Every team consists of KEY performers, who bring glory, as well as negative VIRUSES, who contribute to the poisonous pollution at the workplace. Just like dry air has ten types of gas

components, each with distinctive characteristics, every team has different types of teammates with unique characteristics. Want to identify the Nitrogen (N₂), Oxygen (O₂), Argon (Ar), Hydrogen (H₂), Methane (CH₄), Krypton (Kr), Helium (He), Neon (Ne), Xenon (Xe) and Carbon Dioxide (CO₂) within your team? Check out the Air Team Theory! The Air Team Theory compares the characteristics of each teammate type to the characteristics of each gas. It shares scenarios, conversations and behavior patterns of different teammate types. This book also shares the best practices and experiences to effectively lead all the ten types of teammates as one team. This book is for you if you are either a team member or a manager or a director or from top management or an entrepreneur or a leader working with any type or size of team. Most of you will see yourself and even your teammates in at least one of the teammate types explained in this book. 'Godan' is an epic in Hindi prose. It is the most famous work of Munshi Premchand. 'Godan' gives a vivid picture of the condition of Indian farmers during the author's lifetime. The novel is relevant today because the rural folks' problems still exist. Farmers have generally been exploited by money-lenders, government officials and superstitious community members. Hori, a well-off cultivator, suffers for his dependence on these exploiters. He works very hard, grows various crops, yet starves with his family because almost all his crops are given away to clear the creditor' dues. He efforts to protect his family dignity but fails because he was continuously exploited.
