With its sprawling coffee plantations and acres of green paddy fields alternating with banana and coconut palms, Kodagu (Coorg) in Karnataka is one of the most scenic parts of India. In the old days hunting and fishing took care of most of the requirements of the community, with

wild fowl, pig and fresh-water fish forming an important part of the cuisine. Pork and meat, along with fish, continue to be served in most homes today with rice as the staple, although wheat and ragi are also becoming popular. The hundred-odd recipes in this book bring together the best of traditional Kodava cuisine, from spicy vegetable curries and subtly flavoured pachadis to the many varieties of steamed dishes (puttu) that are distinctive to the region. The recipes are preceded by an excellent introduction that looks at the different customs and food-related rituals of the land, describes the special food that is served during festivals and ceremonies, and simply and lucidly sets down the most effective ways to capture the authentic taste of Kodava cooking. The recipes include: Neer Dosai, Thalia Puttu, Akki Roti, Pandi Curry, Meen Curry, Inji Pachadi, Holige Bale, Muruku, Khus Khus Payasa, Wild Mango

This study examines the observations of U.S. military personnel who attended India's Defence Services Staff College (DSSC) at Wellington. Although the DSSC is a tri-service professional military education institution, this study focuses primarily on the Indian Army, the largest and most influential military service in India. Collectively, U.S. personnel at the DSSC had sustained interaction over an extended period of time with three distinct groups of Indian Army officers: senior officers (brigadier through lieutenant general), senior midlevel (lieutenant colonel and colonel), and junior midlevel (captain and major). The study focuses on the attitudes and values of the Indian Army officer corps over a 38-year period, from 1979 to 2017, to determine if there was change over time, and if so, to understand the drivers of that change.

This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources. History writing, especially about the medieval Muslim rule has been fraught with political correctness, controversy, and in several cases, downright falsification. This has occurred mostly with official state patronage. As a result, any attempts to correct this course has been virulently opposed with the result that most urban-educated Indians have now internalized a politically correct version of Indian history. The history of Tipu Sultan too, stands as a glaring instance of this distorted historical narrative. Indeed, we have seen, read, and heard about a lot of people claiming to be

freedom fighters and receiving pensions from the Government. Several of these worthies would not have been born before Independence yet they succeed in such blatant manipulations. There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire. One such ruler happens to be Tipu Sultan. Tipu Sultan is widely known as the Tiger of Mysore. Indeed, the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned. But is this the truth? Was Tipu Sultan truly the warrior as he has been portrayed? What exactly is his record of fighting the British? Was he really a freedom fighter as is widely claimed?

Sandeep Balakrishna in this well-researched book, explores both the myths and the truth surrounding Tipu Sultan. A must-read for those who wish to learn the true story of Tipu Sultan.

As the first girl to be born into the Nachimanda family in over thirty-five years, the beautiful Devi is the object of adoration of her entire family. Spirited and strong-willed, she befriends the shy Devanna, a young boy whose mother has died in tragic circumstances. Together they grow up amidst the lush jungles, rolling hills, and coffee plantations of Coorg in Southern India; cocooned by an extended family whose roots to this beautiful land can be traced for centuries. Their futures seem inevitably linked, but everything changes when, one night, they attend a "tiger wedding." It is there that Devi gets her first glimpse of Machu, the celebrated tiger killer and a hunter of great repute. Although she is still a child and Machu is a man, Devi vows to marry him one day. It is this love that will gradually drive a wedge between Devi and Devanna, sowing the seed of a devastating tragedy that will change the fate of all three --- an event that has unforeseen and far-reaching consequences for generations to come. Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

Born against a background of privation and civil war, divided along lines of caste, class, language and religion, independent India emerged, somehow, as a united and democratic country. Ramachandra Guha's hugely acclaimed book tells the full story – the pain and the struggle, the humiliations and the glories – of the world's largest and least likely democracy. While India is sometimes the most exasperating country in the world, it is also the most interesting. Ramachandra Guha writes compellingly of the myriad protests and conflicts that

have peppered the history of free India. Moving between history and biography, the story of modern India is peopled with extraordinary characters. Guha gives fresh insights into the lives and public careers of those long-serving Prime Ministers, Jawaharlal Nehru and Indira Gandhi. But the book also writes with feeling and sensitivity about lesser-known (though not necessarily less important) Indians – peasants, tribals, women, workers and musicians. Massively researched and elegantly written, *India After Gandhi* is a remarkable account of India's rebirth, and a work already hailed as a masterpiece of single volume history. This tenth anniversary edition, published to coincide with seventy years of India's independence, is revised and expanded to bring the narrative up to the present.

The goal of eliminating disparities in health care in the United States remains elusive. Even as quality improves on specific measures, disparities often persist. Addressing these disparities must begin with the fundamental step of bringing the nature of the disparities and the groups at risk for those disparities to light by collecting health care quality information stratified by race, ethnicity and language data. Then attention can be focused on where interventions might be best applied, and on planning and evaluating those efforts to inform the development of policy and the application of resources. A lack of standardization of categories for race, ethnicity, and language data has been suggested as one obstacle to achieving more widespread collection and utilization of these data. *Race, Ethnicity, and Language Data* identifies current models for collecting and coding race, ethnicity, and language data; reviews challenges involved in obtaining these data, and makes recommendations for a nationally standardized approach for use in health care quality improvement.
