## JAX JOVANI

*The Wit and Wisdom of Charles T. Munger* Carolina Academic Press

"A fascinating compilation of weather forecasts, recipes, jokes, and aphorisms, Poor Richard's Almanack debuted in 1732. This new edition presents hundreds of Franklin's maxims, along with selections from the Letters, Autobiography, and Franklin's Way to Wealth. An ideal resource for writers, public speakers, and students, this practical, charming little book will delight all readers with its folk wisdom"--

The old saying goes, "To the man with a hammer, everything looks like a nail." But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. *The Great Mental Models: General Thinking Concepts* is the first book in *The Great Mental Models* series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet- ignore them. Upgrade your mental toolbox and get the first volume today. **AUTHOR BIOGRAPHY** Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. We curate, examine and explore the timeless ideas and mental models that history's brightest minds have used to live lives of purpose. Our readers include students, teachers, CEOs, coaches, athletes, artists, leaders, followers, politicians and more. They're not defined by gender, age, income, or politics but rather by a shared

passion for avoiding problems, making better decisions, and lifelong learning. **AUTHOR HOME** Ottawa, Ontario, Canada

**Secrets of Inspiring Leadership** Columbia University Press

"Outlines a new approach to investing based on the ideas of two highly successful investors; Charlie Munger of Berkshire Hathaway and Bill Miller of Legg Mason. Both Munger and Miller believe in the lattice-work approach to investing, one that is based on a working knowledge of a variety of disciplines." -- Jacket.

*Political Philosophy* Pearson UK

*Being Myself* is a contemplative exploration of the essential nature of our self. Everyone has the sense of 'being myself,' but not everyone knows their self clearly. In most cases, our sense of self is mixed up with the content of experience and, as a result, its natural condition of peace and happiness is veiled. Through investigation and analogy, the meditations in this collection take us back to our true nature again and again, until we begin to find our self naturally and effortlessly established there, as that. In time, experience loses its capacity to veil our being, and its innate peace and joy emerge from the background of experience. \* \* \* *The Essence of Meditation Series* presents meditations on the essential, non-dual understanding that lies at the heart of all the great religious and spiritual traditions, compiled from contemplations led by Rupert Spira at his meetings and retreats. This simple, contemplative approach, which encourages a clear seeing of one's experience rather than any kind of effort or discipline, leads the reader to an experiential understanding of their own essential being and the peace and fulfillment that are inherent within it.

*The Success System that Never Fails* Texere

Charlie Munger, Berkshire Hathaway's visionary vice chairman and Warren Buffett's indispensable financial partner, has outperformed market indexes again and again, and he believes any investor can do the same. His notion of "elementary, worldly wisdom"—a set of interdisciplinary mental models involving economics, business, psychology, ethics, and management—allows him to keep his emotions out of his investments and avoid the common pitfalls of bad judgment. Munger's system has steered his investments for forty years and has guided generations of successful investors. This book presents the essential steps of Munger's investing strategy, condensed here for the first time from interviews, speeches, writings, and shareholder letters, and paired with commentary from fund managers, value investors, and business-case historians. Derived from Ben Graham's value-investing system,

Munger's approach is straightforward enough that ordinary investors can apply it to their portfolios. This book is not simply about investing. It is about cultivating mental models for your whole life, but especially for your investments.

*The Most Important Thing* Columbia University Press

"Peter Bevelin begins this quest for wisdom by embarking on an ambitious journey into the Darwinian forces at the reins of human decision-making, illustrating just how our pre-agrarian genetic hard-wiring all too-often leads us into disastrous lapses in judgement, whether in financial transactions, business decisions or in everyday life, and ultimately offering us methods to sidestep error and enhance success. Bevelin argues that by being aware of the driving forces behind human nature, we can then more effectively approach our responsibilities in the workplace by conditioning ourselves to approach everyday problems through the logistical anchors of mathematical and scientific thinking. The philosophy of Berkshire Hathaway's Director and Vice-Chairman Charles Munger is offered as counterpoint to the notion that we are simply pawns of our own nature; instead, by actively engaging our knowledge of the natural determinants - biology, math, physics, etc. - and through studying diligently the philosophies of those who have weathered the storm and emerged victorious, we can use this knowledge to our distinct advantage in not only business but in all walks of life."

