and Globalization**

Zed Books Ltd.

Transnational feminism
has been critical to
feminist theorizing in
the global North over
the last few decades.
Perhaps due to its

broad terminology,
transnational feminism
can become vague and
dislocated, losing its
ability to name specific
critiques of and
responses to empire,
race, and globalization
that are emboldened
by its transnational
remit. This volume
encompasses an
expansive engagement

and exploration of transnational South Asian feminist movements, networks, and critiques within the context of the popular and the diaspora in South Asia. The contributing authors address key issues in a global context, especially as they operate both in a situated and the diasporic imaginary of South Asia. While the idea of the popular in South Asia has often been circumscribed by the spaces and cultural politics of Bollywood, this interdisciplinary volume takes an innovative turn to examine how academics, advocates, activists, and artists envision the inroads and consequences of nationalism, globalization and/or empire, which

continually remake communities and alter needs and allegiances. Through ethnography, literature, dance, cinema, activism, poetry, and storytelling, the authors analyse popular and social justice using a focused, multidisciplinary gendered lens. This book was originally published as a special issue of *South Asian Popular Culture*. [Making Feminist Sense of the Global Justice Movement](#) Inanna Reader Series This clear and concise book examines the crucial relationship between globalization and social movements. Deftly combining nuanced theory with rich empirical examples, leading scholar Valentine M. Moghadam focuses

especially on three transnational social movements-Islamism, feminism, and global justice. Defining globalization as a complex process in which the mobility of capital, peoples, organizations, movements, and ideas takes on an increasingly transnational form, the author shows how both physical and electronic mobility has helped to create dynamic global social movements.

Globalization has engendered the spread of neoliberal capitalism across the world, but it also has engendered opposition and collective action.

Political Worlds of Women Rowman & Littlefield

A thorough introduction to women's political

struggles in the local, national, regional, transnational, and international contexts, and an essential resource for students and scholars of women's studies and gender politics

Women's Activism

Studies in Feminist Philosophy

The unique experiences, perspectives and visions of young feminists are extremely valuable in both understanding the current world order and in shaping a better future. Young feminists are engaged as advocates, organisers, protesters, researchers and strategists, and their energies, visions, solidarity, creativity and passion are instrumental in defining social movements globally.

This pioneering collection brings together analyses by feminists of diverse identities on a range of themes including women's rights and economic change; new technologies; sexuality; and feminist organizations and movements. *Defending Our Dreams* includes analyses by contributors from Uruguay, Venezuela, South Africa, Tanzania, Nepal, India, Canada, the USA, Australia, Barbados and the UK. This book is essential reading for all those engaged in feminist research, organizing and activism.

Gender and the Politics of Possibilities Rowman & Littlefield Publishers
Global Feminist Politics examines the changing global context for

feminist political action, its meaning and forms. It acknowledges the existence of dissent and debate among feminists, asserting that such debate leads to innovation in theory and practice. This book reaches the conclusion that the future of the women's movement depends upon a dialogue which is unafraid to cut across perceived differences. Focusing on key issues raised by a feministic commitment to global political change, this book covers subjects including: * the relevance of contemporary feminist politics for younger women * gendered accounts of genocide and catastrophe * exile, migration and diaspora * gender and the internet * women

and the nationalist movement in India * gender issues in Pakistan, Australia, South Africa and the Middle East. Featuring an international panel of cutting-edge feminist thinkers, *Global Feminist Politics* demonstrates the innovative work being undertaken in the academic and professional worlds, as well as in women's activism. It is an invaluable resource for students in Women's Studies and Development Studies, as well as all those interested in the development of contemporary global feminism.

The spread and

consolidation of the women's movement in North and South over the past thirty years looks set to shape the course of social progress over the next generation. Peggy Antrobus draws on her long experience of feminist activism to set women's movements in their changing national and global context.

Solidarities Beyond Borders Rowman & Littlefield Publishers
Examining Chinese domestic as well as international circumstances surrounding the emergence of an independent women's movement in Beijing in the 1990s, this book seeks to explain how such a movement could have arisen after the repression of student activists in

Tiananmen Square in 1989. It also places this emergence in the context of theories of social movements, civil society and globalization.

Women's Activism and Globalization

Routledge

Calling for inclusion and dialogue, these essays by an international group of feminist scholars and activists stress the need to put into relation seemingly discrepant approaches to reality and to scholarship in order to build coalitions across the usual North/South and East/West divides. This diverse group of authors, who spent fourteen weeks working collaboratively, dispense with unity and seek instead to use dialogue and

difference in their production of knowledge about effective political action. The dialogues materialized here among women's movements that have emerged within different contexts and cosmologies take feminisms' challenges to contemporary corporate globalization in new empirical and theoretical directions. Women's Activism and Globalization Woodrow Wilson Center Press Gendering the State is a ground-breaking collection of studies that examines the efforts of women in countries all over the world to frame public policy debates on nationally critical issues in gendered terms. This is the latest volume in the Research Network on Gender

