Sub-Saharan Africa has the highest prevalence of hunger in the world. Until this situation improves, the human development prospects of millions of Africans will remain at risk. UNDP's first Africa Human Development Report shows that food security and human

development reinforce each other. If African countries are to realise their long-term potential, the report says, they must boost agricultural productivity to both improve the availability of food and reduce poverty. Policies to enhance nutrition are central to ensuring that access to food translates into human development. The report argues further that local populations must have the resources and decision-making power to produce and consume nutritious food throughout the year, overcoming the risks represented by continuing conflict, climate change and

variations in food prices.

FEATURES EXCLUSIVE INTERVIEW with  
SUBRATA ROY EVERYTHING YOU WANTED  
TO KNOW ABOUT SUBRATA ROY AND  
SAHARA INDIA PARIWAR, BUT WERE  
AFRAID TO ASK... Sahara: The Untold Story  
is based on painstaking research to  
demystify India's most secretive and  
largely unlisted conglomerate, the Sahara

India Pariwar. It also delves into the group's ongoing legal battle with the market regulator. Entrepreneur Subrata Roy, the guardian angel of the group, whose feet are touched by everybody in the Pariwar, wants to reach out to a million lives and feels impeded and shuttered in by regulations. So the clash with the regulators was inevitable. But when a regulator slams one door, maverick Roy opens another. This play has been on since 1978, when Sahara was set up. Roy is well known for glamour and his association with film stars, cricketers and politicians. He exudes patriotism, with a statue of Bharat Mata (the presiding deity of the group) on a chariot driven by four fierce-looking lions adorning his headquarters in Lucknow. He is the Robin Hood of a country where only 35% of the adult population has access to formal banking services. This India and its millions of illiterate poor depositors stand in awe and admiration of him. But does he also exploit them? Do these poor people actually keep money with him or are they fronting for others? EXCERPT FROM THE SAHARA INDIA PARIWAR DISCLAIMER 'The book at best can be treated as a

perspective of the author with all its defamatory content, insinuation and other objections, which prompted us to exercise our right to approach the court of law in order to save the interest of the organization and its crores of depositors and 12 lakh workers.'

Tamal Bandyopadhyay, a deputy managing editor of Mint, is one of the most respected business journalists in India. Tamal has kept a close watch of the financial sector for over a decade and a half and has had a ringside view of the enormous changes in Indian finance and banking over this period. His first book, *A Bank for the Buck*, released by P Chidambaram in November 2012, has been a non-fiction bestseller.

**At the Dawn of Belt and Road** Harper Collins

India and Pakistan have very different visions for Afghanistan, and they seek to advance highly disparate interests through their respective engagements in the country. This paper reviews the countries' interests in Afghanistan, how they have tried to further their interests, how Afghanistan navigates their rivalry, and the rivalry's implications for U.S. and Indian policy.

A Personal History Rowman & Littlefield

Provides a comparative sketch of regional cooperation in South and Southeast Asia in the light of various political, economic and social developments in the two regions.

*Essays by Eminent Persons on the Rapidly Transforming Indian Economy* Penguin UK  
The inside track to India's most powerful tycoons The eight business maharajas profiled here are among Asia's most powerful industrial tycoons, Their combined turnover runs into billions of rupees, and between them they employ some 650,000 people, while indirectly affecting the lives of millions more. Sip a cup of tea, drive to work, listen to music, build a house and the chances are that in these and a myriad other ways you are using products that they manufacture or market. By any yardstick, the achievements of these men would rank among the great business stories of our time. How did these men build their enormous empires? What are their management secrets? How did they thrive and prosper even as others failed? What is their vision for the future? Top business writer and industry insider Gita Piramal draws on exhaustive interviews and in-depth research to discover the answers to

these and related questions in her profiles of the men who will lead the country's push to become an industrial superpower in the 21st century.

**Faces of Inequality** Hachette India  
'Attitudinal change' in the context of economic reforms has been referred to in Rodrik and Subramanian (2005), DeLong (2003), Kohli (1989), and Panagariya (2004, 2008). This dissertation provides empirical support for this literature, establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts. It demonstrates the endogenous nature of the origins of these policy shifts. 'Attitudinal change' literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries. This research makes a contribution towards filling these gaps. This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984. These findings depart from the conventional view that India's economic policy changes were initiated by the

Narasimha Rao government in 1991, or by the Rajiv Gandhi administration in the mid to late 1980s. The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership's attitudinal changes. The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977. The new approach entailed more openness towards private enterprise, scaling back the role of the public sector, and starting India's integration into the global economy. The dissertation also discusses the comparable role of attitudinal changes at the start of China's policy liberalisation led by Deng Xiaoping from 1978 to 1982. It focuses on the significance and challenges faced by China's political leadership in bringing about societal attitudinal change. The dissertation concludes by drawing comparisons between India and China, developing a linkage between their endogenous attitudinal changes and economic policy liberalisation.

