This is my second academic writing skills workbook. It contains questions and answers on topics to improve academic English writing skills. The questions are typical of those used in exams for an English diploma for university entrance. These practical writing exercise support my previous three "Academic Writing Skills" series books: 1. "Learn

English Paragraph Writing Skills" 2. "Practical Academic Essay Writing Skills" 3. "The 5 Step Essay Writing Process" The exercise groups cover grammar areas such as capitals, commas, sentence structure and errors, and subject/verb agreement required for confident academic English writing skills. As well as the common grammar questions, there are questions to improve essay writing skills such as topic and supporting sentences, unity, coherence, and examples of transition signals. I would recommend ESL Students in low-intermediate to low-advanced English classes use this workbook for developing their academic English writing skills.

Pearson ELT
You are buying this textbook directly from its author, Charlie Dang. Compassionated with the fact that college students are tormented after they fail a series of written tests or university graduation writing proficiency exams, and that a graduate student at San Diego State University kills one professor and wounds three others of his thesis committee with a gun (in

1994) after he fails to defend his Master's Degree thesis the third time, Charlie Dang flees the ruins of his own mind after his daring and fateful trip across the Pacific Ocean on a little fishing boat from his homeland - Vietnam - to give birth to this brainchild, with a desire to help his student peers pass such written tests or university graduation writing proficiency exams with ease and be able to write correctly, creatively, effectively, accurately and consistently regardless of the subjects. Composed with 538 pages of comprehensive English grammar, the book is structured to progress from the most basic step to the most advanced level of comprehension, including practice exercises, essay-writing techniques and tactics, effective writing skills, and sample tests that are almost identical to those being administered on campuses. The English-Vietnamese version of this book will also be soon available on this web site.

Essential Tasks and Skills Oxford University Press, USA

Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the

genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for

presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. Each chapter features crafts for effective

communication, authentic writing examples, practical applications, and reflective questions. Fang complements these features with self-assessment tools for writers and tips for empowering writers. Assuming no technical knowledge, this text is ideal for both non-native and native English speakers, and suitable for courses in academic writing, rhetoric and composition, and language/literacy education.
