Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Based on Bentley and Ziegler's best-selling, comprehensive survey text, Traditions & Encounters: A Brief Global History provides a streamlined account of the cultures and interactions that have shaped world history. An effective part structure organizes developments into seven eras of global

history, putting events into perspective and creating a framework for cross-cultural comparisons, while the strong themes of traditions (the formations and development of the world's major societies) and encounters (cross-cultural interactions and exchanges) bring focus to the human experience and help turn the giant story of world history into something more manageable. With an engaging narrative, visual appeal, extended pedagogy, and a strong emphasis on critical thinking, this concise version offers enhanced flexibility and affordability without sacrificing the features that have made the complete text a favorite among instructors and students alike.

Here is a new text that fulfills an emerging need in both higher and public education and stands to break new ground in addressing critical skills required of graduates. When working on their last book, *It Works for Me, Creatively*, the authors realized that the future belongs to the right-brained. While Daniel Pink and other visionaries may have oversimplified a bit, higher education is ripe for the creative campus, while secondary education is desperately seeking a complement to the growing assessment/teach-to-the-test mentality. You don't have to study the 2010 IBM survey of prominent American CEOs to know that the number one skill business wants is students who can think creatively. To meet the demand of new courses, programs, and curricula, the authors have developed a 200-page "textbook" suitable for secondary or higher education courses that are

jumping on this bandwagon. Introduction to Applied Creative Thinking, as the title suggests, focuses not on just developing the skills necessary for creative thinking, but on having students apply those skills; after all, true creative thinking demands making something that is both novel and useful. Such a book may also be used successfully by professional developers in business and education. For this book, Hal Blythe and Charlie Sweet are joined in authorship by Rusty Carpenter. He not only directs Eastern Kentucky University's Noel Studio for Academic Creativity but has co-edited a book on that subject, Higher Education, Emerging Technologies, and Community Partnerships (2011) and the forthcoming Cases on Higher Education Spaces (2012). Introduction to Applied Creative Thinking is student-friendly. Every chapter is laced with exercises, assignments, summaries, and generative spaces. From the Beginning to 1500 by Jerry Bentley, ISBN Glencoe/McGraw-Hill School Pub

Animals and Ethics 101 helps readers identify and evaluate the arguments for and against various uses of animals, such as: - Is it morally wrong to experiment on animals? Why or why not? - Is it morally permissible to eat meat? Why or why not? - Are we morally obligated to provide pets with veterinary care (and, if so, how much?)? Why or why not? And other challenging issues and questions.

Developed as a companion volume to an online "Animals & Ethics" course, it is ideal for classroom use, discussion groups or self study. The book presupposes no conclusions on these controversial moral questions about the treatment of animals, and argues for none either. Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity, understanding and argumentative rigor. Includes a bonus chapter, "Abortion and Animal Rights: Does Either Topic Lead to the Other?"

This is the workbook to get if the textbook you have has an orange strip across the top with the word "Updated" written across it. This AP* World History companion is filled with vocab, activities and assignments that follow the Bentley, Ziegler and Streets-Salter Sixth Edition of Traditions &

Encounters for all 38 chapters. The activities in this workbook can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook, physical or online. Teachers can copy at will, and parents can use the book as a student consumable. The rationale for having this workbook is that publishers now put so much of their extra content online, traditional classwork can be left lacking. Whether the textbook is written in ink or electrons, many students still find it valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, brainstorm examples, diagram each chapter, and think things through with the authors.
