Attraction, Self-help, Affirmations, Leadership, Motivation, Life Skills, Mind Power, Emotional Freedom Technique (EFT), Spiritual Science, Quantum Physics and Quantum Jumping etc. Ved finally settled for

Neuro Linguistic Programming (NLP). He integrated all the knowledge acquired by him over many years from different sources to develop his own module of NLP Subconscious Mastery, which he has been teaching successfully over the last decade.
