For Fauziya Kassindja, an idyllic childhood in Togo, West Africa, sheltered from the tribal practices of polygamy and genital mutilation, ended with her beloved father's sudden death. Forced into an arranged marriage at age seventeen, Fauziya was told to prepare for kakia, the ritual also known as female genital mutilation. It is a ritual no woman can refuse. But Fauziya dared to try. This is her story--told in her own words--of fleeing Africa just hours before the ritual kakia was to take place, of seeking asylum in America only to be locked up in U.S. prisons, and of meeting Layli Miller Bashir, a law student who became Fauziya's friend and advocate during her horrifying sixteen months behind bars. Layli enlisted help from Karen Musalo, an expert in refugee law and acting director of the American University International Human Rights Clinic. In addition to devoting her own considerable efforts to the case, Musalo assembled a team to fight with her on Fauziya's behalf. Ultimately, in a landmark decision in immigration history, Fauziya Kassindja was granted asylum on June 13, 1996. *Do They Hear You When You Cry* is her unforgettable chronicle of triumph.

The Empathy Exams DK Publishing (Dorling Kindersley)

A quick examination of her roots, and one may never have guessed that Mireya Mayor would become the woman she is today. Yet, against all odds, this self-professed former "girly girl" daughter of overprotective Cuban immigrants blossomed from NFL cheerleader to Fulbright Scholar to field scientist and ultimately, quintessential adventurer. Now, with more than a decade's worth of thrilling exploits under her belt, Mayor recounts her life in a riveting, awe-inspiring new book. In a series of short chapters, she relives each exhilarating event with uncanny charm and self-deprecating humor. Readers have the rare opportunity to follow the renowned primatologist around the globe as she unlocks the mysteries of the natural world and endeavors to save some of the planet's rarest creatures. Says Mayor: "I love the adventure, the exploration, the scientific discovery and the documentation. But really what drives me is the thought that future generations—my own children and their children—can one day learn to appreciate them like I do." Throughout this unforgettable volume, she describes in stunning detail how she survived a plane crash...slept in jungles teeming with poisonous snakes...dove with hungry great white sharks...rappelled down a 14,000-foot sinkhole in search of frogs...draws blood from critically endangered lemurs...was charged by an angry silver-backed gorilla...was chased by elephants...and the list goes. Suffice it to say, Mireya Mayor has seen more in her 30-odd years than most of us will see in a lifetime. Her plucky spirit, brilliance in the face of calamity, and sheer will to succeed make this a classic mission book, and a thoroughly breathtaking read.

Everything Awesome About Space and Other Galactic Facts!

Skyhorse Publishing Inc.

Taking the business model as point of departure, this open access book explores how companies and organizations can contribute to a more sustainable future by designing innovative models that are both sustainable and profitable. Based upon years of research, it draws together theoretical foundations and existing literature on the topic of sustainable business alongside case studies and practical solutions. After examining the theoretical foundations of sustainable business model innovation, the authors present their own framework - RESTART. Consisting of seven factors, this framework can be the basis for restarting any business model. The final section outlines a research agenda for sustainable business informed by the perspectives and frameworks put forward in this book.

From personal loss to phantom diseases, *The Empathy Exams* is a bold and brilliant collection, winner of the Graywolf Press Nonfiction Prize A Publishers Weekly Top Ten Essay Collection of Spring 2014 Beginning with her experience as a medical actor who was paid to act out symptoms for medical students to diagnose, Leslie Jamison's visceral and revealing essays ask essential questions about our basic understanding of others: How should we care about each other? How can we feel another's pain, especially when pain can be assumed, distorted, or performed? Is empathy a tool by which to test or even grade each other? By confronting pain—real and imagined, her own and others'—Jamison uncovers a personal and cultural urgency to feel. She draws from her own experiences of illness and bodily injury to engage in an exploration that extends far beyond her life, spanning wide-ranging territory—from poverty tourism to phantom diseases, street violence to reality television, illness to incarceration—in its search for a kind of sight shaped by humility and grace.