and the State (RNGS) collaborative studies. Using the RNGS model of women's movement and women's policy actor strategies to influence public policy debates and state response, the book looks at data gathered from ten European countries (including Finland and Sweden), plus Japan, Australia, Canada, and the United States from the 1990s to today. The overall study is grouped into three distinct patterns of state change: state downsizing—particularly in social policy areas (Canada, Finland, the Netherlands, the United States, and Spain); expansion of state activities into previously less-regulated areas (Austria, France, Germany, and Sweden); and

transformation—often constitutionally based—of representative structures (Australia, Belgium, Italy, Japan, and the United Kingdom). Examination of these patterns reveals the impact of the changes in state structures and national priorities on the effectiveness and ability of women's movement actors in achieving their goals.

Globalizing Women

Lexington Books
Challenging the neglect of feminism in accounts of the global justice movement, this book explores the origins, ideas, and practices of what Catherine Eschle and Bice Maiguashca term "feminist antiglobalization activism." Drawing on fieldwork undertaken

at the World Social Forum, the authors argue that feminists constitute a distinct, if diverse, sector of the global justice movement. Taking feminism seriously, the authors conclude, points us toward a richer and more theoretically nuanced understanding of the global justice movement and its struggle to create other possible worlds. Their book thus offers vital insights not only for feminists but also for all those interested in contemporary social movements and in global governance and resistance.

Dialogue and Difference Routledge

This up-to-date text offers a clear and cogent introduction to women in development.

Exploring the global structures and processes that impede or support the empowerment of women, Jana Everett and Sue Ellen M. Charlton use a feminist lens to understand contemporary gender roles. Without such a lens, they argue, our understanding of globalization and development is incomplete, resulting in flawed policies that fail to improve the lives of millions of people around the globe. After a set of introductory chapters that conceptually frame the issues, the authors then investigate women's struggles within and against globalization and development through powerful case studies of sex trafficking, water, work, and

health. These chapters, by using specific examples, develop the concepts of structure and agency, levels of analysis, and feminist approaches as tools to help students understand the complexities of development and alternative strategies. Through rich interdisciplinary analysis, Everett and Charlton explore the individual and collective strategies women have used to improve their lives under globalization and weigh how effective they have been. Their book will be an essential resource in women's studies, political science, political economy, anthropology, sociology, and development studies. *Women's Activism,*

The Globalization of Gender Routledge
Women's Movements in the Global Eras a path-breaking study of the genesis, growth, gains, and dilemmas of women's movements in countries throughout the world. Its focus is on the Global South, where women's movements have engaged in complex negotiations with national and international forces. It challenges widely held assumptions about the Western origins and character of local feminisms. All the

authors locate women's movements within the terrain from which they emerged by exploring their relationships with the state, civil society, and other social movements. This book is essential reading for anyone interested in the global scope and implications of feminism. Contents

Globalization and Feminist Activism
Routledge

Increasingly feminists around the world have successfully campaigned for recognition of women's full personhood and empowerment. Global Feminism explores the social and political developments that have energized this movement. Drawn from an international group of scholars and activists, the authors of these original essays assess both the opportunities that transnationalism has created and the tensions it has inadvertently fostered. By focusing on both the local and global struggles of today's feminist activists this important volume reveals much about women's changing rights, treatment and impact in the global world. of the American Sociological Association. Globalization may offer modern feminism its greatest opportunity and greatest challenge. Allowing communication and information exchange while also exacerbating economic and social inequalities, globalization has fostered the growth of transnational feminist networks (TFNs). These groups have used the Internet to build coalitions, lobby governments, and advance the goals of feminism. *Globalizing Women* explains how the negative and positive aspects of globalization have helped to create transnational networks of activists and organizations with common agendas.

Sociologist Valentine M. Moghadam discusses six such feminist networks to analyze the organization, objectives, programs, and outcomes of these groups in their effort to improve conditions for women throughout the world. Moghadam also examines how "globalizing women" are responding to and resisting growing inequalities, the exploitation of female labor, and patriarchal fundamentalisms. This book is an important addition to literature exploring feminism as well as to the broader discussion of the impact of transnational social movements and organizations in the globalized world. Women Resist Globalization JHU Press
How are global

institutions gendered? Do they play a role in continuing global inequality? Can anything be done to change them? In the first comprehensive study of global governance from a feminist perspective, this collection gathers together an exemplary line-up of internationally-renowned scholars to provide a theoretically-informed and empirically-based analysis of both the institutions of global governance and the attempts to transform them. Bringing together interdisciplinary and multi-level analyses of global governance within a coherent theoretical framework, this volume demonstrates the diversity and breadth

within feminist approaches, including case studies from institutions such as the International Criminal Court and the World Bank, as well as regional organisations, such as the EU, and covering an array of policy areas including security, trade, agriculture and macroeconomics. This book provides an invaluable addition to the literature on global governance and will be essential reading for all those who study it.
