Includes calendars, catalogues and indexes of records, issued as appendices.

Brilliant River Simon and Schuster
When Sasha Silver and her horse, Charm, arrive on the campus of the elite Canterwood Crest Academy, Sasha knows that she's in trouble. She's not exactly welcomed with open arms. One group of girls in particular is used to being the best, the brightest, and the prettiest on the team, and when Sasha shows her skills in the arena, the girls' claws come out. Sasha is determined to prove that she belongs at Canterwood. Will she rise to the occasion and make the advanced riding team by the end of her first semester? Or will the pressure send Sasha packing?

Marking the 75th anniversary of the first meeting of the Mont Pèlerin Society, in 1947, this volume presents for the first time the original transcripts from this landmark event. The society was created by Friedrich Hayek as a forum for

leading economists and intellectuals to discuss and debate classical liberal values in the face of a rapidly changing world and political trends toward socialism. Bruce Caldwell, a major scholar of Hayek, provides an informative introduction and explanatory notes to the source documents, drawn from the Hoover Institution Library & Archives, where they have been available to scholars. Now accessible to all, the transcripts reveal what was said on a wide range of topics, including free markets, monetary reform, wage policy, taxation, agricultural policy, the future of Germany, Christianity and liberalism, and more. They provide insights into the thinking of men such as Hayek, Milton Friedman, Aaron Director, Frank Knight, Walter Eucken, Karl Popper, and other leading figures in the classical liberalism movement, illuminating not only their ideas but also their distinctive personalities. A photo section shows rarely seen images from the meeting. *The Church Bells of Rutland* Frontiers Media SA

This analysis of the distinctive fighting concepts of the 1st Cavalry Division (Airmobile), as demonstrated in Vietnam combat, also considers the airmobile concept's relevance in the current Army and its potential in future military conflicts

George P. Shultz and John B. Taylor draw from their several decades of experience at the forefront of national economic policy making to show how letting the market work on its own, without government intervention, is a recipe for success. *Choose Economic Freedom* reconstructs debates from the 1960s and 1970s about the use of wage and price controls as a tool of policy, showing how brilliant economists can hold diametrically opposed views about the wisdom of using government intervention to spur the economy. The words of iconic economist Milton Friedman—whose "free to choose" ethos inspired the free-market revolution of the Reagan era—along with lessons Shultz and Taylor learned from the front lines, demonstrate that tried-and-true economic policy works.

Fiber Fueled Hassell Street Press

This book provides an accessible introduction to the SPARK programming language. Updated 'classic' that covers all of the new features of SPARK, including Object Oriented Programming. The only book on the market that covers this important and robust programming language. CD-ROM contains the main SPARK tools and additional manuals giving all the information needed to use SPARK in practice. Technology: The SPARK language is aimed at writing reliable software that combines

simplicity and rigour within a practical framework. Because of this, many safety-critical, high integrity systems are developed using SPARK. User Level: Intermediate Audience: Software engineers, programmers, technical leaders, software managers. Engineering companies in fields such as avionics, railroads, medical instrumentation and automobiles. Academics giving MSc courses in Safety Critical Systems Engineering, System Safety Engineering, Software Engineering. Author Biography: John Barnes is a veteran of the computing industry. In 1977 he designed and implemented the RTL/2 programming language and was an original member of the ADA programming language design team. He was founder and MD of Alsys Ltd from 1985 to 1991. Currently self employed, John is the author of 'Programming in ADA' which has sold 150000 copies and been translated into 6 languages. *The Plant-Based Gut Health Program for Losing Weight, Restoring Your Health, and Optimizing Your Microbiome* Penguin Some fundamental concepts of units, dimensions, and physical measurements are discussed, and illustrations of the misunderstandings that exist in the literature concerning these concepts are given. The differences between measure and physical equations are outlined, and a simple example is considered. The choice of how many and which units to use as basic is shown to be completely arbitrary, and the choice is usually made to produce maximum accuracy and convenience. Various mechanical, thermal, and electrical systems of units in common use today are presented, and an engineering (ft-lbf-ampsec) system is developed to describe electromagnetic problems. The history of some important physical units is traced, and the latest

definitions of these units are used to obtain convenient conversion tables for various physical quantities.

Catalogue No. 8 Simon and Schuster Originally published in 1932. "From original manuscripts, many hitherto unpublished." Author: Tenison, Eva Mabel Language: English Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Obscure Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Explore Morocco's busy city streets, historic mosques, and delicious food. Discover the different regions of Morocco, and see the beautiful culture firsthand through events, festivals, and local markets. Discover DK Eyewitness Travel Guide: Morocco. + Detailed itineraries and "don't-miss" destination highlights at a glance. + Illustrated cutaway 3-D drawings of important sights. + Floor plans and guided visitor information for major museums. + Guided walking tours, local drink and dining specialties to try, things to do, and places to eat, drink, and shop by area. + Area maps marked with sights. + Detailed city maps include street finder indexes for easy navigation. + Insights into history and culture to help you understand the stories behind the sights. + Hotel and restaurant listings highlight DK Choice special recommendations. With hundreds of full-color photographs, hand-drawn

illustrations, and custom maps that illuminate every page, DK Eyewitness Travel Guide: Morocco truly shows you this country as no one else can.