*Modern Value Investing* ISBN Services

A practical guide to making more informed investment decisions. Investors often buy or sell stocks too quickly. When you base your purchase decisions on isolated facts and don't take the time to thoroughly understand the businesses you are buying, stock-price swings and third-party opinion can lead to costly investment mistakes. Your decision making at this point becomes dangerous because it is dominated by emotions. The *Investment Checklist* has been designed to help you develop an in-depth research process, from generating and researching investment ideas to assessing the quality of a business and its management team. The purpose of *The Investment Checklist* is to help you implement a principled investing strategy through a series of checklists. In it, a thorough and comprehensive research process is made simpler through the use of straightforward checklists that will allow you to identify quality investment opportunities. Each chapter contains detailed demonstrations of how and where to find the information necessary to answer fundamental questions about investment opportunities. Real-world examples of how investment managers and CEOs apply these universal principles are also included and help bring the concepts

to life. These checklists will help you consider a fuller range of possibilities in your investment strategy, enhance your ability to value your investments by giving you a holistic view of the business and each of its moving parts, identify the risks you are taking, and much more. Offers valuable insights into one of the most important aspects of successful investing, in-depth research. Written in an accessible style that allows aspiring investors to easily understand and apply the concepts covered. Discusses how to think through your investment decisions more carefully. With The Investment Checklist, you'll quickly be able to ascertain how well you understand your investments by the questions you are able to answer, or not answer, without making the costly mistakes that usually hinder other investors.

**Buffett and Munger a Study in Simplicity and Uncommon Common Sense** Harper Collins

From a renowned financial journalist who has written for Time, Fortune, Forbes, and The New Yorker, a fresh and unexpectedly profound book that draws on hundreds of hours of exclusive interviews with many of the world's super-investors to demonstrate that the keys for building wealth hold other life lessons as well. Billionaire investors. If we think of them, it's with a mixture of awe and suspicion. Clearly, they possess a kind of genius—the proverbial Midas Touch. But are the skills they possess transferable? And do they have anything to teach us besides making money? In Richer, Wiser, Happier, William Green draws on interviews that he's conducted over twenty-five years with many of the world's greatest investors. As he discovered, their talents extend well beyond the financial realm. The most successful investors are mavericks and iconoclasts who question conventional wisdom and profit vastly from their ability to think more rationally, rigorously, and objectively. They are master game players who consciously maximize their odds of long-term success in markets and life, while also minimizing any risk of catastrophe. They draw powerful insights from many different fields, are remarkably intuitive about trends, practice fanatical discipline, and have developed a high tolerance for pain. As Green explains, the best investors can teach us not only how to become rich, but how to improve the way we think, reach decisions, assess risk, avoid costly errors, build resilience, and turn uncertainty to our advantage. Green ushers us into the lives of more than forty super-investors, visiting them in their offices, homes, and even their places of worship—all to share what they have to teach us. Richer, Wiser, Happier brings together the thinking of many of the greatest investment minds, from Sir John Templeton to Charlie Munger, Jack Bogle to Ed Thorp, Will Danoff to Mohnish Pabrai, Bill Miller to Laura Geritz, Joel Greenblatt to Howard Marks. In explaining how they think and why they win, this landmark book provides gems of insight that will enrich you not only financially but also professionally and personally.

**The Essays of Warren Buffett** Jaico Publishing House

Foreword by Jim Rohn, C.P.A.E. author of The Five Major Pieces to the Life Puzzle Introduction by Bettie B. Youngs, Ph.D., Ed.D. author of Values from the Heartland Two of the world's most renowned and respected motivational speakers have joined forces to bring you the definitive book on motivating others. Joe Batten, mentor to Ross Perot and author of Tough-Minded Management, has teamed-up with Mark Victor Hansen, coauthor of the Chicken Soup for the Soul series, to show you how to inspire top performance from yourself and those you lead: how you can become The Master Motivator. The simple yet powerful steps detailed in this book will bring you the personal success you are striving for and transform your workers and your workplace. MARK VICTOR HANSEN is one of the world's greatest professional motivational speakers. He is the author of numerous books, including the bestselling Chicken Soup for the Soul, A 2nd Helping of Chicken Soup for the Soul and the Chicken Soup for the Soul Cookbook. JOE BATTEN, M.S., C.P.A.E., is the first professional speaker voted into the Speakers Hall of Fame and the man that coined the phrase "Be all that you can be" for the United States.