**New Delhi** Springer Nature  
The book provides readers with a clear understanding of infrastructure

challenges, how Public-Private Partnerships (PPP) can help, and their use in practice. Infrastructure bottlenecks are generally considered the most important constraint to growth in many countries worldwide. Historically, infrastructure projects have been financed and implemented by the state. However, owing to the fiscal resource crunch, time and cost over-runs, and the general poor quality of publicly provided infrastructure, many emerging market governments, including India, have increasingly adopted PPPs with billions of dollars of investment riding on them. The results have been varied – from spectacular airports like the Delhi International Airport Limited with the associated controversy over land use, to the renegotiation of contracts as in the case of Tata Mundra Ultra Mega Power Project. Illustrating concepts with relevant case studies, the book makes the challenges of PPPs understandable to industry and management practitioners as well as students of management, public policy and economics. It is useful to practitioners wishing to avoid the pitfalls in the tricky terrain of PPPs and policymakers wanting guidance in crafting

proper incentives. It also helps students gain a holistic and “applied” understanding of this increasingly important and popular model. “Public Private Partnerships (PPPs) in India are currently under stress. A comprehensive treatment of the subject by a long-time and erudite practitioner and a management academic, this book should be useful to students trying to learn the basics, while also being valuable to professionals and policy makers. The book suggests that the Government should hold bidders accountable to their submitted bids, thereby preserving sanctity of contract. This will discourage aggressive bidding which has become a serious and endemic problem. The book also suggests the use of better bidding criteria to mitigate traffic risk in transport projects. Policy makers should pay heed to these suggestions as they consider improvements in the PPP policy regime going forward.”—Arvind Subramanian, Chief Economic Adviser, India/div “For a fast-growing India, infrastructure creation and operation is a great challenge and opportunity. This excellent book combines theory and practice on PPPs, and is very

useful for professionals and students alike. With case studies and current developments, the authors bring out issues in India with global experiences as well. A must-read for infrastructure practitioners.”—Shailesh Pathak, Chief Executive (Designate), L&T Infrastructure Development Projects Limited “India’s program of private participation in infrastructure attracted worldwide attention as it became one of the largest programs in emerging markets. As well as the volumes of finance mobilized, it garnered interest because of some of the innovative approaches developed, such as Viability Gap Funding. The Indian PPP story is well captured in this book, which also makes the point that India is seeing project cancellations and failures rise. The authors analyze the factors behind this and point the way to a more robust PPP market that learns from the experiences of the past.”—Clive Harris, Practice Manager, Public-Private Partnerships, World Bank/div Public Papers of the Presidents of the United States, Barack Obama United Nations Publications  
The rapidly transforming Indian economy has thrown up a number of possibilities as

well as several challenges with profound implications for India's vast population as well as globally. The K R Narayanan Oration Series at the Australia South Asia Research Centre in The Australian National University has been devoted to in-depth examination of this important issue by leading experts. The present volume collects the first ten essays in this series.

**A Short History of the People behind the Fall and Rise of the Congress**

Routledge

The Golden age of Indian industry, as it now seems in retrospect, lasted from 1951 to '62. and industrialists of the lime were not afraid to think ahead and plan big. Among the entrepreneurs who led this Industrial resurgence, four were particularly outstanding, G.D. Birla, Walchand Hirachand, Kasturbhai Lalbhai and, J.R.D. Tata. Gita Piramal, author of the acclaimed Business Maharajas, sensitively recreates the Lives and Times of these four titans of industry. She draws upon hitherto untapped sources of information to Sketch her profiles, making this perhaps the closest Look at these legends this fair. Thought provoking and incisive. Business Legends is a compelling

Account of ambition and achievement.

When The Accidental Prime Minister was published in 2014, it created a storm and became the publishing sensation of the year. The Prime Minister's Office called the book a work of 'fiction', the press hailed it as a revelatory account of Prime Minister Manmohan Singh's first term in UPA.

Written by Singh's media adviser and trusted aide, the book describes Singh's often troubled relations with his ministers, his cautious equation with Sonia Gandhi and how he handled the big crises from managing the Left to pushing through the nuclear deal. Insightful, acute and packed with political anecdotes, The Accidental Prime Minister is one of the great insider accounts of Indian political life.

