*Programming the World Wide Web -
Chapter 1 Flashcards ...* Programming
The World Wide Web Programming the
World Wide Web provides a
comprehensive introduction to the tools
and skills required for both client- and
server-side programming, teaching
students how to develop platform-
independent sites using the most current
Web development technology. Essential
programming exercises are presented
using a manageable progression:

students begin with a foundational Web
site and employ new languages and
technologies to add features as they are
discussed in the course. Programming
the World Wide Web (8th Edition):
