*Di tempo in tempo. Per le Scuole superiori* Bordighera Incorporated Essays. Theater. Edited by Daniele Benati. Translated by Adria Bernardi. "Baldini's texts have the wonderful simplicity of fairy tales. It is for this reason that they can be read again and again without becoming tiresome. In the entire civilized western world, simplicity is usually considered as something inferior. Baldini is one of the few who makes us realize that simplicity is the highest conquest of words. But he achieves it through an unbelievably

pliable, modulated, and complex prosody, which revolves around a few fundamental sounds, as in modern music. His dialect is a reservoir of these fundamental sounds of emotion" - Gianni Celati.

Greene's fine sense of humor is displayed in this warm and far-reaching comic novel, *Travels with My Aunt*, a bestseller when it appeared originally. At his mother's funeral, Henry Pulling, a stuffy, retired bank manager with an interest in dahlias, meets his Aunt Augusta. The indomitable Aunt Augusta pulls Henry along on a whirlwind adventure traveling with an old lover,

Wordsworth; Curran, the founder of a doggies' church; O'Toole, the C.I.A. man obsessed by statistics and his counter-culture daughter; and old Mr. Visconti, who has been wanted by Interpol for twenty years. Henry describes their activities with shock and bewilderment, and finally with the tenderness, of a fellow traveler going their way.

A talented artist and doctor recalls his exile in the primitive Italian village of Galiano during the Abyssinian War of 1935

Adonis' influence on Arabic literature has been likened to that of T. S. Eliot in the English-speaking world. Yet alongside this spearheading of a modernist literary revolution, the secular Syrian-born poet is also renowned for his persistent and staunch attacks on despotism across the Arab world. In these conversations with

the psychoanalyst Houria Abdelouahed, Adonis brings into sharp relief the latest wave of violence and war to engulf Arabic countries, tracing the cause of ongoing tensions back to the beginnings of Islam itself. Since the death of the prophet Muhammad, Islam has been used as a political and economic weapon, exploiting and reinforcing tribal divisions to aid the pursuit of power. Adonis argues that recent events in the Middle East - from the failures of the Arab Spring to the rise of ISIS and the bloody war in his native Syria - attest to the destructive effects of an Islamic worldview that prohibits any notion of plurality and breeds violence. If there is to be any hope of peace or progress in the Arab world, it is therefore imperative that these mentalities are overcome. In

their place, Adonis urges a new spirit of enquiry, embodied in the freedoms to interrogate the past and to question cultural norms. Adonis' penetrating analysis comes at a critical time, offering an alternative path to the cycle of violence that plagues the Arab world today.

From the author of *Heaven and Earth*, a sensational novel about whether a "prime number" can ever truly connect with someone else. A prime number is inherently a solitary thing: it can only be divided by itself, or by one: it never truly fits with another. Alice and Mattia, too, move on their own axis, alone with their personal tragedies. As a child, Alice's overbearing father drove her first to a

terrible skiing accident, and then to anorexia. When she meets Mattia she recognizes a kindred, tortured spirit, and Mattia reveals to Alice his terrible secret: that as a boy he abandoned his mentally-disabled twin sister in a park to go to a party, and when he returned, she was nowhere to be found. These two irreversible episodes mark Alice and Mattia's lives for ever, and as they grow into adulthood their destinies seem intertwined: they are divisible only by themselves and each other. But the shadow of the lost twin haunts their relationship, until a chance sighting by Alice of a woman who could be Mattia's sister forces a lifetime of secret emotion to the surface. A meditation on loneliness and love, *The Solitude of Prime Numbers* asks, can we ever truly

be whole when we're in love with another? And when Mattia is asked to choose between human love and his professional love — of mathematics — which will make him more complete?

The classic novel of freedom and the search for authenticity that defined a generation *On the Road* chronicles Jack Kerouac's years traveling the North

American continent with his friend Neal Cassady, "a sideburned hero of the snowy West." As "Sal Paradise" and "Dean Moriarty," the two roam the country in a quest for self-knowledge and experience. Kerouac's love of America, his compassion for humanity, and his sense of language as jazz combine to make *On the Road* an inspirational work of lasting importance. Kerouac's classic novel of freedom and longing defined what it meant to be "Beat" and has inspired every generation since its initial publication more than fifty years ago. *The Professor Illustrated* Penguin  
The inspiring true story of Greta Thunberg, a young eco-activist whose persistence sparked a global movement. You are never too young to make a difference. Ever since she learned about

climate change, Greta Thunberg couldn't understand why politicians weren't treating it as an emergency. In August 2018, temperatures in Sweden reached record highs, fires raged across the country, and fifteen-year-old Greta decided to stop waiting for political leaders to take action. Instead of going to school on Friday, she made a sign and went on strike in front of Stockholm's parliament building. Greta's solo protest grew into the global Fridays for Future—or School Strike 4 Climate—movement, which millions have now joined. She has spoken at COP24 (the UN summit on climate change) and has been nominated for the Nobel Peace Prize. This timely, unofficial biography is her story, but also that of many others around the world willing to fight against

the indifference of the powerful for a better future.

When ten-year-old Enaiatollah Akbari's small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat's remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a

truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat's close collaboration with Italian novelist Fabio Geda and expertly rendered in English by an award-winning translator, this novel reconstructs the young boy's memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, *In the Sea There Are Crocodiles* brilliantly captures Enaiat's moving and engaging voice and lends urgency to an epic story of hope and survival.

*The Professor* was the first novel by Charlotte Brontë. It was written before *Jane Eyre*, but was rejected by many

publishing houses. It was eventually published, posthumously, in 1857, with the approval of Charlotte Brontë's widower, Arthur Bell Nicholls, who took on the task of reviewing and editing the text.

*Greta's Story* Cambridge University Press  
Race is real because we perceive it. Racism is real because we enact it. But the appeal to science to strengthen racist ideologies is on the rise - and increasingly part of the public discourse on politics, migration, education, sport and intelligence. Stereotypes and myths about race are expressed not just by overt racists, but also by well-intentioned people whose experience and cultural baggage steer them towards views that are not supported by the modern study of human genetics.

Even some scientists are uncomfortable expressing opinions deriving from their research where it relates to race. Yet, if understood correctly, science and history can be powerful allies against racism, granting the clearest view of how people actually are, rather than how we judge them to be. **HOW TO ARGUE WITH A RACIST** is a vital manifesto for a twenty-first century understanding of human evolution and variation, and a timely weapon against the misuse of science to justify bigotry.

*Christ Stopped at Eboli* John Wiley & Sons

"A bold and subversive retelling of the goddess's story," this #1 New York Times bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the

Odyssey as a hero in her own right" (Alexandra Alter, *The New York Times*). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus.

But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People,

Club, Christian Science Monitor, Refinery 29, BuzzFeed, Paste, Audible, Kirkus, Publishers Weekly, Thrillist, NYPL, Self, Real Simple, Goodreads, Boston Globe, Electric Literature, BookPage, the Guardian, Book Riot, Seattle Times, and Business Insider.