Managing the Challenges Walnut Publication

Amid the talks of a five trillion dollar Indian economy, there is still an India where people struggle to arrange two square meals a day. Many strive hard for basic needs of food, health and education. Often unheard and ignored, these voiceless people mostly don't matter to the mainstream media. This book, through

various ground reports over a decade and a half, captures the stories of the most marginalised people of society. All the reports should serve as a warning bell till the time another man dies of starvation, an HIV positive woman is thrown out of her house, a girl is raped in brick kilns of Andhra Pradesh or a poor child is forced to work in the cotton fields of Gujarat. These are not mere real-life stories but a chronicle of policy and governance failures. The reports analyse the systemic causes of such failures. But all is not lost. Still, there are rays of hope amid the bleak picture. Many positive stories show us how, with the right policy interventions and community effort, the lives and livelihoods of the marginalised can flourish. Note: This book is a republication of author's selected articles published earlier in different newspapers, portals and journals. Author's announcement: 25% of the earnings incurred to the author from the sale of this book will be donated for social causes.

Outlook Anchor

Examines the interconnected events including World War II, India's struggle for independence, and a period of acute

scarcity that lead to mass starvation in colonial Bengal.

**Endogenous Origins of Economic Reforms in India and Chin** Institute of Southeast Asian Studies

Focusing on politics and society in India, this book explores new areas enmeshed in the complex social, economic and political processes in the country. Linking the structural characteristics with the broader sociological context, the book emphasizes the strong influence of sociological issues on politics, such as social milieu shaping and the articulation of the political in day-to-day events. Political events are connected with the ever-changing social, economic and political processes in order to provide an analytical framework to explain 'peculiarities' of Indian politics. Bidyut Chakrabarty argues that three major ideological influences of colonialism, nationalism and democracy have provided the foundational values of Indian politics. Structured thematically and chronologically, this work is a useful resource for students of political science, sociology and South Asian studies.

**The Role of Attitudinal Changes: India (1980-1984) and China (1978-1982)**

Jaico Publishing House

Every Life Journey is a difficult one. Often, just when you think the road smoothens out, you come to a fork, a sharp curve, a steep hill, meet a demotivating person, or encounter a danger. They are all external threats to you. But the more dangerous demons you face are the unknown, fear, and negativity inside you that tell "You're not good enough " "You will never reach the other shore " "You haven't trained enough " "What if you fail? Invariably all have faced both these demons. The challenge is how to overcome these External and Internal Demons. Dr. Auknoor Goutam manifests, for you 100 ways to face those demons, in his World's Best Gift Book. This inspirational and self-help book will be a great companion on your successful life trek no matter what background and field you hail from as it triggers to identify your unwavering spirit to show you what's wrong or right in front of you, inside you, and then to act.

24 Akbar Road [Revised and Updated]

Universal-Publishers

This book gathers outstanding research papers presented at the International Conference on Frontiers in Computing and

Systems (COMSYS 2020), held on January 13-15, 2019 at Jalpaiguri Government Engineering College, West Bengal, India and jointly organized by the Department of Computer Science & Engineering and Department of Electronics & Communication Engineering. The book presents the latest research and results in various fields of machine learning, computational intelligence, VLSI, networks and systems, computational biology, and security, making it a rich source of reference material for academia and industry alike.

**China in the Developing World** Penguin UK

Memoir of one of Indira Gandhi's closest confidants One day, soon after M.L. Fotedar had joined Indira Gandhi as political secretary in July 1980, she told him to sit at 1 Akbar Road. This would enable him to meet the people who came to her with various requests. She suggested a small room to serve as his workspace. But it was one she was emotionally attached to -- it was used by her son Sanjay, who had recently died in an air crash. For the rest of Indira Gandhi's final term in office, this room would be the

nerve centre of Fotedar's work. Ordinary people and senior party leaders would come there for him to filter their requests and complaints. From assessing future leaders -- be it V.P. Singh, Pranab Mukherjee or Ahmed Patel -- with remarkable foresight, to straightening up those who were being difficult, he did it all. The Chinar Leaves paints a portrait of a six-decade-long political career that began in Kashmir and gives insights into the

murky world of national politics. Here are the stories of many careers that were made and unmade in the Congress. Among these are the saga of Narasimha Rao's no-holds-barred effort to stay in power, Amitabh Bachchan's falling out of favour with the Gandhi family, the machinations of succession after Indira Gandhi's death, Giani Zail Singh's tiff with Rajiv, and many more. Fotedar, for long

the voice of political wisdom in the party, also passes his verdict on the current crop of Congress leadership and searches Indira Gandhi's will, to which he was a signatory, for the true successor to her legacy. As a record of Indian politics at a time of momentous events, this is a frank and sometimes shocking look at recent history from the man who exercised immense influence from behind the scenes and whose impact continues to this day.
