The idea of initiation has enthralled and entranced mankind since time began. An arcane process that changes the initiate forever, it is rarely talked about and thus continues to be cloaked in secrecy. This astounding book, co-written by one of the most respected teachers and Initiators alive today, explains exactly what it means to be initiated into a group, who chooses to follow that path, and what they have to go through in the process. This book is especially powerful because it also examines, through astrological charts, the inner path, and challenges, of the person undergoing the initiation. It is a book to treasure.

The mere mention of the word 'teenager' can strike fear into the heart of the bravest soul, and yet there are some truly heroic individuals who make it a life-long mission to teach them. Alex Trenoweth is one such teacher. She also happens to be an astrologer. Her official subjects are Religious Studies, History and English, but from reading 'Growing Pains' you will quickly find that her true passion is the actual students themselves. Using the cycles of Jupiter and Saturn she untangles

the confusing conundrum of why groups of students are so different from each other year on year, and sometimes even within year groups. How is an already over-worked teacher supposed to cope with this ongoing challenge? Alex Trenoweth has the answer.

Do you know the Bowl from the Basket shape in a natal chart? Did you realise just how much information you can gain from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of

the idealised patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and Agatha Christie. This fascinating and accessible book is suitable for all levels.

Davis shows how locations of significance and global hotspots can be identified astrologically, bringing the influence of space (where something may happen) into the usual astrological focus on time (when something may happen). This is a critical enlargement of astrological perspective for today's needs, where an understanding of influences around the globe is critical for our very well being

The Astrology Book The Wessex Astrologer  
Despite incredible and previously undreamed-of advances in modern medicine, for many women the issue of infertility remains a heart-breaking reality.

Using a combination of traditional and modern astrological techniques, the author has delved deeply into the charts of hundreds of infertile women, and in many cases has unravelled what might be at the root of the problem. Sometimes it's a matter of location or timing, or it could be psychological issues in the relationship that are causing the block; whatever the reason, the author works closely with the couple - and often the medical profession - to produce results that are frequently positive where there has been no hope before. Although this is an advanced textbook for astrologers, the human element of the case histories is nothing short of inspiring, and from that perspective can be enjoyed by readers with no knowledge of astrology.

Panchanga is an ancient vedic technique which has disappeared from current practice. It is used to discover the strength of the different sources of 'light' in the natal chart which show one's response to the challenges of life. This book shows how relevant this technique is to life.

A beautiful book which for the first time explores the relationship between the cycles of Venus and Mars and their impact on our lives. Using many case histories the author shows how, although synastry is important, possibly of greater importance

is the aspect between the two planets within their cycles because that can dictate the timing of key moments in a relationship. She shows how the degree of the original conjunction between the two planets ('the degree of passion'), based on the time of birth can indicate the kind of the people we are attracted to and the course a romance can follow. A really absorbing book which will prompt hours of research
