life forever and make you a master of your own mind? We all have problems, some are solvable but others not so much. The usual obstacles we can't easily solve are often in our minds. This is the moment you'll recognize how important it's to be mentally ahead of others. It can be your manipulative partner that's psychologically torturing you, and you don't know what to do about it. Days are passing and you're feeling powerless, the pain of not being in control of your

life is killing you. Or... Maybe you have a boss that's always on top of you because you're the weakest link at your job. Well, you might have a business interview coming up, are you sleeping well the night before? Or you're scared of the possible outcomes. This can go on and on, do you know why? Because you'll always have to handle people, that's a fact. Every day you deal with someone, there is a chance they'll intellectually challenge you, but you know what?

You can change that! You can be the superior, the mentally tough and prepared person that anyone can depend on. Think about the things you could've done differently if you were mentally strong. The things you missed to achieve that day because you weren't in the right state of mind. If you want to change that, if you're ready to be the best version of yourself, then you have to make a choice. Do you want to keep living unaware of your surroundings, or do

you want to be ready for any obstacle that life brings your way? be? Picture yourself having a conversation with your boss, life partner, or a random person in the streets. This time you know exactly what to say, how to say it, and when to say it. This time you're in control, you're the one leading the conversation in the direction you want. Why would someone write a book on Mind Control? Because as much as we try to elevate ourselves

above being human animals we are, in fact, animals. We are subject to the wants and desires of any being with a genome and vertebrae. To rise above that is an admirable and a task we should take on as a worthy spiritual endeavor. But to deny that we are, truly, animals is to lie to ourselves. We must deal with people who may not be so enlightened advanced as we are. They may desire what we have and be secretly filled with envy and contempt. The worst event is to have

these suspicions fulfilled and then be pulled down into the politics of man. Do we deny that it's happening and hope others will be touched by our honesty and good will enough to change? Or do we drop our highest spiritual ideals and play their game? I would like to suggest a radically different strategy. Take the game of manipulation and Mind Control and make it a part of your spirituality.

Get this book with 55% discount !! What are some subtle ways that people manipulate others? How can you make sure nobody uses mind control and NLP techniques on you? If you want to know how to analyze manipulative people, detect deception, and defend yourself from their obscure strategies, this book is for you - so keep reading! Manipulation, targeted deception and NLP (Neuro-Linguistic Programming) are the world's most prevalent methods of mind control,

used by everyone from sales callers to politicians to media pundits. But upstream of tricks and strategies, it is useful to have clear ideas about relational processes that can transform a normal relationship into a manipulative dynamic of extreme effectiveness. Manipulation is defined as "having control over others by having the ability to influence their behavior (emotions) and their actions so things can go in the manipulator's favor" and "to control or play upon by artful, unfair,

or insidious means especially to one's own advantage." A manipulator tends to play on others' fears or guilt. Those being manipulated feel pressured, trapped, or angry. NLP is a technique of layering subtle meaning into spoken or written language so that you can implant suggestions into a person's unconscious mind without them knowing what you're doing. Combined with subtle language patterns, leading questions and a whole slew of other

techniques, a skilled NLPer can steer the other person wherever he like, as long as the other person isn't aware of what's happening and thinks everything is arising because he has given consent. An NLP person essentially carefully fakes the social cues that cause a person to drop their guard and enter a state of openness and suggestibility. Understanding Manipulation and NLP Techniques is crucial simply so that people can resist its use. All this leads

to an obvious question: how to defend ourselves from the manipulative tricks of other subjects? This book will reveal the 9 ways to make sure nobody uses it on you... ever. Here's what you'll learn with this book: The 5 C's of Body Language How to Master the Secrets of Non-Verbal Communication The Difference between Persuasion and Manipulation How to Analyze Your Relationship 3 Common Ways it is Used to Manipulate Others Techniques for

Defending against Manipulation How to Spot Lies with Deception Detection Techniques How to Increase Self-Esteem and Gain Confidence The Role of Defence in 9 Steps Manipulation and NLP Techniques describes in detail the dark arts of psychology and how harmful they can be to a person's mental and emotional state.