**The Inside Story of a Wall Street Trader** John Wiley & Sons Bold=New to this edition Now greatly expanded in its second edition, Political Philosophy: The Essential Texts is ideal for survey courses in social and political philosophy. Offering coverage from antiquity to the present, this historically organized collection presents the most significant works from nearly 2,500 years of political philosophy. It moves from classical thought (Plato, Aristotle) through the medieval period (Augustine, Aquinas) to modern perspectives (Machiavelli, Hobbes, Locke, Rousseau, Hume, Smith, Hamilton and Madison, Kant). The book includes work from major nineteenth-century thinkers (Hegel, Marx and Engels, Mill) and twentieth-century theorists (Rawls, Nozick, Charles Taylor, Foucault, Habermas, Virginia Held) and also presents a variety of notable documents and addresses, including The Declaration of Independence, The Constitution of the United States, The Declaration of the Rights of Man and of the Citizen, The Universal Declaration of Human Rights, and speeches by Pericles, Edmund Burke, Abraham Lincoln, Elizabeth Cady Stanton, and Martin Luther King, Jr. The readings are substantial or complete texts, not fragments. In addition to the new selections noted above in bold, the second edition also includes more essays from Aristotle, Locke, Hume, Smith, Hamilton and Madison, Kant, and Mill. An especially valuable feature of this

volume is that the works of each author are introduced with an engaging essay by a leading contemporary authority. These introductions include Richard Kraut on Plato and Aristotle; Paul J. Weithman on Augustine and Aquinas; Roger D. Masters on Machiavelli; Jean Hampton on Hobbes; A. John Simmons on Locke; Joshua Cohen on Rousseau and Rawls; Donald W. Livingston on Hume; Charles L. Griswold, Jr., on Smith; Bernard E. Brown on Hamilton and Madison; Paul Guyer on Kant; Steven B. Smith on Hegel; Richard Miller on Marx and Engels; Jeremy Waldron on Mill; Thomas Christiano on Nozick; Robert B. Talisse on Taylor; Thomas A. McCarthy on Foucault and Habermas; and Cheshire Calhoun on Held.

**The Art of Being Rational** Penguin

This book is about the fictitious Seeker, who has known a lot of misery, and his visit to the "Library of Wisdom" where he meets another fictitious character - the Librarian - along with Warren Buffett and Charles Munger. The Seeker learns how to make better decisions to help his children avoid doing the dumb things he has done. For instance, he learns from Buffett and Munger the best way to prevent trouble is to avoid it altogether by learning what works and what does not. They do so in the spirit of the anonymous man who said: "All I want to know is where I'm going to die so I'll never go there." Additionally, the book provides examples of pure folly and some lessons on how to make fewer dumb mistakes than other people. And then how to fix mistakes faster, should you make them. The major lesson is "ignorance removal" and the notion that decision-making is not about making brilliant decision, but avoiding terrible ones. This is not a book for those who like complexities or advanced math - rather it's for those who love efficiency, simplicity and common sense or judgment - hallmarks of Buffett and Munger. Like Einstein, both have a remarkable ability to eliminate folly and superficiality and get directly to the heart of things.

**Charlie Munger** Simon and Schuster

First published in 1733, this work shows Franklin's unusual and controversial approach of injecting witty, unexpected entries between standard tables of tides, planetary motion, and weather predictions in his Almanack. It became the most popular book of its kind in colonial America. This facsimile offers a unique and entertaining look at 18th century American life.

**The Art of Action** Independently Published

In the third edition of this international best seller, Lawrence Cunningham brings you the latest wisdom from Warren Buffett's annual letters to Berkshire Hathaway shareholders. New material addresses: the financial crisis and its continuing implications for investors, managers and society; the housing bubble at the bottom of that crisis; the debt and derivatives excesses that fueled the crisis and how to deal with them; controlling risk and protecting reputation in corporate governance; Berkshire's acquisition and operation of Burlington Northern Santa Fe; the role of oversight in heavily regulated industries; investment possibilities today; and weaknesses of popular option valuation models. Some other material has been rearranged to deepen the themes and lessons that the collection has always produced: Buffett's "owner-related business principles" are in the prologue as a separate subject and valuation and accounting topics are spread over four instead of two sections and reordered to sharpen their payoff. **MUNGER BK** Wentworth Press

Every year, thousands upon thousands of people make the pilgrimage to the Berkshire Hathaway annual shareholders meeting to hear the wisdom of one of the smartest men in the business—Charlie Munger. Find out what he has to say! Charlie Munger is one of the most successful businessmen in the world. He is worth more than a billion dollars and has spent his career not only honing his own business decision-making abilities but also teaching others to do the same. Now, all of his wisdom and insight into wealth management is collected in one place. Author Oxana Dubrovina wants to give you a crash course in Munger's life-changing philosophy. This success self-help guide and motivational biography will put you on the road to a bright financial future by using Munger, as well as other inspirational leaders like Benjamin Franklin, Lee Kuan Yew, and even Jesus Christ, to illustrate important messages about how to live a good, honest, and successful life.

