Whitaker's Books in Print AdrenalineMoto

Based on interviews with former police officers, this book addresses two main issues. Firstly, the question of how the police themselves viewed the priorities of the job and what they considered their role to be. This is the first study to consider this question and its implications for the style and content of police work. Secondly, it challenges the view of the prewar period as a "Golden Age", and shows that policing from the 1930s to the 1960s was not as unproblematic as has often been assumed. Police violence and the fabrication of evidence were more prevalent than the cosy image of the British TV series *Dixon of Dock Green* would have us believe. The fact that this image often went unchallenged has much to do with prevailing concepts of masculinity and with the greater moral certitude of the police within a more stable and stratified society.

Renowned engine builder and technical writer David Vizard turns his attention to extracting serious horsepower from small-block Chevy engines while doing it on a budget. Included are details of the desirable factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, the best blocks, rotating assembly (cranks, rods, and pistons), camshaft selection, lubrication, induction, ignition, exhaust systems, and more.

How People Feel about Downtown Parking Clymer Publishing

At the heart of the dramatic arts lies a single phenomenon: human social interaction. The crux of the practitioner's work involves knowing how interaction works: knowing what a pause does, or why a

particular intonation contour changes a line from interrogative to accusative, or what goes into inferring something about a character. *Social Interaction and Dramatic Performance* uses case studies from dramatic performances and data from real-world interaction to present findings from interaction analytic research. Over ten chapters, Spencer Hazel illuminates the nuances that shape our everyday interactions, demonstrating how practitioners of the dramatic arts seek to develop and construct authentic representations of interaction. This book also explores the processes by which these representations of interaction are produced through interaction: between actors, between actor and director and between others in the creative team. The dramatic arts explore the social world through representations of people interacting with one another. This new coursebook offers insights into the intricate ways people have been shown to organise their interactions, their social affairs and their institutions, providing a toolkit for students and practitioners of the performing arts to follow, allowing them to understand and construct more authentic interactions in performance.

The touchstone guide to running projects from the British Institute of Interior Design (BIID). By setting out actions step-by-step, this essential handbook identifies the key obligations of the interior designer at each project stage. Straightforward explanation is supplemented by invaluable checklists and templates. Featuring crucial advice on administering construction contracts, it references the new RIBA/BIID Domestic Professional Services Contract 2020 for interior design services. Reflecting the RIBA Plan of Work 2020 and contemporary working practice, it provides a systematic operational framework that can be applied to all types of projects. Comprehensive in scope with a logical structure, it embraces the theme of collaboration within the project team. It also addresses post-occupancy evaluation, modern methods of construction and sustainability. Suitable for projects within any industry sector and practice type, from large international firms to sole practitioners, it is accessible to designers with different levels of experience.