Illustrated leaflets Grupo Editorial Norma Harvest of Fish and Wildlife: New Paradigms for Sustainable Management unites experts in wildlife and fishery sciences for an interdisciplinary overview of harvest management. This book presents unique insights for embracing the complete social-ecological system to ensure a sustainable future. It educates users on evolutionary and population dynamics; social and political influences; hunter and angler behavior; decision processes; impacts of regulations; and stakeholder involvement. Features: Written by twenty-four teams of leading scientists and managers. Promotes transparent justification for fishing and hunting regulations. Provides examples for integrating decision making into management. Emphasizes creativity in management by integrating art and science. This book appeals to population biologists, evolutionary biologists and social scientists. It is a key resource for on-the-ground managers and research scientists developing harvesting applications. As the book's contributors explain: "Making decisions that are robust to uncertainty...is a paradigm shift with a lot of potential to improve outcomes for fish and wildlife populations." -Andrew Tyre and Brigitte Tenhumberg "Temporal shifts in system states...must somehow be anticipated and dealt with to derive harvest policies that remain optimal in the long term." -Michael Conroy "Proactive, effective management of sportspersons...will be essential in the new paradigm of harvest management." -Matthew Gruntorad and Christopher Chizinski
Easter Lili Penguin

Grain legumes, together with quinoa and amaranth (pseudocereals) and other crops are attractive candidates to satisfy the growing demand for plant protein production worldwide for food and feed. Despite their high value, many protein crops have not been adequately assessed and numerous species are underutilized. Special attention has to be paid to genetic diversity and landraces, and to the key limiting factors affecting yield, including water deficiency and other abiotic and biotic stresses, in order to obtain stable, reliable and sustainable crop production through the introduction and local adaptation of genetically improved varieties. Legumes, the main protein crops worldwide, contribute to the sustainable improvement of the environment due to their ability to fix nitrogen and their beneficial effects on the soil. They play a key role in the crop diversification and sustainable intensification of agriculture, particularly in light of new and urgent challenges, such as climate change and food security. In addition, the role of legumes in nutrition has been recognized as a relevant source of plant protein, together with other benefits for health. Chapters dealing with common bean, lupine, soybean, lentil, cowpea and Medicago are included in this book. Most contributions deal with legumes, but the significant number of papers on different aspects of quinoa gives an idea of the increasing importance of this protein crop. Pseudocereals, such as quinoa and amaranth, are good sources of proteins. Quinoa and amaranth seeds contain lysine, an essential amino acid that is limited in other grains. Nutritional evaluations of quinoa indicate that it constitutes a source of complete protein with a good balance among all of the amino acids needed for human diet, and

also important minerals, vitamins, high quality oils and flavonoids. Other protein crops also included in this book are hemp, cotton and cereals (maize, wheat and rice). Although cereals protein content is not high, their seeds are largely used for human consumption. In this book are included articles dealing with all different aspects of protein crops, including nutritional value, breeding, genetic diversity, biotic and abiotic stress, cropping systems or omics, which may be considered crucial to help provide the plant proteins of the future. Overall, the participation of 169 authors in 29 chapters in this book indicates an active scientific community in the field, which appears to be an encouraging reflect of the global awareness of the need for sustainability and the promising future of proteins crops as a source of food and feed.

Mont Pèlerin 1947 IRD Éditions

To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no

one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.

Continuing the saga of Sam and Tony Brownfield, portrayed in "Ginger Lily", Sam and Tony are living in Barbados, in the west coast beach house - named Ginger Lily- and getting on with their lives, bringing up Sam and Albert's son, Ray, and Tony's son, Douglas, and daughter, Charmaine. All is going well until Albert appears on the scene. He had re-married in London, but when the second wife left him he decided to return to Barbados and help run his parents' small farm. Some conflict and intrigue follow this move, but Tony and Sam remain steadfast in their marriage. Ray and Douglas are at boarding-school in England, and Doug springs a surprise - not an altogether pleasant one - on the family. Social events and intriguing political activities form an expose into life in Barbados in the 1960's and 70's. Albert surprises everyone by becoming a Born Again Christian, marries a Canadian woman and goes off to Canada to live.

Unfortunately, tragedy follows, but is eventually coupled with some joy.

This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more.

Table of Contents
Introduction
Section One: Windows Configuration
Chapter 1: AlwaysInstallElevated
Section Two: Domain Controller
Chapter 2: Zerologon
Section Three: Windows Service
Chapter 3: Service - Insecure File Permission
Chapter 4: Service - Unquoted Path
Chapter 5: Service - Bin Path
Chapter 6: Service - Registry
Chapter 7: Service - DLL Hijacking
Section Four: Scheduled Tasks
Chapter 8: Scheduled Tasks
Section Five: Windows Registry
Chapter 9: Autorun
Chapter 10: Startup Applications
Section Six: Windows Kernel
Chapter 11: Kernel - EternalBlue
Chapter 12: Kernel - MS15-051
Chapter 13: Kernel - MS14-058
Section Seven: Potato Exploits
Chapter 14: Juicy Potato
Chapter 15: Rogue Potato
Section Eight: Password Mining
Chapter 16: Password

Mining - Memory Chapter 17: Password