**Poor Charlie's Almanack** W. W. Norton

My personal goal is to help people reach their financial goals. One way of doing that is through investing education. The book is my attempt to help with the development of a strong investing mindset and skillset to help you make better investment decisions. There is a gap in the value investing world. Benjamin Graham published The Intelligent Investor in 1949 with several subsequent editions up to 1972, while Seth Klarman published Margin of Safety in 1991. With more than 50 years since Graham published his masterpiece and almost 30 since Klarman's, there was the need for a contemporary book to account for all the changes in the financial environment we live in. Modern Value Investing book does exactly that, in 4 parts. Part 1 discusses the most important psychological traits a successful investor should have. Part 2 describes 25 tools that help with investment analysis. Part 3 applies those tools on an example. Part 4 is food for investing thought as it discusses modern approaches to investing. Approaches range from an all-weather portfolio strategy to hyperbolic discounting and others you can take advantage of when the time is right.

**The Great Mental Models** Daniel Pecaut

Words of wisdom from Charlie Munger—Warren Buffett's longtime business partner and the visionary Vice Chairman of Berkshire Hathaway—collected and interpreted with an eye towards investing by David Clark, coauthor of the bestselling Buffettology series. Born in Omaha, Nebraska in 1924 Charlie Munger studied mathematics at the University of Michigan, trained as a meteorologist at Cal Tech Pasadena while in the Army, and graduated magna cum laude from Harvard Law School without ever earning an undergraduate degree. Today, Munger is one of America's most successful investors, the Vice Chairman of Berkshire Hathaway, and Warren Buffett's business partner for almost forty years. Buffett says "Berkshire has been built to Charlie's blueprint. My role has been that of general contractor." Munger is an intelligent, opinionated business man whose ideas can teach professional and amateur investors how to be successful in finance and life. Like The Tao of Warren Buffett and The Tao of Te Ching, The Tao of Charlie Munger is a compendium of pithy quotes including, "Knowing what you don't know is more useful than being brilliant" and "In my whole life, I have known no wise people who didn't read all the time—none, zero." This collection, culled from interviews, speeches, and questions and answers at the Berkshire Hathaway and Wesco annual meetings, offers insights into Munger's amazing financial success and life philosophies. Described by Business Insider as "sharp in his wit and investing wisdom," Charlie Munger's investment tips, business philosophy, and rules for living are as unique as his life story; intelligent as he clearly is; and as successful as he has been.

**The Fall of RJR Nabisco** Createspace Independent Publishing Platform

Charles Munger is Warren Buffett decade's long business partner, and his investment filter, jokingly called by Mr. Buffett - the abominable no man. The early pages cover Munger's family history, his framework for investing [wait for the fat pitches, and assess each opportunity using rational, rigorous frameworks drawn from multiple disciplines (and not finance theory!)], and even some warm testaments from family, friends and colleagues. The next section, assembled by leading investor Whitney Tilson, is well edited and benefits from Tilson's massaging of quotations made over time into logical sub-headings. The bulk of the text though is, as the subtitle suggests, the wit and wisdom of Mr. Munger as conveyed through various speeches in the last couple decade or so before 2006.

**University of Berkshire Hathaway** Simon and Schuster Traders Guns and Money is a wickedly comic exposé of the culture, games and pure deceptions played out every day in

trading rooms around the world. And played out with other people's money. A sensational insider's view of the business of trading and marketing derivatives, this revised edition explains the frighteningly central role that derivatives and financial products played in the global financial crisis. This worldwide bestseller reveals the truth about derivatives: those financial tools memorably described by Warren Buffett as 'financial weapons of

mass destruction'. Traders, Guns and Money will introduce you to the players and the practices and reveals how the real money is made and lost. The global financial crisis took almost everyone by surprise and even now new problems keep appearing and solutions continue to be elusive. In the original version of Traders, Guns and Money, Satyajit Das provided a highly prescient insight

into the structure and risk of the world financial system exposing the problems that are becoming readily apparent. In a 2006 speech - The Coming Credit Crash - Das argued that: "an informed analysis ... shows that risk is not better spread but more leveraged and (arguably) more concentrated.... This does not improve the overall stability and security of the financial system but exposes it to increased risk of a "crash".
